

longitudinal effort to assess Complex Event Resilience of Small- and Medium-sized Enterprises (SMEs) during the COVID-19 pandemic. This effort was approved by the NIST Office of the Associate Director for Laboratory Programs, providing time for this work to be conducted.

As COVID-19 conditions persist, populations around the U.S. and the world have and will continue to experience heat waves, floods, hurricanes, fire, and drought during the period of virus transmission and into the period of recovery (e.g., Phillips et al., 2020). There were 22 \$1 billion extreme weather events in 2020. SMEs in areas vulnerable to natural hazards and disasters are particularly noteworthy in the context of COVID-19.

The goal of this longitudinal effort is to inform NIST research and recommendations as well as provide Federal partners (e.g., FEMA, NOAA, and SBA) with insights into how SMEs think about disaster readiness during the pandemic, both the transmission and recovery periods. The first and second waves of data collection took place during summer 2020 and fall 2020/winter 2021, respectively and were approved under the NIST Generic Clearance #0693-0078.

A third wave of data collection is proposed in order to address the research goals as SMEs begin to recover from the pandemic. This effort addresses the gap in research on the experiences of SMEs dealing with complex events generally and those that arise during a pandemic, specifically. This longitudinal study accounts for SME vulnerabilities, which may further amplify the impacts of a singular or complex event.

Proposed respondents to this data collection have already registered their interest in participation in the data collection (during Wave 2). The proposed collection is critical to understand the resilience of SMEs, which in turn allows NIST to refine recommendations relevant to SMEs. This is critical as SMEs and the communities in which they exist plan for future events while continuing to recover from COVID-19 impacts.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; NOAA Coastal Ocean Program Grants Proposal Application Package

AGENCY: National Oceanic & Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before August 9, 2021.

ADDRESSES: Interested persons are invited to submit written comments to Adrienne Thomas, NOAA PRA Officer, at Adrienne.thomas@noaa.gov. Please reference OMB Control Number 0648-0384 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Laurie Golden, Grants Administrator, 240-533-0285 or laurie.golden@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for a revision and extension of a currently approved information collection. The National Oceanic and Atmospheric Administration's Coastal Ocean Program (COP), now known as the Competitive Research Program (CRP) under the National Centers for Coastal Ocean Science, provides direct financial assistance through grants and cooperative agreements for research supporting the management of coastal ecosystems and the NOAA RESTORE Science Program (RSP). The statutory authority for COP is Public Law 102-567 Section 201 (Coastal Ocean Program). NOAA was authorized to establish and administer the Restore Science Program, in consultation with the U.S. Fish and Wildlife Service, by the Resources and Ecosystems Sustainability, Tourist Opportunities, and Revived Economies (RESTORE) of the Gulf States Act of 2012 (Pub. L. 112-141, Section 1604). Identified in the RESTORE Act as the Gulf Coast Ecosystem restoration Science, Observation, Monitoring, and Technology Program, the Program is commonly known as the NOAA RESTORE Science Program. In addition to standard government application requirements, applicants for financial assistance are required to submit a project summary form, current and pending form, and a key contacts form for both programs. CRP recipients are required to file annual progress reports and a project final report using CRP formats. The RSP are required to file semi-annual progress reports, a final report, and a Gantt chart showing project milestones using RSP formats. All of these requirements are needed for better evaluation of proposals and monitoring of awards.

Revisions to the approved annual and final reports for CRP include the request for publication digital object identifiers (DOIs). Additional information requested for RSP semi-annual and final reports include end-user details.

II. Method of Collection

Respondents have a choice of either electronic or paper forms.

III. Data

OMB Control Number: 0648-0384.

Form Number: None.

Type of Review: Regular submission (revision/extension of a currently approved collection).

Affected Public: Non-profit institutions; State, local, or tribal government; business or other for-profit organizations.

Estimated Number of Respondents: 1,200.

Estimated Time per Response: 30 minutes each for a project summary, key contacts and current and pending federal support; 6 hours for a semi-annual report; 6 hours for an annual report, 10.5 hours for a CRP final report, 10.5 hours for the RSP final report; and 1 hour for the milestone Gantt chart.

Estimated Total Annual Burden Hours: 1,875.

Estimated Total Annual Cost to Public: \$0 in recordkeeping/reporting costs.

Respondent's Obligation: Mandatory.

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for the renewal and extension of a current information collection, which includes both vessel and dealer permits.

Under the provisions of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*), the National Oceanic and Atmospheric Administration's National Marine Fisheries Service (NMFS) is responsible for management of the Nation's marine fisheries. In addition, NMFS must comply with the United States'

obligations under the Atlantic Tunas Convention Act of 1975 (16 U.S.C. 971 *et seq.*). NMFS issues permits to fishing vessels and dealers in order to collect information necessary to comply with domestic and international obligations, secure compliance with regulations, and disseminate necessary information.

Regulations at 50 CFR 635.4 require that vessels participating in commercial and recreational fisheries for Atlantic highly migratory species (HMS) and dealers purchasing Atlantic HMS from a vessel obtain a Federal permit issued by NMFS. This action addresses the renewal of permit applications currently approved under PRA 0648-0327, including both vessel and Atlantic Tunas Dealer permits. Vessel permits include Atlantic Tunas (except Longline permits, which are approved under PRA 0648-0205), HMS Charter/Headboat, HMS Angling, and Swordfish General Commercial permits. This action also includes the one-time requirement for commercial vessels greater than 20 meters in length to obtain an International Maritime Organization/Lloyd's Registry (IMO/LR) number.

The burden estimates in this renewal are being updated to reflect increases in the number of permits issued each year, and a \$6 increase in the price of permits due to increased costs associated with maintaining and executing the program.

II. Method of Collection

Methods of submittal include online, email, and mail.
