SUPPLEMENTARY INFORMATION:

I. Abstract

NOAA, National Marine Fisheries Service (NMFS) seeks comment on the renewal of permit information collections required to: (1) Renew and transfer of Pacific Coast Groundfish limited entry permits; (2) implement certain provisions of the sablefish permit stacking program as provided for at 50 CFR 660.372 and 660.334; and (3) issue and fulfill the terms and conditions of certain exempted fishing permits (EFP).

NMFS, Northwest Region manages the Pacific Coast Groundfish Fishery in the Exclusive Economic Zone (EEZ) off Washington, Oregon, and California under the Pacific Coast Groundfish Fishery Management Plan. The regulations implementing the Pacific Groundfish Fishery require that those individuals participating in the limited entry fishery have a valid limited entry permit. Participation in the fishery and access to a limited entry permit has been restricted to control the overall harvest capacity.

Each year permit owners are required to renew their permits by reviewing their current permit information, providing updated contact information and certifying that the permit information is correct. Similarly, a permit owner is required to request in writing a permit transfer which may involve either registering another vessel to the permit and/or conveying the permit to another person or business entity. Additional information may be requested from the permit owner to determine compliance with groundfish regulations. The regulations implementing the limited entry program are found at 50 CFR Part 660, Subpart G.

Also, NMFS requires information collections to implement a sablefish permit stacking program which will allow NMFS to prevent excessive fleet consolidation. This information collection requires a corporation or
