

Project, and LRGFCP). In addition, USIBWC maintains the Tijuana River Flood Control Project, located in the United States portion of the Tijuana River, extending 2.3 miles from the international boundary. This project provides flood protection to areas in the United States.

The proposed federal action that will be evaluated in the PEIS may include activities to ensure adequate flood control and water deliveries per international agreements and treaties, while identifying opportunities for enhancements to the riparian ecosystem and the development of recreational opportunities.

2. Alternatives

The USIBWC, as the lead agency, proposes to collect information necessary for the preparation of a PEIS and to analyze alternatives for the management of the flood control projects to ensure compliance with the projects' mandates (flood protection, water deliveries and/or boundary stabilization) while creating opportunities for habitat restoration and recreation. Management activities to be evaluated may include: (1) Construction activities, such as raising and setting back levees, recreating meanders, and modifying the river channel; (2) maintenance activities such as vegetation control, channel dredging, and erosion control; and (3) other non-structural activities, such as land management and grazing.

The PEIS will identify, describe, and evaluate the existing environmental, cultural, sociological and economical, and recreational resources; describe the flood protection projects; and evaluate the impacts associated with the alternatives under consideration. Significant issues which have been identified to be addressed in the PEIS include, but are not limited to impacts to water resources, water quality, cultural and biological resources, threatened and endangered species, and recreation. Coordination with the United States Fish and Wildlife Service will ensure compliance with the Fish and Wildlife Coordination Act of 1973, as amended. Cultural resources assessments for the project areas will be coordinated by the New Mexico State Historic Preservation Officer, the Texas State Historic Preservation Officer, and the California State Historic Preservation Officer. Other federal and state agencies will be consulted, as required, to ensure compliance with federal and state laws and regulations.

The USIBWC has invited several agencies to participate as cooperating agencies pursuant 40 CFR 1501.6, to the

extent possible. Other agencies may be invited to become cooperators as they are identified during the scoping process.

The environmental review of this project will be conducted in accordance with the requirements of NEPA, CEQ Regulations (40 CFR parts 1500–1508), other appropriate federal regulations, and the USIBWC procedures for compliance with those regulations. Copies of the PEIS will be transmitted to federal and state agencies and other interested parties for comments and will be filed with the Environmental Protection Agency in accordance with 40 CFR parts 1500–1508 and USIBWC procedures.

The USIBWC anticipates the Draft PEIS will be made available to the public by November 2005.

Dated: November 16, 2004.

Susan E. Daniel,
General Counsel.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

Notice [04–145]

Notice of Establishment of a NASA Advisory Committee, Pursuant to the Federal Advisory Committee Act, 5 U.S.C. App. 1 et seq.

AGENCY: National Aeronautics and Space Administration (NASA).

Explanation of Need: The Administrator of the National Aeronautics and Space Administration has determined that the establishment of the NASA Summit Industry Panel 2005 is necessary and in the public interest in connection with the performance of duties imposed upon NASA by law. This determination follows consultation with the Committee Management Secretariat, General Services Administration.

Name of Committee: Summit Industry Panel 2005.

Purpose and Objective: The Panel will draw on the expertise of its members and other sources to provide its advice and recommendations to the Associate Administrator for Space Operations on plans, policies, programs, and other matters pertinent to the Space Operations Mission Directorate's responsibilities, including integrating and implementing aerospace industry approaches, resources, and capabilities to support the Space Shuttle Program (SSP), the International Space Station (ISS), and future needs of the Agency as applicable to the preparation and

conduct of the Integrated Space Operations Summit (ISOS) currently scheduled for 2005. The Panel will hold meetings and make site visits as necessary to accomplish their responsibilities. The Panel will function solely as an advisory body and will comply fully with the provisions of the Federal Advisory Committee Act.

Lack of Duplication of Resources: The Panel's functions cannot be performed by the agency, another existing committee, or other means such as a public meeting.

Fairly Balanced Membership: Membership will be selected from among industry representatives to ensure a balanced representation of expertise and points of view in scientific and technical areas relevant to space flight and exploration.

Duration: Ad hoc.

Responsible NASA Official: Col. (Ret) Stephen Pitotti, Special Assistant for Program Integration for the Deputy Associate Administrator for Space Station and Shuttle, National Aeronautics and Space Administration, 300 E Street, SW., Washington, DC 20546, telephone (202) 358–4764.

P. Diane Rausch,

Advisory Committee Management Officer,
National Aeronautics and Space Administration.

NUCLEAR REGULATORY COMMISSION

[Docket No. 52–008]

Dominion Nuclear North Anna, LLC; Notice of Availability of the Draft Environmental Impact Statement for an Early Site Permit (ESP) at the North Anna ESP Site and Associated Public Meeting

Notice is hereby given that the U.S. Nuclear Regulatory Commission (NRC, the Commission) has published NUREG–1811, "Draft Environmental Impact Statement for an Early Site Permit (ESP) at the North Anna ESP Site," (DEIS). The site is located near the Town of Mineral in Louisa County, Virginia, on the southern shore of Lake Anna. The application for the ESP was submitted by letter dated September 25, 2003, pursuant to 10 CFR Part 52. The application included a site redress plan in accordance with 10 CFR 52.17(c) and 52.25. If the site redress plan is incorporated in an approved ESP, then the applicant may carry out certain site preparation work and preliminary construction activities. A notice of
