DEPARTMENT OF AGRICULTURE

Forest Service

Six Rivers National Forest, Mad River Ranger District, Ruth, CA, Beaverslide Timber Sale and Fuel Treatment Project

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare a supplemental environmental impact statement.

SUMMARY: The Forest Service is proposing the Beaverslide Timber Sale and Fuel Treatment Project to provide timber products to local economies and to reduce hazardous fuels in strategically located high-risk areas around communities in the vicinity of Ruth, California. The Beaverslide planning area encompasses approximately 13,236 acres; 11,757 acres are National Forest System (NFS) lands and 1,479 acres are in private ownership. The project would treat approximately 5,500 acres of NFS lands by harvesting timber through thinning on approximately 2,800 acres, and reducing fuels on an additional 2,700 acres.

The proposed project would take place within the Upper Mad River watershed on NFS lands administered by the Mad River Ranger District in Trinity County, California. The legal location includes portions of the following townships: Township 2 South, Range 7 East; Township 2 South, Range 8 East; and Township 3 South, Range 7 East; Township 3 South, Range 8 East, Humboldt Baseline and Meridian, and Township 26 North, Range 12 West; Township 27 North, Range 12 West, Mount Diablo Baseline and Meridian.

DATES: The draft supplemental environmental impact statement is expected to be issued by May 2010 and the final supplemental environmental impact statement is expected to be issued in August 2010.

FOR FURTHER INFORMATION CONTACT: Jim C. Gumm; Mad River Ranger District; 741 State Highway 36; Bridgeville, CA 95526 or by telephone at (707)-574-6233.

Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern Time, Monday through Friday.

SUPPLEMENTARY INFORMATION: The Beaverslide Timber Sale and Fuel Treatment Project is designed to contribute timber commodity outputs in support of the Six Rivers Forest National Forest Land and Resource Management Plan (LRMP). One of the goals of the LRMP is to provide a stable supply of outputs and services that contribute to local, regional, and national social and economic needs. The Six Rivers National Forest seeks to provide a sustainable, predictable, long-term timber supply for local economies (LRMP p. II-2).

The project area also occurs within the wildland-urban interface (WUI) for communities in the vicinity of Ruth, California. In 2005, the Trinity County Fire Safe Council completed a Community Wildfire Protection Plan to address the fire risk surrounding these communities. There are several homes and businesses in the area that are within the WUI. Fuel hazards are moderate but fire risk relative to human safety and property is high due to the number of people in the area. The project is designed to reduce fire hazard and risk to the community.

Purpose and Need for Action

Given Forest goals and environmental conditions within the planning area, the Purpose and Need for the proposed action is to:

- Provide timber commodities that contribute towards the Forest's goal to

provide a sustainable, predictable, long-term timber supply for local economies; and

- Reduce fuel loading in strategic locations to improve fire protection and human safety around communities in the vicinity of Ruth, California.

Within the context of meeting the purpose and need, there would be opportunities for fuelwood or biomass utilization associated with proposed activities.

Proposed Action

The proposed action is designed to meet the project's purpose and need while meeting the standards and guidelines of the LRMP. The Beaverslide Timber Sale and Fuel Treatment Project would treat vegetation to provide commodities and reduce hazardous fuel conditions.

1. Approximately 20–30 million board feet (MMBF) of timber would be harvested from approximately 2,800 acres within 95 treatment units. Harvesting would be accomplished by utilizing ground-based, skyline, and helicopter logging systems. Actions connected with commercial timber harvest include:

a. Treating harvest activity generated fuel;

b. Constructing approximately 5.4 miles of new temporary road, and re-opening/re-utilizing approximately 2.9 miles of existing non-system roads;

c. Constructing new landings and reutilization of existing landings;

d. Hauling of commercial timber products on County Road 504 and Forest Service System roads within the planning area;

e. Felling and removal, where appropriate, of hazard trees along haul routes; and

f. Decommissioning, maintaining, and reconstructing roads as needed.

2. Fuel loading would be reduced on approximately 2,700 acres within 20 fuel treatment units and 7 strategic fuel treatment corridors.

Responsible Official

The responsible official will be the Forest Supervisor for the Six Rivers National Forest.

Nature of Decision To Be Made

The responsible official will consider the comments, response, disclosure of environmental consequences, and applicable laws, regulations, and policies in making the decision and stating the rationale in the Record of Decision.

Scoping Process

Comments received during the initial scoping process, the 45-day public comment period for the original DEIS, and the appeal filing period provided numerous opportunities for public comment. Since this NOI involves the intent to publish a supplemental EIS instead of the initiation of a new project, no additional comments are needed at this time. Public comment will again be solicited at the onset of the 45-day comment period when the supplemental DEIS is published.

Dated: April 15, 2010.

Forest Supervisor, Six Rivers National Forest.

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Papahānaumokuākea Marine National Monument Permit Application and Reports for Permits (formerly known as Northwestern Hawaiian Islands Marine National Monument).

OMB Control Number: 0648-0548.

Form Number(s): NA.

Type of Request: Regular submission.

Number of Respondents: 192.

Average Hours per Response: Permit applications and reports, 6 hours; VMS certification and entry/exit notices, 5 minutes.

Burden Hours: 1,343.

Needs and Uses: On June 15, 2006, President Bush established the Papahānaumokuākea Marine National Monument under the authority of the

Antiquities Act (Act, 16 U.S.C. 431).

The proclamation includes restrictions and prohibitions regarding activities in the monument consistent with the authority provided by the Act. Specifically, the proclamation prohibits access to the monument except when passing through without interruption or as allowed under a permit issued by NOAA and the U.S. Fish and Wildlife Service (FWS). Vessels passing through the monument without interruption are required to notify NOAA and FWS upon entering into and leaving the monument. Individuals wishing to access the monument to conduct certain regulated activities must first apply for and be granted a permit issued by NOAA and FWS to certify compliance with vessel monitoring system requirements, monument regulations, and best management practices.

Affected Public: Business or other for-profit organizations; not-for-profit institutions; State, Local and Tribal government, individuals and households.

Frequency: Annually and on occasion.

Respondent's Obligation: Required to obtain or retain benefits.
