

distinct work, and distributes that work to an audience. In this clause, the term "news" means information that is about current events or that would be of current interest to the public. Examples of news-media entities are television or radio stations broadcasting to the public at large and publishers of periodicals (but only if such entities qualify as disseminators of "news") who make their products available for purchase by or subscription by or free distribution to the general public. These examples are not all-inclusive. Moreover, as methods of news delivery evolve (for example, the adoption of the electronic dissemination of newspapers through telecommunications services), such alternative media shall be considered to be news-media entities. A freelance journalist shall be regarded as working for a news-media entity if the journalist can demonstrate a solid basis for expecting publication through that entity, whether or not the journalist is actually employed by the entity. A publication contract would present a solid basis for such an expectation; the Council may also consider the past publication record of the requester in making such a determination.

(2) The fee for documents generated by computer is the hourly rate for the computer operator (at GS 7, step 5, plus 16 percent for benefits if clerical staff, and GS 13, step 5, plus 16 percent for benefits if professional staff) plus the cost of materials (computer paper, tapes, disks, labels, etc.).

(F) *Other services.* Complying with requests for special services such as certifying records as true copies or mailing records by express mail is entirely at the discretion of the Council. The Council will recover the full costs of providing such services to the extent it elects to provide them.

(H) *Waiving or reducing fees.* As part of the initial request for records, a requester may ask that the Council waive or reduce fees if disclosure of the records is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the Council and is not primarily in the commercial interest of the requester. The initial request for records must also state the justification for a waiver or reduction of fees. Determinations as to a waiver or reduction of fees will be made by the Executive Secretary of the Council and the requester will be notified in writing

of his/her determination. A determination not to grant a request for a waiver or reduction of fees under this paragraph may be appealed to the Chairman of the Council pursuant to the procedure set forth in paragraph (b)(3)(vi) of this section.

(iii) *Categories of requesters.* (A) Commercial use requesters. The Council will assess fees for commercial use requesters sufficient to recover the full direct costs of searching for, reviewing for release, the duplicating the records sought.

* * * * *

(iv) *Interest on unpaid fees.* The Council may begin assessing interest charges on an unpaid bill starting on the 31st day following the day on which the bill was sent. Interest will be at the rate prescribed in 31 U.S.C. 3717 and will accrue from the date of the billing.

(vii) * * *

(B) A requester has previously failed to pay a fee charged in a timely fashion. The Council may require the requester to pay the full amount owed plus any applicable interest as provided in paragraph (b)(5)(iv) of this section or demonstrate that he/she has, in fact, paid the fee, and to make an advance payment of the full amount of the estimated fee before the Council begins to process a new request or a pending request from that requester.

(C) When the Council acts under paragraph (b)(5)(vii) (A) or (B) of this section, the administrative time limits prescribed in subsection (a)(6) of the FOIA (*i.e.*, 20 working days from receipt of initial requests, plus permissible extensions of these time limits) will begin only after the Council has received the fee payments described.

(6) *Records of another agency.* If a requested record originated with or incorporates the information of another state or federal agency or department, upon receipt of a request for the record the Council will promptly inform the requester of this circumstance and immediately shall forward the request to the originating agency or department either for processing in accordance with the latter's regulations or for guidance with respect to disposition.

Intramammary Dosage Form New Animal Drugs; Cloxacillin Benzathine

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule; technical amendment.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to reflect approval of a supplementary new animal drug application (NADA) filed by Boehringer Ingelheim Vetmedica, Inc. The supplement provides for minor revisions to labeling.

DATES: This rule is effective November 22, 2010.

SUPPLEMENTARY INFORMATION:

Boehringer Ingelheim Vetmedica, Inc., 2621 North Belt Highway, St. Joseph, MO 64506-2002 has filed a supplement to NADA 55-058 for DRY-CLOX (cloxacillin benzathine) Intramammary Infusion for dry dairy cattle. The supplemental NADA provides for various minor revisions to labeling. The supplemental application is approved as of October 21, 2010, and the regulations in § 526.464a (21 CFR 526.464a) are amended to reflect the approval.

In addition, FDA has noticed that certain portions of § 526.464a were inadvertently removed when the regulations were amended to reflect a change of sponsorship (75 FR 10165, March 5, 2010). At this time, the regulations are being amended to reflect fully the approved conditions of use of this new animal drug product. This change is being made to improve the accuracy of the animal drug regulations.

Approval of this supplemental NADA did not require review of additional safety or effectiveness data or information. Therefore, a freedom of information summary is not required. The Agency has determined under 21 CFR 25.33 that this action is of a type that does not individually or cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment

nor an environmental impact statement is required.

This rule does not meet the definition of “rule” in 5 U.S.C. 804(3)(A) because it is a rule of “particular applicability.” Therefore, it is not subject to the congressional review requirements in 5 U.S.C. 801–808.
