SUPPLEMENTARY INFORMATION:

Background

The NACMCF was established in March 1988, in response to a recommendation in a 1985 report of the National Academy of Sciences Committee on Food Protection, Subcommittee on Microbiological Criteria, "An Evaluation of the Role of

Microbiological Criteria for Foods." The current charter for the NACMCF and other information about the Committee are available for viewing to the public on the FSIS Web site at: http://www.fsis.usda.gov/About_Fsis/NACMCF/index.asp.

The Committee provides scientific advice and recommendations to the Secretary of Agriculture and the Secretary of Health and Human Services concerning the development of microbiological criteria by which the safety and wholesomeness of food can be assessed. For example, the Committee assists in the development of criteria for microorganisms that indicate whether food has been processed using good manufacturing practices.

Appointments to the Committee will be made by the Secretary of Agriculture after consultation with the Secretary of Health and Human Services to ensure that recommendations made by the Committee take into account the needs of the diverse groups served by the Department.

Given the complexity of issues, the full Committee expects to meet at least once a year by teleconference or in-person, and the meetings will be announced in the **Federal Register**. The subcommittees will meet as deemed necessary by the chairperson and will be held as working group meetings in an open public forum. Subcommittees also may meet through teleconference or by computer-based conferencing (Webinars). Subcommittees may invite technical experts to present information for consideration by the subcommittee. The subcommittee meetings will not be announced in the **Federal Register**. FSIS will announce the agenda and subcommittee working group meetings through the Constituent Update, available online at http://www.fsis.usda.gov/news_events/Constituent_Update/index.asp.

NACMCF holds subcommittee meetings in order to accomplish the work of NACMCF; all subcommittee work is reviewed and approved during a public meeting of the full Committee, as announced in the **Federal Register**. All data and records available to the full Committee are expected to be available to the public when the full Committee reviews and approves the work of the subcommittee.

Advisory Committee members have a two-year term, renewable for two consecutive terms. Members are expected to attend all in-person meetings for the smooth functioning of this advisory committee. However, the Advisory Committee realizes that unexpected events or extenuating circumstances (e.g., a personal or family

emergency) may result in a member's inability to attend an in-person meeting and that attendance through teleconferencing may be necessary. Some meetings may be held through teleconferencing and or Webinars exclusively.

Members must be prepared to work outside of scheduled Committee and subcommittee meetings and may be required to assist in document preparation. Committee members serve on a voluntary basis; however, travel expenses and per diem reimbursement are available.

Regarding Nominees Who Are Selected

All SGE and Federal government employee nominees who are selected must complete the Office of Government Ethics (OGE) 450 Confidential Financial Disclosure Report before rendering any advice or prior to their first meeting. All members will be reviewed for conflict of interest pursuant to 18 U.S.C. 208 in relation to specific NACMCF work charges. Financial disclosure updates will be required annually. Members must report any changes in financial holdings requiring additional disclosure. OGE 450 forms are available on-line at: <http://www.oge.gov/Financial-Disclosure/Confidential-Financial-Disclosure-450/OGE-Form-450/>.

Additional Public Notification

FSIS will announce this notice online through the FSIS Web page located at http://www.fsis.usda.gov/regulations_policies/Federal_Register_Notices/index.asp.

FSIS will also make copies of this **Federal Register** publication available through the FSIS Constituent Update, which is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, and other types of information that could affect or would be of interest to constituents and stakeholders. The Update is communicated via Listserv, a free electronic mail subscription service for industry, trade groups, consumer interest groups, health professionals, and other individuals who have asked to be included. The Update is also available on the FSIS Web page. BILLING CODE 3410-DM-P

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Northeast Region Surfclam and Ocean Quahog Individual Transfer Quota (ITQ) Administration.

OMB Control Number: 0648-0240.

Form Number(s): NA.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 170.

Average Hours per Response: Application to shuck at sea, 30 minutes; individual transferable quota (ITQ) allocation or cage tag transfer, 5 minutes.

Burden Hours: 33.

Needs and Uses: National Marine Fisheries Service (NMFS) Northeast Region manages the Atlantic surfclam and ocean quahog fisheries of the Exclusive Economic Zone (EEZ) of the Northeastern United States through the Atlantic Surfclam and Ocean Quahog

Fishery Management Plan (FMP). The Mid-Atlantic Fishery Management Council prepared the FMP pursuant to the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). The regulations implementing the FMP are specified at 50 CFR part 648.70.

The recordkeeping and reporting requirements at § 648.74 and § 648.75 form the basis for this collection of information. NMFS Northeast Region requests information from Atlantic surfclam and ocean quahog ITQ allocation holders in order to process and track requests from the allocation holders to transfer quota allocation to another entity. The region also requests information from Atlantic surfclam and ocean quahog permit holders in order to track and properly account for Atlantic surfclam and ocean quahog harvest that is shucked at sea. Because there is not a standard conversion factor for estimating unshucked product from shucked product, NMFS requires vessels that choose to shuck product at sea to carry on board the vessel a NMFS-approved observer to certify the amount of Atlantic surfclam and ocean quahog harvested. This information, upon receipt, results in an increasingly more efficient and accurate database for management and monitoring of fisheries of the Northeastern U.S. EEZ.

Affected Public: Business or other for-profit organizations.

Frequency: Annually.

Respondent's Obligation: Mandatory.

OMB Desk Officer:

OIRA_Submission@omb.eop.gov.

Copies of the above information collection proposal can be obtained by calling or writing Jennifer Jessup, Departmental Paperwork Clearance Officer, (202) 482-0336, Department of Commerce, Room 6616, 14th and Constitution Avenue NW, Washington, DC 20230 (or via the Internet at *Jjessup@doc.gov*).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to

OIRA_Submission@omb.eop.gov.

Dated: March 16, 2012.

Management Analyst, Office of the Chief Information Officer.

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: Current Population Survey, June Fertility Supplement.

OMB Control Number: 0607-0610.

Form Number(s): None.

Type of Request: Revision of a currently approved collection.

Burden Hours: 500.

Number of Respondents: 30,000.

Average Hours Per Response: 1 minute.

Needs and Uses: The purpose of this request for review is to obtain clearance for the supplemental inquiry concerning fertility to be conducted biennially in conjunction with the June Current Population Survey (CPS).

The 2012 Fertility Supplement will ask fertility questions and questions on marital and cohabitation status of females 15-50 years of age. The new questions on marital and cohabitation status will provide additional information about mothers' living arrangements at the time of the first birth. The June Fertility Supplements, June 2010 and 2008, both asked women about the birth of the last child, which differ from the June 1998 and the June 1995 supplements because they only included fertility items. The 1998 supplement contained fertility and birth expectations items. The 1995 supplement contained fertility and marital history items.

The data collected from this supplement are used primarily by government and private analysts to project future population growth, to analyze childbearing patterns, and to assist policymakers in making decisions that are affected by changes in family size and composition. Past studies have documented profound changes to historical patterns that have occurred in fertility rates, family structures, premarital births, and the timing of the first birth. The data collected from the new questions on marital and cohabitation status will be used by government and private analysts to analyze mother's living situations at the time of the first birth; the data will also fill a need for information that is not available in other Census Bureau surveys.

The CPS characteristics, such as family income, household relationships,
