SUPPLEMENTARY INFORMATION:

I. Background

Under section 721(d)(1) of the Federal Food, Drug, and Cosmetic Act (FD&C Act) (21 U.S.C. 379e(d)(1)), we are giving notice that we have filed a color additive petition (CAP 3C0325), submitted by Environmental Defense Fund, Center for Environmental Health, Center for Food Safety, Center for Science in the Public Interest, and Environmental Working Group, c/o Tom Neltner, 1875 Connecticut Ave. NW, Washington, DC 20009. The petition proposes that we repeal the color additive regulation for titanium dioxide in § 73.575 (21 CFR 73.575), which permits the use of titanium dioxide in foods.

II. Request To Repeal Section 73.575

In accordance with the procedure in section 721(d) of the FD&C Act for issuance, amendment, or repeal of regulations, the petition asks us to repeal section 73.575 to no longer provide for the use of titanium dioxide in foods. The petitioners assert that the intended use of this color additive no longer meets the safety standard under 21 CFR 70.3(i), and cite, as evidence, an opinion by the European Food Safety Authority (EFSA) entitled "Safety assessment of titanium dioxide (E171) as a food additive" that was published in May 2021 (we are using EFSA's title for this document, rather than the one cited by the petitioners), and other publications.

We invite comments, additional scientific data, and other information related to the issues raised by this petition. If we determine that the available data justify repealing section 73.575 to no longer provide for the safe use of titanium dioxide in foods, we will publish our decision in the **Federal**

Register in accordance with 21 CFR 71.20.

The petitioners have claimed that this action is categorically excluded under 21 CFR 25.32(m), which applies to an action to prohibit or otherwise restrict or reduce the use of a substance in food, food packaging, or cosmetics. In addition, the petitioners have stated that, to their knowledge, no extraordinary circumstances exist (see 21 CFR 25.21). If FDA determines a categorical exclusion applies, neither an environmental assessment nor an environmental impact statement is required. If FDA determines a categorical exclusion does not apply, we will request an environmental assessment and make it available for public inspection.

Dated: April 28, 2023.

Lauren K. Roth,

Associate Commissioner for Policy.

SUPPLEMENTARY INFORMATION:

Background

I. Sections 367(d) and 6038B

A. Statute

Section 367(d) of the Internal Revenue Code (the "Code") provides rules for outbound transfers of intangible property (as defined in section 367(d)(4)) by a United States person (a "U.S. person") to a foreign corporation.¹ Section 367(d)(1) provides that, except as provided in regulations, if a U.S. person (a "U.S. transferor") transfers any intangible property to a foreign corporation (the "transferee foreign corporation") in an exchange described in section 351 or 361, section 367(d) (and not section 367(a)) applies to the transfer. Section 367(d)(2)(A) provides that a U.S. transferor that transfers intangible property subject to section 367(d) is treated as having sold the intangible property in exchange for payments that are contingent upon the productivity, use, or disposition of the intangible property.

Specifically, the U.S. transferor is treated as receiving amounts that reasonably reflect the amounts that would have been received annually in the form of such payments over the useful life of the intangible property (an "annual inclusion"), or, in the case of a

¹ For purposes of these regulations, a U.S. person is defined in § 1.367(a)-1(d)(1), which defines a U.S. person, in part, by reference to persons described in section 7701(a)(30). Section 7701(a)(30) defines a U.S. person as a citizen or resident of the United States, a domestic partnership, a domestic corporation, and certain estates and trusts.
