[Project No. 2114-104]

Public Utility District No. 2 of Grant County, Washington; Notice Dismissing Complaint

March 4, 2002.

On February 12, 2002, the Yakama Nation (Complainant) filed a complaint against Public Utility District No. 2 of Grant County, Washington (Grant County), alleging that Grant County is in violation of its license for the Priest Rapids Hydroelectric Project No. 2114, Federal law authorizing the development of the Project, and certain sections of the Federal Power Act. The Complainant requested that the Commission employ fast track procedures to address its complaint.

On February 28, 2002, Complainant filed a motion, citing unspecified changed circumstances, requesting that the Commission hold processing of its complaint in abeyance pending the filing of an amended complaint at an unspecified future time. Rather than holding the complaint in abeyance pending the filing of a new, revised complaint, we will dismiss it without prejudice. At such time as complainant files an amended complaint, it will be noticed and a deadline for responses thereto will be established.

[Docket No. CP02-95-000]

Steuben Gas Storage Company; Notice of Application

March 5, 2002.

Take notice that on February 22, 2002, Steuben Gas Storage Company (Steuben Gas), Nine Greenway Plaza, Houston, Texas 77046, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the

Natural Gas Act (NGA), as amended, and the Federal Energy Regulatory Commission's (the Commission) Rules and Regulations thereunder. Steuben Gas requests authorization to modify two wells at the Adrian storage field in Steuben County, New York. The modifications will consist of: converting Adrian No. 2 well from an observation well to an injection/withdrawal well; and, laterally extending up to 1500 feet Adrian No. 8 well. These modifications are to improve the Adrian field's late-season deliverability, while maintaining the field's maximum operating limits originally certificated, all as more fully set forth in the application, which is on file with the Commission, and open for public inspection. This filing may be viewed on the Web at <http://www.ferc.gov> using the "RIMS" link, select "Docket #" and follow the instructions (call 202-208-2222 for assistance).

Steuben Gas requests that the Commission issue a certificate by May 1, 2002 so that contracts may be awarded and required work completed by July 31, 2002. The cost of the modifications is estimated to be approximately \$700,000. No new rates or rate schedules are proposed. The proposed modifications should improve the storage field's operating reliability and availability and provide significant operational benefits to all customers, so Steuben Gas would be allowed to roll-in the modification's costs in a future rate case. No changes are proposed to the currently authorized Maximum Daily Withdrawal Quantity or Maximum Daily Injection Quantity levels.

Questions regarding this filing should be directed to Dawn A. McGuire, Attorney, Steuben Gas Storage Company, 9 E Greenway Plaza, Houston, TX 77046 or call (832) 676-5503.

There are two ways to become involved in the Commission's review of this project. A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies
