SUPPLEMENTARY INFORMATION:

Reopening of Comment Period

The comment period will be reopened through February 22, 2011.

Background

NMFS published a document in the **Federal Register** of December 29, 2010, concerning the availability for public comment of the proposed evaluation of the Secretary of Commerce (Secretary) as to how the Puget Sound Chinook Resource Management Plan (RMP) addresses the criteria in Limit 6 of the Endangered Species Act (ESA) 4(d) Rule. The comment period for this action ended Friday, January 28, 2011. The comment period is being reopened to provide additional opportunity for public comment. The Puget Sound Treaty Tribes and the Washington Department of Fish and Wildlife submitted to NMFS, pursuant to the protective regulations promulgated for Puget Sound Chinook salmon under Limit 6 of the ESA 4(d) Rule for salmon and steelhead, a jointly developed RMP. The RMP specifies the future management of commercial, recreational, subsistence and tribal salmon fisheries potentially affecting listed Puget Sound Chinook salmon from May 1, 2010, through April 30, 2015.

Dated: January 31, 2011.

Acting Chief, Endangered Species Division, Office of Protected Resources, National Marine Fisheries Service.

Notice of Availability of a Draft Framework for Ranking the Relative Importance of Puget Sound Chinook Salmon Populations and Watersheds for ESU Recovery and Delisting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; reopening of comment period.

SUMMARY: NMFS is reopening the comment period for a draft technical framework for ranking recovery potential of populations of Puget Sound Chinook salmon and watersheds supporting them. The comment period is being reopened to provide additional opportunity for public comment.

DATES: Information and comments on the draft framework must be received at the appropriate address or fax number (see **ADDRESSES**), no later than 5 p.m. on February 22, 2011. We encourage the public's involvement in reviewing this framework.

ADDRESSES: Information and comments on this draft framework should be submitted to Garth Griffin, Chief, Protected Resources Division, NMFS. Comments may also be sent via facsimile (fax) to (503) 230-5435 or by e-mail. The framework document is also available on the Internet at <http://www.nwr.noaa.gov/Salmon-Recovery-Planning/Recovery-Domains/Puget-Sound/PS-Chinook-Plan.cfm>.

FOR FURTHER INFORMATION CONTACT: Elizabeth Babcock, NMFS, Northwest Region, (206) 526-4505.

Reopening of Comment Period

The comment period will be reopened through February 22, 2011.

Background

NMFS published a document in the **Federal Register** of December 29, 2010, concerning the availability of a draft technical framework for ranking recovery potential of populations of Puget Sound Chinook salmon and watersheds supporting them. The comment period for this action ended Friday, January 28, 2011. The comment period is being reopened to provide additional opportunity for public comment. The draft framework relies on the best available scientific information

regarding the status and structure of Puget Sound Chinook salmon populations and their habitat. It builds on the work of the Puget Sound technical recovery team, which provided the technical foundation of the Puget Sound Chinook recovery plan (NMFS 2006).

Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Pacific Fishery Management Council's (Pacific Council) Groundfish Essential Fish Habitat Review Committee (EFHRC) will hold a work session by conference call to follow up on work assignments from its December 20, 2010 meeting.

DATES: The EFHRC conference call will be held Friday, February 25, 2011, from 9 a.m. to 12 p.m. Pacific Time.

ADDRESSES: A public listening station will be available at the Pacific Council office, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220; telephone: (503) 820-2280. Please contact the Council Staff Officer for accommodations.

FOR FURTHER INFORMATION CONTACT:

Kerry Griffin, Staff Officer; telephone: (503) 820-2280.

SUPPLEMENTARY INFORMATION: The purpose of the EFHRC meeting is to follow up on the December 20, 2010 meeting, and to check on assignments and progress toward developing a report for the April, 2011 Pacific Council meeting. The initial meeting highlighted several issues to address, as the Pacific Council and the National Marine Fisheries Service (NMFS) conduct a review of Essential Fish Habitat (EFH) descriptions for Pacific Coast groundfish species. Major topics of discussion are likely to include schedule and timing; soliciting data and information from

interested parties; components and products of the review; and other topics.

Groundfish EFH was first identified and described by the Pacific Council in 1998, and revised in 1996. The Pacific Council considered proposed revisions to groundfish EFH in 2008, but declined to change EFH descriptions, pending the more thorough review now underway. Detailed information on existing EFH descriptions and identification is available by contacting the Pacific Council directly.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Kris Kleinschmidt at (503) 820-2280 at least 5 days prior to the meeting date.

Dated: February 1, 2011.
