

# Notices

Federal Register

Vol. 90, No. 74

Friday, April 18, 2025

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

## DEPARTMENT OF AGRICULTURE

### Submission for OMB Review; Comment Request

The Department of Agriculture will submit the following information collection requirement(s) to OMB for review and approval under the Paperwork Reduction Act of 1995, Public Law 104–13 on or after the date of publication of this notice. Comments are requested regarding: (1) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding these information collections are best assured of having their full effect if received by November 30, 2023. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to

the collection of information unless it displays a currently valid OMB control number.

### Economic Research Service

*Title:* Generic Clearance for Survey Research Studies.

*OMB Control Number:* 0536–0073.

*Summary of Collection:* The Economic Research Service (ERS) of the United States Department of Agriculture (USDA) requests renewal from the Office of Management and Budget (OMB) for generic clearance that will allow ERS to conduct research to improve the quality of data collection by developing, testing, and evaluating its survey instruments, methodologies, technology, interview processes, and respondent recruitment protocols. The primary objective of ERS is providing timely research and analysis to public and private decision makers on topics related to agriculture, food, the environment, and rural America. This request is part of an on-going initiative to improve the quality of ERS' data products in general and surveys in specific as recommended by both its own guidelines and those of OMB.

*Need and Use of the Information:* The information collected in this program will be used by staff from the ERS and sponsoring agencies to evaluate and improve the quality of the data in the surveys and censuses that are ultimately conducted. Specifically, the information will be used to reduce respondent burden while simultaneously improving the quality of the data collected in these surveys. These objectives are met when respondents are presented with plain, coherent and unambiguous questionnaires that ask for information, which are compatible with respondents' memory and/or current reporting and record keeping practices. The purpose of the survey improvement projects will be to ensure that ERS surveys continuously attempt to meet these standards of excellence.

*Description of Respondents:* Individuals or households; Business or other for-profit; Not-for-profit institutions; Farms; State, Local or Tribal Government.

*Number of Respondents:* 3,630.

*Frequency of Responses:* Reporting annually.

*Total Burden Hours:* 1,815.

**Rachelle Ragland-Greene,**

*Departmental Information Collection Clearance Officer.*

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it

displays a currently valid OMB control number.

### National Agricultural Statistics Service

*Title:* Stocks Reports.

*OMB Control Number:* 0535–0007.

*Summary of Collection:* The National Agricultural Statistics Service's primary function is to prepare and issue current, official State and national estimates of crop and livestock production, stocks, disposition, and prices. As part of this function, estimates are made for stocks of off-farm grains and oilseeds, hops, peanuts, potatoes, and rice. Statistics for the set of crops included in this docket are collected because of the large volume produced, high value of production, and significant public interest. General authority for data collection is granted under U.S. Code title 7, section 2204. This statute specifies that "The Secretary of Agriculture shall procure and preserve all information concerning agriculture which he can obtain . . . by the collection of statistics . . . and shall distribute them among agriculturists."

*Need and Use of the Information:* The primary objective of the National Agricultural Statistics Service is to prepare and issue State and national estimates of crop and livestock production, stocks, disposition, and prices. The *Stocks Report* surveys, provide estimates of stocks of grains, hops, oilseeds, peanuts, potatoes, and rice that are stored off-farm. These off-farm stocks are combined with on-farm stocks to estimate stocks in all positions. The *Stocks Reports* are a principle economic indicator as defined by OMB. Stocks statistics are used by the U.S. Department of Agriculture to help administer programs; by State agencies to develop, research, and promote the marketing of products; and by producers and buyers to find their best market opportunity(s). The *Stocks Reports* are instrumental in providing timely, accurate data to help grain market participants. In order to maintain a complete and comprehensive list of operations, NASS needs to conduct an Operation Profile survey annually to add new operations to the survey population. This profile is also used to identify operations that do not meet the criteria to be included in the Off-farm Grain and Oilseeds Survey.

*Description of Respondents:* Farms and Businesses.

*Number of Respondents:* 9,925.

*Frequency of Responses:* Reporting: Monthly; Quarterly; Annually.

*Total Burden Hours:* 5,757.

### DEPARTMENT OF AGRICULTURE

#### Submission for OMB Review; Comment Request

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding: whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by May 19, 2025 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function. An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

#### Animal and Plant Health Inspection Service

*Title:* A Survey of Livestock Producer Perceptions of Predators and Predator Damage Management Methods.

*OMB Control Number:* 0579–NEW.

*Summary of Collection:* Under the Act of March 2, 1931 (7 U.S.C. 8351), the

Secretary of Agriculture is authorized to conduct a program of wildlife services with respect to injurious animal species and take any action the Secretary considers necessary in conducting the program. Additionally, the Secretary of Agriculture is authorized to conduct activities to control nuisance mammals and birds (except for urban rodent control) and those mammals and bird species that are reservoirs for zoonotic disease. This authority has been delegated to the Animal and Plant Health Inspection Service (APHIS) Wildlife Services (WS). Two responsibilities of the Deputy Administrator of WS are to assist Federal, State, local, and foreign agencies and individuals regarding wildlife damage and control and conduct research to develop wildlife damage management methods (7 CFR 371.6).

*Need and Use of the Information:* APHIS plans to conduct a survey of livestock producers who (1) experienced livestock loss from predators, (2) worked with WS to try and mitigate losses through WS Nonlethal Initiative programs, and (3) allowed WS State Directors to share their contact information within APHIS to measure respondents' perceptions of various predator damage management methods and willingness to continue using such methods.

Data collected, analyzed, and interpreted from the Livestock Producer Perceptions of Predators and Predator Damage Management Methods study will be disseminated to a variety of constituents, including within APHIS WS and open access or subscription-based journals. Additionally, all data and metadata collected and used in peer-reviewed publications will be made publicly accessible in a data repository per the USDA Departmental Regulation 1020–006. APHIS will not link survey information with respondent name or contact information.

APHIS will use the data collected to:

- Analyze how producers conceptualize losses from predators (*i.e.*, animals missing vs. animal carcasses found vs. confirmed kills);
- Identify any correlations between frequency of communication, trust, and acceptance of nonlethal predator damage management methods suggested by WS;
- Provide input into the WS Nonlethal Initiative programs and WS' damage management policy and outreach; and
- Help inform policy by providing scientifically accurate data.
