*Regulatory Number:* N/A.

*Abstract:* As outlined in the Internal Revenue Service (IRS) Strategic Plan, the Agency is working towards allocating IRS resources strategically to address the evolving scope and increasing complexity of tax administration. In order to do this, IRS must realize their operational efficiencies and effectively manage costs by improving enterprise-wide resource allocation and streamlining processes using feedback from various behavioral research techniques. To assist the Agency is accomplishing the goal outlined in the Strategic Plan, the Wage and Investment Division continuously maintains a "customer-first" focus through routinely soliciting information concerning the needs and characteristics of its customers and implementing programs based on the information received. W&I Strategies and Solutions

(WISS), is developing the implementation of a Behavioral Laboratory to identify, plan and deliver business improvement processes that support fulfillment of the IRS strategic goals. The collection of information through the Behavioral Laboratory is necessary to enable the Agency to garner customer and stakeholder feedback in an efficient, timely manner, in accordance with the commitment to improving taxpayer service delivery. Improving agency programs requires ongoing assessment of service delivery. WISS, through the Behavioral Laboratory, will collect, analyze, and interpret information gathered through this generic clearance to identify strengths and weaknesses of current services and make improvements in service delivery based on feedback provided by taxpayers and employees of the Internal Revenue Service.

*Current Actions:* The IRS will be revising and replacing various surveys. The survey scope is expanded to include burden for surveys associated with all taxpayer segments. This effort represents a continuation of the IRS's strategy to gather taxpayer burden data for all types of tax returns and information reporting documents in order to support Wage and Investment's OMB Improvement Strategy to transition burden estimates for all taxpayers to the preferred RAAS burden estimation methodology. These surveys will allow RAAS to update and validate the IRS Taxpayer Burden Model which will be used to provide estimates for consolidated taxpayer segments, like what is currently done for OMB numbers 1545-0074, 1545-0123, and 1545-0047.
