SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service (Service), have received an application for an incidental take permit (ITP) pursuant to section 10(a)(1)(B) of the Endangered Species Act, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The applicant has developed a draft habitat conservation plan (HCP) for the project that includes measures to mitigate and avoid/minimize impacts to the federally threatened California tiger salamander (*Ambystoma californiense*), California red-legged frog (*Rana draytonii*), western snowy plover (*Charadrius nivosus nivosus*), and Monterey spineflower (*Chorizanthe pungens* var. *pungens*); the federally endangered Smith's blue butterfly (*Euphilotes enoptes smithi*), Monterey (sand) gilia (*Gilia tenuiflora* ssp. *arenaria*), and Yadon's piperia (*Piperia yadonii*); and the State endangered seaside bird's beak (*Cordylanthus rigidus* ssp. *littoralis*). The permit would authorize take of the California tiger salamander, California red-legged frog, western snowy plover, and Smith's blue butterfly incidental to otherwise lawful activities associated with the Fort Ord HCP. We invite public comment on the application, the draft HCP, and draft environmental impact statement (EIS).

Background

The California tiger salamander was listed as threatened on August 4, 2004 (69 FR 47212); the California red-legged frog was listed as threatened on May 23, 1996 (61 FR 25813); the western snowy plover was listed as threatened on March 5, 1993 (58 FR 12864); the Monterey spineflower was listed as threatened on February 4, 1994 (59 FR 5499); the Smith's blue butterfly was listed as endangered on June 1, 1976 (41 FR 22041); the Monterey (sand) gilia was listed as endangered on June 22, 1992 (57 FR 27848); and the Yadon's piperia was listed as endangered on August 12, 1998 (63 FR 43100). The seaside bird's beak has no Federal status, but was listed as endangered by the State of California in 1982 (<https://www.dfg.ca.gov/wildlife/nongame/list.html>), and the applicant has chosen to address this species in the HCP to facilitate State permitting.

Section 9 of the ESA and its implementing regulations in effect at the time the above-referenced species were listed prohibited the take of fish or wildlife species listed as endangered or threatened. "Take" is defined under the ESA to include the following activities: "[T]o harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct" (16 U.S.C. 1532); however, under section 10(a)(1)(B) of the ESA, we may issue permits to authorize incidental take of listed fish or wildlife species. "Incidental take" is defined by the ESA as take that is incidental to, and not the purpose of, carrying out an otherwise lawful activity. Regulations governing incidental take permits for threatened and endangered species are in the Code of Federal Regulations (CFR) at 50 CFR 17.32 and 17.22, respectively. Under the ESA, protections for federally listed plants differ from the protections afforded to federally listed animals. Issuance of an incidental take permit also must not jeopardize the existence of federally listed fish, wildlife, or plant species. The permittees would receive assurances under our "No Surprises" regulations ((50 CFR 17.22(b)(5) and 17.32(b)(5)) regarding conservation activities for the California tiger salamander, California red-legged frog, western snowy plover, Monterey spineflower, Smith's blue butterfly, Monterey (sand) gilia, Yadon's piperia, and seaside bird's beak.

Applicant's Proposed Activities

The applicant has applied for a permit for incidental take of the California tiger salamander, California red-legged frog,
