DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CD22-7-000]

Springfield Water and Sewer Commission; Notice of Preliminary Determination of a Qualifying Conduit Hydropower Facility and Soliciting Comments and Motions To Intervene

On May 17, 2022, the Springfield Water and Sewer Commission, filed a

notice of intent to construct a qualifying conduit hydropower facility, pursuant to section 30 of the Federal Power Act (FPA). The existing Cobble Mountain Hydroelectric Station Project has an installed capacity of 33 megawatts (MW) and is located at the end of the applicant's Cobble Mountain power tunnel in Granville, Hampden County, Massachusetts.¹

Applicant Contact: Michael A. Swiger, Van Ness Feldman, LLP, 1050 Thomas Jefferson Street NW, Washington, DC 20007, 202-298-1891, mas@vnf.com.

FERC Contact: Christopher Chaney, 202-502-6778, christopher.chaney@ferc.gov.

Qualifying Conduit Hydropower Facility Description: The project consists of: (1) the approximately 72-foot-long by 53-foot-wide Cobble Mountain Hydroelectric Station, containing three vertical Francis units with a combined capacity of 33 MW; (2) three steel penstocks of varying lengths, but approximately 600 feet long; and (3)

appurtenant facilities. The proposed project would have an estimated annual generation of approximately 20,000 megawatt-hours.

The project discharges water to the Little River, a natural body of water. Because a portion of the discharge would not be withdrawn downstream by part of the same water supply system, the applicant requests waiver of the discharge requirement under 18 CFR 4.30(b)(30)(iv).

The applicant states that it has no current plans for future units. As the units continue to age, it will evaluate the costs and benefits of maintaining the existing units or possible replacement.²

A qualifying conduit hydropower facility is one that is determined or deemed to meet all the criteria shown in the table below.

TABLE 1—CRITERIA FOR QUALIFYING CONDUIT HYDROPOWER FACILITY

Statutory provision	Description	Satisfies (Y/N)
FPA 30(a)(3)(A)	The conduit the facility uses is a tunnel, canal, pipeline, aqueduct, flume, ditch, or similar manmade water conveyance that is operated for the distribution of water for agricultural, municipal, or industrial consumption and not primarily for the generation of electricity.	Y
FPA 30(a)(3)(C)(i)	The facility is constructed, operated, or maintained for the generation of electric power and uses for such generation only the hydroelectric potential of a non-federally owned conduit.	Y
FPA 30(a)(3)(C)(ii)	The facility has an installed capacity that does not exceed 40 megawatts	Y
FPA 30(a)(3)(C)(iii)	On or before August 9, 2013, the facility is not licensed, or exempted from the licensing requirements of Part I of the FPA.	Y

Preliminary Determination: The Cobble Mountain Hydroelectric Station Project is an existing project. However, as noted above, it has not been licensed or exempted from the licensing requirements of Part I of the FPA, is under 40 MW, and does not alter the primary purpose of the conduit, which is to transport potable water for municipal use. Therefore, based upon the above criteria, if the requested discharge requirement waiver is granted, Commission staff preliminarily determines that the operation of the project described above satisfies the requirements for a qualifying conduit hydropower facility, which is not required to be licensed or exempted from licensing. However, at such time as the applicant plans modifications to the existing project, it would need to

reapply for a determination that the project satisfies the requirements for a qualifying conduit hydropower facility.

Comments and Motions to Intervene: Deadline for filing comments contesting whether the facility meets the qualifying criteria is 30 days from the issuance date of this notice. Deadline for filing motions to intervene is 30 days from the issuance date of this notice.

Anyone may submit comments or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210 and 385.214. Any motions to intervene must be received on or before the specified deadline date for the particular proceeding.

Filing and Service of Responsive Documents: All filings must (1) bear in all capital letters the “COMMENTS CONTESTING QUALIFICATION FOR A

CONDUIT HYDROPOWER FACILITY” or “MOTION TO INTERVENE,” as applicable; (2) state in the heading the name of the applicant and the project number of the application to which the filing responds; (3) state the name, address, and telephone number of the person filing; and (4) otherwise comply with the requirements of sections 385.2001 through 385.2005 of the Commission's regulations.³ All comments contesting Commission staff's preliminary determination that the facility meets the qualifying criteria must set forth their evidentiary basis.

The Commission strongly encourages electronic filing. Please file motions to intervene and comments using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments

¹ The Commission, in a November 30, 1988 Order Finding Licensing of Hydroelectric Project Not Required, found that the entire Cobble Mountain Project was built before 1935, does not occupy any

public lands or reservations of the United States, and does not use surplus water or waterpower from a federal government dam. *City of Springfield, MA*, 45 FERC ¶ 62,178 (1988). The Cobble Mountain

Hydroelectric Station Project is a component of the project addressed in that order.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. OR22-3-000]

Magellan Pipeline Company, L.P.; Notice of Petition for Declaratory Order

Take notice that on May 20, 2022, pursuant to Rule 207(a)(2) of the Federal Energy Regulatory Commission's (Commission) Rules of Practice and Procedure, 18 CFR 385.207(a)(2) (2021), Magellan Pipeline Company, L.P.

(Magellan) hereby petitions the Commission for a declaratory order approving priority service and the overall rate structure and terms of service for a proposed expansion of its Mountain System, as more fully explained in Magellan's petition.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. Anyone filing a motion to intervene, or protest must serve a copy of that document on the Petitioner.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically may mail similar pleadings to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426. Hand delivered submissions in docketed proceedings should be delivered to Health and Human Services, 12225 Wilkins Avenue, Rockville, Maryland 20852.

In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page (<http://www.ferc.gov>) using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. At this time, the Commission has suspended access to the Commission's Public Reference Room, due to the proclamation declaring a National Emergency concerning the Novel Coronavirus Disease (COVID-19), issued by the President on March 13, 2020. BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 3409-032]

Boyne USA, Inc.; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the application for a subsequent license for the Boyne River Hydroelectric Project, located on the Boyne River, in Boyne Valley Township, Charlevoix County, near Boyne Falls, Michigan. The project does not occupy federal land.

The EA contains staff's analysis of the potential environmental effects of the project and concludes that licensing the project, with appropriate environmental measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

The Commission provides all interested persons with an opportunity to view and/or print the EA via the internet through the Commission's Home Page (<http://www.ferc.gov/>) using the "eLibrary" link. Enter the docket number, excluding the last three digits in the docket number field, to access the document. At this time, the Commission has suspended access to the Commission's Public Reference Room, due to the proclamation declaring a National Emergency concerning the Novel Coronavirus Disease (COVID-19), issued by the President on March 13, 2020. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at (866) 208-3676, or for TTY, (202) 502-8659.

You may also register online at <https://ferconline.ferc.gov/eSubscription.aspx> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

Any comments should be filed within 45 days from the date of this notice.

The Commission strongly encourages electronic filings. Please file comments using the Commission's eFiling system at <https://ferconline.ferc.gov/eFiling.aspx>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <https://ferconline.ferc.gov/QuickComment.aspx>.
