

limited researchers on a need-to-know basis, and the level of access provided to each researcher is based on the minimal level required that individual to fulfill his research role; the data will be backed up on a regular basis to safeguard against system failures or disasters; and, unencrypted data will never be stored on a laptop or on a movable media such as CDs, diskettes, or USB flash drives.

**For Paper Records:** The site interviewers will securely store any hard copy forms with personal identifiers until they are shipped to the evaluation contractor via commercial mail services; all hard copy forms with personal identifying data (the participant agreement/informed consent form) will be stored securely in a locked cabinet that can only be accessed by authorized individuals working on the data. The locked cabinet will be stored in a locked office in a limited-access building. Additionally, permissions will be defined for each authorized user based on the user's role on the project. For example, the local site interviewer will be able to review data for study participants only for his or her own specific site. Study data will be aggregated or de-identified at the highest level possible for each required, authorized use.

**FOR FURTHER INFORMATION CONTACT:**

Nathan Rathbun, 612–713–5343 (phone); [permitsR3ES@fws.gov](mailto:permitsR3ES@fws.gov) (email). Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY,

TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

**SUPPLEMENTARY INFORMATION:** We, the U.S. Fish and Wildlife Service, invite review and comment from the public and local, State, Tribal, and Federal agencies on applications we have received for permits to conduct certain activities with endangered and threatened species under section 10(a)(1)(A) of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and our regulations in the Code of Federal Regulations (CFR) at 50 CFR part 17. Documents and other information submitted with the applications are available for review, subject to the requirements of the Privacy Act and the Freedom of Information Act.

**Background**

The ESA prohibits certain activities with endangered and threatened species unless authorized by a Federal permit. The ESA and our implementing regulations in part 17 of title 50 of the Code of Federal Regulations (CFR) provide for the issuance of such permits and require that we invite public

comment before issuing permits for activities involving endangered species.

A recovery permit issued by us under section 10(a)(1)(A) of the ESA authorizes the permittee to conduct activities with endangered species for scientific purposes that promote recovery or for enhancement of propagation or survival of the species. Our regulations implementing section 10(a)(1)(A) for these permits are found at 50 CFR 17.22 for endangered wildlife species, 50 CFR 17.32 for threatened wildlife species, 50 CFR 17.62 for endangered plant species, and 50 CFR 17.72 for threatened plant species.

**Permit Applications Available for Review and Comment**

The ESA requires that we invite public comment before issuing these permits. Accordingly, we invite local, State, Tribal, and Federal agencies and the public to submit written data, views, or arguments with respect to these applications. The comments and recommendations that will be most useful and likely to influence agency decisions are those supported by quantitative information or studies. Proposed activities in the following permit requests are for the recovery and enhancement of propagation or survival of the species in the wild.
