

19 C.F.R. § 177.29. Any party-at-interest other than the party which requested this final determination may request, pursuant to 19 C.F.R. § 177.31, that CBP reexamine the matter anew and issue a new final determination. Pursuant to 19 C.F.R. § 177.30, any party-at-interest may, within 30 days after publication of the **Federal Register** notice referenced above, seek judicial review of this final determination before the Court of International Trade.

Sincerely,

Sandra L. Bell

*Executive Director, Regulations and Rulings
Office of International Trade.*

BILLING CODE 9111-14-P

DEPARTMENT OF THE INTERIOR

National Park Service

30-Day Notice of Submission to the Office of Management and Budget (OMB); Opportunity for Public Comment

AGENCY: Department of the Interior, National Park Service.

ACTION: Notice and request for comments.

SUMMARY: Under provisions of the Paperwork Reduction Act of 1995 and 5 CFR Part 1320, Reporting and Recordkeeping Requirements, the National Park Service (NPS) invites public comments on a proposed new collection of information (OMB #1024-XXXX).

DATES: Public comments on this Information Collection Request (ICR) will be accepted on or before July 9, 2010.

ADDRESSES: You may submit comments directly to the Desk Officer for the Department of the Interior (OMB #1024-XXXX), Office of Information and Regulatory Affairs, OMB, by fax at 202/395-5806, or by electronic mail at oir_docket@omb.eop.gov. Please also send a copy of your comments to Eppley Institute for Parks and Public Land, Indiana University Research Park, RE ASIS, 501 Morton Street, Suite 101, Bloomington, Indiana 47404; or via fax to 812/855-5600; or via e-mail to eppley@indiana.edu.

FOR FURTHER INFORMATION CONTACT: Dr. James Gramann, NPS Social Science Division, 1201 "Eye" St., Washington, DC 20005; or via phone 202-513-7189; or via e-mail James_Gramann@partner.nps.gov. You are entitled to a copy of the entire ICR package free-of-charge. You may access this ICR at <http://www.reginfo.gov/public/>.

Comments Received on the 60-Day Federal Register Notice: The NPS published a 60-day notice to solicit public comments on an information collection request entitled "Assessing Visitor Attitudes, Experiences, and Expectations Associated with the Management and Use of Oversand Vehicles at Assateague Island National Seashore" in the **Federal Register** on February 8, 2008 (Vol. 73, No. 34, Page 9354-9355). Publication of the **Federal Register** notice was supplemented by multiple notifications to stakeholders about the proposed study. The NPS received 43 comments as a result the 60-day notice and the stakeholder notifications. The comments and responses are summarized below:

(1) A number of comments either supported or opposed the use of oversand vehicles (OSVs) at Assateague Island National Seashore. These comments related to possible management actions NPS might take, but did not relate to the need for the information collection or the burden of the collection.

(2) Three commenters requested a copy of the draft survey. Copies were sent to each of the parties requesting them.

(3) The Defenders of Wildlife and the Center for Biological Diversity sent a joint set of comments. Some of these comments concerned the current management of the OSV zone, while others included specific thoughts on the proposed survey. As a result, the Defenders of Wildlife and the Center for Biological Diversity, along with the Assateague Mobil Sport Fishermen's Association, were invited to comment on the content and wording of the draft questionnaires. The Defenders of Wildlife and the Center for Biological Diversity declined to provide additional comments. The Assateague Mobil Sport Fishermen Association did provide additional feedback, including recommendations for wording changes in some questions, along with guidance to make sure the information collected was relevant to issues surrounding the OSV zone. There were also concerns that a particular area of the OSV Zone was being targeted in a number of the questions. The surveys were modified as a result of these comments.

SUPPLEMENTARY INFORMATION:

Title: Assessing Visitor Attitudes Experiences and Expectations Associated with the Management and Use of Oversand Vehicles at Assateague Island National Seashore.

Bureau Form Number(s): None.

OMB Number: To be requested.

Expiration Date: To be requested.

Type of Request: New collection.

Description of Need: The proposed study will supply input into identifying and evaluating alternatives for future management of Oversand Vehicle (OSV) use at Assateague Island National Seashore (ASIS), Maryland. The purpose of this research is to provide park managers with information about the characteristics of visitors to the OSV zone and adjacent backcountry areas in the park, attributes of the OSV zone that are important to the quality of visitor experiences, and visitor attitudes regarding OSV management, use, and resource protection practices.

The use of OSVs for access and recreation is a traditional activity that occurred at Assateague prior to the establishment of the National Seashore in 1965. Management of OSVs was formalized with the adoption of special regulations (36 CFR 7.65) in 1974, which established vehicle and equipment requirements, an OSV permit system, general requirements for legal operation, and a maximum limit of 145 vehicles using the Maryland District OSV zone at any time. OSV use was reevaluated in 1982 during the Seashore's general management planning process. The General Management Plan (GMP) designated a "Traditional Recreation Subzone" in the Maryland District approximately 12 miles long to be managed for multiple uses, including oversand travel by properly equipped and permitted OSVs. The Traditional Recreation Subzone also includes a small area for overnight accommodation of self-contained OSVs and two hike-in backcountry campgrounds. In 2008, the NPS began a revision of the GMP for ASIS. The revised GMP will: (1) Clearly define the desired natural and cultural resource conditions to be achieved and maintained over time; (2) clearly define the necessary conditions for visitors to understand, enjoy, and appreciate the park's significant resources; (3) identify the kinds and levels of management activities, visitor use, and development that are appropriate for maintaining the desired conditions; and (4) identify indicators and standards for maintaining the desired conditions.

The proposed study will assist in the GMP revision by informing decisions related to the management of OSV use at ASIS. The study has two primary objectives: (1) Develop baseline data on users of the Traditional Recreation Subzone, including types, frequency and patterns of use, and their socio-economic and demographic characteristics; and (2) provide input into potential indicators and standards of quality for maintaining the desired

visitor experience in the Traditional Recreation Subzone. The study includes two questionnaires. The first will be administered to a representative sample of OSV users in the Traditional Recreation Subzone; the second will be given to a representative sample of non-OSV users in the Subzone.

1. Survey OSV Permit Holders Utilizing the Traditional Recreation Subzone

A randomly selected group of current OSV permit holders will receive a mailback questionnaire, with an option to complete the survey on-line using a unique identification code. The survey includes questions about OSV users' demographics; the frequency, patterns, and type of OSV use; factors influencing the quality of visitor experiences; and attitudes toward current and potential OSV management and resource protection practices. This research is proposed for the summer and fall of 2010.

2. Survey Backcountry Users of the Traditional Recreation Subzone

A randomly selected group of visitors issued backcountry camping permits in 2009 will receive a mailback questionnaire, with an option to complete the survey on-line using a unique identification code. The survey will include questions similar to those in the OSV questionnaire, but specific to backcountry camping experiences. This survey also is proposed for summer and fall of 2010.

Automated data collection: This information will be collected via mailback surveys distributed through U.S. Postal Service mail. Participants also will be given the opportunity to respond to the survey on-line by using a unique identification code and password.

Description of respondents: Current OSV permit holders and current backcountry permit holders at Assateague Island National Seashore.

Estimated number of respondents: 500 OSV permit holders (350 respondents and 150 non-respondents); 330 backcountry permit holders (230 respondents and 130 non-respondents); 40 non-respondents contacted for a short non-respondent survey.

Estimated average burden hours per response: 3 minutes for initial contact; 15 minutes for OSV survey; 10 minutes for backcountry survey; 5 minutes for non-respondent survey.

Frequency of Response: 1 time per respondent.

Estimated annual reporting burden: 171 hours.

Comments are invited on: (1) The practical utility of the information being

gathered; (2) the accuracy of the burden hour estimate; and (3) ways to enhance the quality, utility, and clarity of the information being gathered. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask OMB in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: June 3, 2010.

Stephanie Leonard,

NPS, Acting Information Collection Clearance Officer.

BILLING CODE P

DEPARTMENT OF THE INTERIOR

National Park Service

60-Day Notice of Intention To Request Clearance of Collection of Information; Opportunity for Public Comment

AGENCY: National Park Service, Interior.

ACTION: Notice and request for comments.

SUMMARY: Under provisions of the Paperwork Reduction Act of 1995 and 5 CFR Part 1320, Reporting and Recordkeeping Requirements, the National Park Service (NPS) invites public comments on the renewal of a current collection with a revision for Office of Management and Budget control number 1024-0252.

DATES: Public comments will be accepted on or before August 9, 2010.

ADDRESSES: Send comments to: Brandon Flint, NPS, WASO Recreation Fee Program Office, 1849 C St., NW. (2608), Washington, DC 20240; or by e-mail at brandon_flint@nps.gov, or by fax at 202/371-6623. All comments will become a matter of public record.

To Request a Draft of Proposed Collection of Information Contact: Brandon Flint, NPS, WASO Recreation Fee Program Office, 1849 C St., NW. (2608), Washington, DC 20240; *phone:* 202/513-7096; *e-mail:* brandon_flint@nps.gov, or by fax at 202/371-2401.

SUPPLEMENTARY INFORMATION:

Title: The Interagency Access Pass Application Process.

Bureau Form Number: None.

OMB Number: 1024-0252.

Expiration Date: February 28, 2011.

Type of Request: Extension of a currently approved collection with a revision.

Description of Need: The currently approved information collection responds to the Federal Lands Recreation Enhancement Act (FLREA) which requires the Secretary of Agriculture and the Secretary of the Interior to make the America the Beautiful—The National Parks and Federal Recreational Lands Pass available, for free, to any United States citizen or person domiciled in the United States who has been medically determined to be permanently disabled for purposes of Section 7(20)(B)(i) of the Rehabilitation Act of 1973 (29 U.S.C. 705 (20)(B)(i)). The Act further requires that the applicant provide adequate proof of the disability and such citizenship or residency. The Act specifies that the Pass shall be valid for the lifetime of the pass holder. The America the Beautiful—The National Parks and Federal Recreational Lands Access Pass (Interagency Access Pass) was created to meet the requirements of the FLREA. An Interagency Access Pass is a free, lifetime permit that is issued without charge by the Bureau of Land Management, Bureau of Reclamation, United States Fish and Wildlife Service, United States Forest Service, and the National Park Service to citizens or persons who are domiciled (permanent residents) in the United States, regardless of age, and who have a medical determination and documentation of permanent disability. Furthermore, the Pass is to be non-transferable and entitles the permittee and any person accompanying him/her in a single, private, non-commercial vehicle, or alternatively, the permittee and 3 adults to enter with him/her where entry to the area is by any means other than private, non-commercial vehicle. The Pass must be signed by the holder.

In order to issue the Interagency Access Pass only to persons who have been medically determined to be permanently disabled, in accordance with the FLREA and in order to clarify, simplify, and to provide uniform guidance for the public on the process for obtaining the Interagency Access Pass, the Secretaries of Agriculture and of the Interior established eligibility and required documentation guidelines for issuing the Interagency Access Pass and published them within the America the Beautiful—The National Parks and Federal Recreational Lands Pass Standard Operating Procedures. The current procedures require the individual to appear in person and sign the Pass in the presence of the issuing
