II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request the OMB's approval for the information collection summarized below.

1. *The title of the information collection:* Cooperation with States at Commercial Nuclear Power Plants and Other Nuclear Production and Utilization Facilities, Policy Statement.
2. *OMB approval number:* 3150-0163.
3. *Type of submission:* Extension.
4. *The form number, if applicable:* Not applicable.

5. *How often the collection is required or requested:* On occasion, when a State or Federally recognized Indian Tribe wishes to observe NRC inspections or perform inspections for the NRC or when a State or Federally recognized Indian Tribe wishes to negotiate an agreement to observe or perform inspections. States with an instrument of cooperation or a State Resident

Engineer have both regular reporting and occasion-specific reporting.

6. *Who will be required or asked to respond:* States and Federally recognized Tribes interested in observing or performing inspections.

7. *The estimated number of annual responses:* 207.

8. *The estimated number of annual respondents:* 33.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 1,291.

10. *Abstract:* States and Federally recognized Indian Tribes are involved and interested in monitoring the safety status of nuclear power plants and other nuclear production and utilization facilities. This involvement is, in part, in response to the States' and Tribes' public health and safety responsibilities and, in part, in response to their citizens' desire to become more knowledgeable about the safety of nuclear power plants and other nuclear production and utilization facilities. States and Tribes have identified NRC inspections as one possible source of knowledge for their personnel regarding NRC licensee activities, and the NRC, through the policy statement, "Cooperation With States at Commercial Nuclear Power Plants and Other Nuclear Production or Utilization Facilities" (57 FR 6462; February 25, 1992), has been amenable to accommodating States' and Tribes' needs in this regard. The NRC uses the information collected under this information collection requirement to allow States and Federally recognized Indian Tribes to participate in or observe inspections at NRC-licensed facilities. The types of information collected include written requests identifying specific inspections States and Tribes wish to observe; identification-related information required for site access to NRC-licensed facilities; training and qualifications of State and Tribal personnel participating in inspections; information required to define inspection roles for States and Tribes; and information to coordinate NRC and State and Tribal inspections.

III. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the estimate of the burden of the information collection accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated: April 20, 2022.

For the Nuclear Regulatory Commission.

David C. Cullison,

NRC Clearance Officer, Office of the Chief Information Officer.

ACTION: Notice of request for extension of OMB approval of information collection.

SUPPLEMENTARY INFORMATION: Under Executive Order 14043, every Federal agency must "implement, to the extent consistent with applicable law, a program to require COVID-19 vaccination for all of its Federal employees, with exceptions only as required by law." In following this directive, the Pension Benefit Guaranty Corporation (PBGC) imposed a requirement that its employees must receive and submit proof of a COVID-19 vaccination. As required by 29 U.S.C. 701 *et seq.* and 29 CFR part 1630, PBGC allows an exception from the vaccination requirement for employees who demonstrate medical reasons or disabilities that would make the COVID-19 vaccine unsafe for them. To obtain this exception, employees must complete the Request for Medical Exception to COVID-19 Vaccination Requirement form. PBGC uses the information on this form to verify employees' assertions that they are entitled to an exception to the COVID-19 vaccination requirement because of their medical or disability statuses.

The medical exception request collection of information has been approved by OMB under control number 1212-0075 (expires May 31, 2022). On February 14, 2022, PBGC published in the **Federal Register** (at 87 FR 8303) a notice informing the public of its intent to request an extension of this collection of information. PBGC received one comment, and the commenter expressed support for the exemption, noting that some employees may have disabling conditions. PBGC is requesting that OMB extend approval of the collection for 3 years. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

PBGC estimates that an average of 2 employees each year will submit Request for Medical Exception to COVID-19 Vaccination Requirement forms. The total estimated annual burden of the collection of information is 0.5 hours and \$0.

A Notice Regarding Injunctions

As of the date that PBGC submitted this notice to the **Federal Register**, the vaccination requirement issued pursuant to E.O. 14043 is currently the subject of a nationwide injunction. While that injunction remains in place, PBGC will not process requests for a medical exception from the COVID-19
