

proposes to locate the JAGIC in the central area of Donnelly Training Area-West, proximate to the western boundary of the Oklahoma Impact Area; Alternative B proposes to locate the JAGIC in the Stuart Creek Impact Area within the Yukon Training Area; Alternative C proposes to locate the JAGIC in the Blair Lakes Impact Area near the southern boundary of the Tanana Flats Training Area under the existing Restricted Area 2211 (R-2211).

Intermediate Staging Bases (ISBs): Currently, Soldiers and airmen spend up to 6 hours traveling to and from training sites within the JPARC. This travel reduces available training time and increases risks of traffic accidents. The Army proposes to locate and construct a 1,000-Soldier ISB near the existing Battle Area Complex (BAX), along with three 200- to 500-Soldier ISBs at Yukon Training Area (YTA), Donnelly Training Area-West (DTA-West), and Salcha to reduce travel time, increase safety, and increase available training time. The Army and Air Force intend to consider the following alternatives, as well as a No Action Alternative: Alternative A proposes to provide a permanent 1,000-Soldier ISB near existing BAX, along with three permanent 200- to 500-Soldier ISBs at YTA, DTA-West, and Salcha. The facility is intended for joint use. ISBs are proposed at key points along the planned rail corridor close to the planned bridge crossings; Alternative B proposes to use existing temporary "relocatable" ISB facilities over the next 7 years, and then replace them with permanent facilities.

Missile Live Fire for AIM-9X and AIM-120: The AIM-9X and AIM-120 missile systems are the main air-to-air armaments for the F-22 Raptor and F-15 Eagle. For effective training to be conducted with these systems, live training shots need to be executed as part of both individual pilot training and joint training exercises with other air and ground units. The Air Force and Army intend to consider the following alternative, as well as a No Action Alternative, or other reasonable alternative developed during scoping: Alternative A proposes to consider the existing Temporary Maritime Activities Area (300 nautical miles [NM] long by 150 NM wide; 0 feet above ground level [AGL]—flight level (FL) 600; includes subsurface operating areas), and Warning Area 612 (WA-612) (0 feet AGL—FL290) in the Gulf of Alaska for the missile live fire delivery of the AIM-9X and AIM-120 missiles by Air Force F-22 fighter aircraft.

Joint Precision Airdrop System (JPADS) Drop Zones: JPADS is a GPS

[global positioning system]-guided precision airdrop system designed to deliver supplies and equipment to ground forces. JPADS is not currently used within the JPARC. Alaska-based airmen with the requirement to train on JPADS must currently travel to Yuma Proving Grounds in Arizona to conduct this training. The Army and Air Force propose to establish JPADS drop zones as part of JPARC training exercises. The Army and Air Force intend to consider the following alternatives, as well as a No Action Alternative: Alternative A proposes conducting JPADS operations at a reduced altitude sufficient to ensure the airdrop land within Restricted Area 2205 (R-2205) in the Yukon Training Area; Alternative B proposes conducting JPADS operations at a reduced altitude sufficient to ensure the airdrop land within in the Donnelly Training Area Oklahoma Impact Area. (The key distinction between Alternatives A and B is that R-2205 currently has more time and space available to accommodate JPADS drop zone training exercises.) The EIS will address environmental consequences to airspace, noise, safety, biological resources, socioeconomic, transportation, cultural resources, water resources, wetlands, air quality, land use, hazardous materials, recreation and visual resources, environmental justice and risks to children, subsistence, and cumulative impacts. Public and agency scoping may identify other environmental resources for consideration in the EIS.

The Army and Air Force will invite the Bureau of Land Management, Environmental Protection Agency, Federal Aviation Administration, National Marine Fisheries Service, National Park Service, and U.S. Fish and Wildlife Service to be cooperating agencies in preparation of this EIS.

ALCOM will coordinate government-to-government consultation with Federally recognized Tribes, following DoD policy.

Scoping Meetings: The Army and Air Force, with the support of ALCOM, will conduct public scoping meetings in communities likely to be affected by the proposed action to solicit public and agency input. The purpose of scoping is to obtain public, Alaska Native, and government input on the proposed action and alternatives, as well as to gain a better understanding of the potential issues and concerns related to this proposal. The schedule and locations of the scoping meetings are provided below:

All comments received during this scoping period will be considered in the preparation of the draft EIS.

BILLING CODE 5001-10-P

DEPARTMENT OF DEFENSE

Defense Acquisition Regulations System

Waiver of 10 U.S.C. 2534 for Certain Defense Items Produced in the United Kingdom

AGENCY: Defense Acquisition Regulations System, Department of Defense (DoD).

ACTION: Notice of waiver of 10 U.S.C. 2534 for certain defense items produced in the United Kingdom.

SUMMARY: The Under Secretary of Defense (Acquisition, Technology, and Logistics) is waiving the limitation of 10 U.S.C. 2534 for certain defense items produced in the United Kingdom (UK). 10 U.S.C. 2534 limits DoD procurement of certain items to sources in the national technology and industrial base. The waiver will permit procurement of enumerated items from sources in the UK, unless otherwise restricted by statute.

DATES: *Effective Date:* This waiver is effective for one year, beginning December 23, 2010.

FOR FURTHER INFORMATION CONTACT: Mr. Jeffrey Grover, OUSD (AT&L), Office of the Director of Defense Procurement and Acquisition Policy, Contract Policy and International Contracting, Room 5E621, 3060 Defense Pentagon, Washington, DC 20301–3060, telephone (703) 697–9352.

SUPPLEMENTARY INFORMATION:

Subsection (a) of 10 U.S.C. 2534 provides that the Secretary of Defense may procure the items listed in that subsection only if the manufacturer of the item is part of the national technology and industrial base. Subsection (i) of 10 U.S.C. 2534 authorizes the Secretary of Defense to exercise the waiver authority in subsection (d), on the basis of the applicability of paragraph (2) or (3) of that subsection, only if the waiver is made for a particular item listed in subsection (a) and for a particular foreign country. Subsection (d) authorizes a waiver if the Secretary determines that application of the limitation “would impede the reciprocal procurement of defense items under a memorandum of understanding providing for reciprocal procurement of defense items” and if he determines that “that country does not discriminate against defense items produced in the United States to a greater degree than the United States discriminates against defense items produced in that country.” The Secretary of Defense has delegated the waiver authority of 10 U.S.C. 2534(d) to the Under Secretary of Defense (Acquisition, Technology, and Logistics).

DoD has had a Reciprocal Defense Procurement Memorandum of Understanding (MOU) with the UK since 1975, most recently renewed on December 16, 2004.

The Under Secretary of Defense (Acquisition, Technology, and Logistics) finds that the UK does not discriminate against defense items produced in the

United States to a greater degree than the United States discriminates against defense items produced in the UK, and also finds that application of the limitation in 10 U.S.C. 2534 against defense items produced in the UK would impede the reciprocal procurement of defense items under the MOU.

Under the authority of 10 U.S.C. 2534, the Under Secretary of Defense (Acquisition, Technology, and Logistics) has determined that application of the limitation of 10 U.S.C. 2534(a) to the procurement of any defense item produced in the UK that is listed below would impede the reciprocal procurement of defense items under the MOU with the UK.

On the basis of the foregoing, the Under Secretary of Defense (Acquisition, Technology, and Logistics) is waiving the limitation in 10 U.S.C. 2534(a) for procurements of any defense item listed below that is produced in the UK. This waiver applies only to the limitations in 10 U.S.C. 2534(a). It does not apply to any other limitation. This waiver applies to procurements under solicitations issued during the period from December 23, 2010 to December 22, 2011. Similar waivers have been granted since 1998, most recently in 2009 (74 FR 65763) on December 11, 2009.

List of Items To Which This Waiver Applies

1. Air circuit breakers.
2. Welded shipboard anchor and mooring chain with a diameter of four inches or less.
3. Gyrocompasses.
4. Electronic navigation chart systems.
5. Steering controls.
6. Pumps.
7. Propulsion and machinery control systems.
8. Totally enclosed lifeboats.
