BILLING CODE 4915-01-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Notice of Receipt and Request for Review of Noise Compatibility Program

AGENCY: Federal Aviation Administration, Department of Transportation (DOT).

ACTION: Notice of receipt and request for review of noise compatibility program.

SUMMARY: The Federal Aviation Administration (FAA) announces that it is reviewing a proposed noise compatibility program that was submitted for John F. Kennedy International Airport by The Port Authority of New York and New Jersey. This program was submitted subsequent to a determination by FAA that associated noise exposure maps submitted for John F. Kennedy International Airport were in compliance with applicable requirements, effective May 19, 2017. The proposed noise compatibility program will be approved or disapproved on or before March 15, 2023. This notice also announces the availability of this noise compatibility program for public review and comment.

DATES: The effective date of start of FAA's review of the noise compatibility program is September 16, 2022. The public comment period ends November 15, 2022.

FOR FURTHER INFORMATION CONTACT: Andrew Brooks, Regional Environmental Program Manager, Airports Division, Federal Aviation Administration, 1 Aviation Plaza, Room 516, Jamaica, NY 11434. Phone Number: 718-553-2511. Comments on the proposed noise compatibility program

should also be submitted to the above office.

SUPPLEMENTARY INFORMATION: This notice announces that the FAA is reviewing a proposed noise compatibility program (NCP) for John F. Kennedy International Airport which will be approved or disapproved on or before March 15, 2023. This notice also announces the availability of this program for public review and comment.

An airport operator who has submitted noise exposure maps (NEM) that are found by FAA to be in compliance with the requirements of title 49, chapter 475 of the United States Code (U.S.C.) (Aviation Safety and Noise Abatement Act, hereinafter referred to as "the Act") and title 14, Code of Federal Regulations (CFR) part 150 (14 CFR part 150), promulgated pursuant to the Act, may submit a noise compatibility program for FAA approval which sets forth the measures the operator has taken or proposes to reduce existing non-compatible uses and prevent the introduction of additional non-compatible uses. The FAA previously determined that the NEMs for John F. Kennedy International Airport were in compliance with applicable requirements under 14 CFR part 150, effective January 15, 2019 (Noise Exposure Map Notice for John F. Kennedy International Airport, New York City, New York, 82 FR 24770-1, May 30, 2017).

The FAA has formally received the NCP for John F. Kennedy International Airport on September 7, 2022. The airport operator has requested that the FAA review this material and that the noise mitigation measures, to be implemented jointly by the airport and surrounding communities, be approved as a NCP under section 47504 of the Act. Preliminary review of the submitted material indicates that it conforms to the requirements for the submittal of NCPs, but that further review will be necessary prior to approval or disapproval of the program for John F. Kennedy International Airport. The formal review period, limited by law to a maximum of 180 days, was initiated on September 16, 2022 and will be completed on or before March 15, 2023.

The FAA's detailed evaluation will be conducted under the provisions of 14 CFR 150.33. The primary considerations in the evaluation process are whether the proposed measures may reduce the level of aviation safety, create an undue burden on interstate or foreign commerce, or be reasonably consistent with obtaining the goal of reducing

existing non-compatible land uses and preventing the introduction of additional non-compatible land uses.

Interested persons are invited to comment on the proposed program with specific reference to these factors. All comments, other than those properly addressed to local land use authorities, will be considered by the FAA to the extent practicable. Copies of the proposed NCP for John F. Kennedy International Airport are available for examination online at http://panynjpart150.com/JFK_FNCP.asp.

The Port Authority of New York and New Jersey has also made a hard copy of the document available for review at the JFK Redevelopment Community Information Center, 144-33 Jamaica Avenue, Jamaica, NY 11435. Interested parties can contact the office at (718) 244-3834 to arrange for a review.

Questions regarding this notice may be directed to the individual named above under the heading, **FOR FURTHER INFORMATION CONTACT**.

Issued in Jamaica, NY, on September 16, 2022.

David A. Fish,
Director, Airports Division, Eastern Region.

DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2022-0174]

Agency Information Collection Activities; New Information Collection: Effectiveness of Third-Party Testing and Minimum Standards for Commercial Driver's License (CDL) Knowledge and Skills Tests

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), Department of Transportation (DOT).

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FMCSA announces its plan to submit the Information Collection Request (ICR) described below to the Office of Management and Budget (OMB) for its review and approval and invites public comment. This ICR is related to the collection of information to determine the effectiveness of (a) third party testing programs as they relate to commercial driver's license (CDL) skills and knowledge tests and (b) minimum testing standards for CDL skills and knowledge tests.
