

for States to submit ADA and other eligibility and allocation data to the Department. On the basis on the information that States have provided to us, we will award formula grants to eligible LEAs that submit a timely application for funds under the program.

We are now establishing a deadline for the submission of LEA applications, because the precise amount of funding that an eligible LEA will receive under the program for FY 2002 is affected by whether other eligible LEAs throughout the country participate in the program. The Department cannot determine final allocations under the Small, Rural School Achievement Program without a deadline for the submission of applications.

Electronic Submission of Applications: To receive its share of FY 2002 funding, an eligible LEA must submit an electronic application to the Department by July 8, 2002. Submission of an electronic application involves the use of the Electronic Grant Application System (e-APPLICATION, formerly e-GAPS) portion of the Grant Administration and Payment System (GAPS).

You can access the electronic application for the Small, Rural School Achievement Program at: <http://e-grants.ed.gov>.

Once you access this site, you will receive specific instructions regarding the information to include in your application.

The regular hours of operation of the e-Grants Web site are from 6 a.m. until 12 midnight (Washington, DC time) on Mondays, Tuesdays, Thursdays and Fridays; and from 6 a.m. until 7 p.m. on Wednesdays and Saturdays. The system is unavailable on the second Saturday of every month, Sundays, and Federal holidays.

Appendix A: Minimum Data Elements

The following table presents the proposed requirements for the minimum data elements that a State shall collect and maintain for the purpose of electronically exchanging, among the States, educational and health information for all migratory students.

The table lists the data elements by: (1) A data element identification number, (2) a code that identifies the primary user function(s) for which the data element is required, (3) the name of the data element, and (4) a data element definition.

In regard to the primary user functions for which a data element is required, the letter "E" indicates that the data element is required to help guidance counselors, school registrars, or migrant education specialists with the timely and efficient enrollment of migratory students in a school in the community in which the children currently reside. The letter "P" indicates that the data element is required to help guidance counselors or migrant education specialists with the proper placement of migratory students into courses and/or programs at the appropriate grade level. The letter "G" indicates that the data element is required to help guidance counselors or migrant education specialists with the provision of academic counseling that supports the completion of courses and the accrual of credits needed for graduation.

In addition, the data elements are grouped into one of five categories of data: (1) Data elements that describe a student, (2) data elements that describe a school or project, (3) data elements that describe the student's graduation plan, (4) data elements that describe a student's course history, and (5) data elements that describe a student's assessment information.

Finally, although the data elements are listed once, a number of the data elements will be used for multiple entries in a migrant student record (e.g., "course title" will be used for each course in which a migratory student is enrolled).
