SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-96611; File No. SR-IEX-2022-10]

Self-Regulatory Organizations; Investors Exchange LLC; Order Granting Approval of a Proposed Rule Change To Modify IEX Rule 11.190(b)(7) To Adopt an Optional Cancel or Re-Price Functionality for D-Limit Orders

January 9, 2023.

I. Introduction

On November 4, 2022, the Investors Exchange LLC ("IEX" or the "Exchange") filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Exchange Act")¹ and Rule 19b-4 thereunder,² a proposed rule change to allow Users³ of Discretionary

Limit orders ("D-Limit orders") to opt for their D-Limit orders to either automatically cancel or re-price—under certain conditions—after an initial price adjustment. The proposed rule change was published for comment in the **Federal Register** on November 25, 2022.⁴ The Commission received no comments on the proposed rule change. This order approves the proposed rule change.

II. Description of the Proposed Rule Change

The Exchange seeks to amend IEX Rule 11.190(b)(7) to allow a User to attach an optional instruction to a D-Limit order so that the order will either re-price or cancel following an initial price adjustment during a period of quote instability⁵ under certain circumstances. Specifically, the D-Limit order would either reprice or cancel if, after the most recent quote instability determination⁶ that resulted in the D-Limit order being price adjusted, ten (10) milliseconds have passed and the order is resting at a price that is less aggressive than the NBB⁷ for buy orders or less aggressive than the NBO⁸ for sell orders.

Current D-Limit Functionality

D-Limit orders are limit orders that may be either displayed or non-displayed and are initially priced and ranked in the Exchange's Order Book at the order's limit price.⁹

When a D-Limit order is resting on the Exchange's Order Book, it will reprice automatically when the Exchange's Crumbling Quote Indicator ("CQI") is triggered (*i.e.*, during a period of relative quote instability).¹⁰ The CQI that applies to D-Limit orders is governed by IEX Rule 11.190(g)(1), under which the Exchange utilizes quoting activity of eight away exchanges' Protected Quotations¹¹ and a mathematical calculation to assess the probability of an imminent change to the current Protected NBB¹² to a lower price or imminent change to the current Protected NBO¹³ to a higher price for a
