The President's Management Agenda includes objectives for creating a twenty-first century government that delivers better results to the American people in a more efficient manner. Leveraging information technology capabilities to reduce reporting burden is key to achieving these goals. Section 5 of the Digital Accountability and Transparency Act (Pub. The pilot participants are required to provide requested reports as well as the cost to collect the data via the pilot. The proposed pilot program will provide an alternative submission method for existing Federal Acquisition Regulation (FAR) requirements, and assess the pilot results against the existing FAR-required method.
