BILLING CODE 9110-12-P

DEPARTMENT OF HOMELAND SECURITY**Federal Emergency Management Agency****44 CFR Part 67**

[Docket ID FEMA-2011-0002]

Final Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Final rule.

SUMMARY: Base (1% annual-chance) Flood Elevations (BFEs) and modified BFEs are made final for the communities listed below. The BFEs and modified BFEs are the basis for the floodplain management measures that each community is required either to adopt or to show evidence of being already in effect in order to qualify or

remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The date of issuance of the Flood Insurance Rate Map (FIRM) showing BFEs and modified BFEs for each community. This date may be obtained by contacting the office where the maps are available for inspection as indicated in the table below.

ADDRESSES: The final BFEs for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT: Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472,

(202) 646-4064, or (e-mail)
 luis.rodriquez1@dhs.gov.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) makes the final determinations listed below for the modified BFEs for each community listed. These modified elevations have been published in newspapers of local circulation and ninety (90) days have elapsed since that publication. The Deputy Federal Insurance and Mitigation Administrator has resolved any appeals resulting from this notification.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR part 67. FEMA has developed criteria for floodplain management in floodprone areas in accordance with 44 CFR part 60.

Interested lessees and owners of real property are encouraged to review the proof Flood Insurance Study and FIRM available at the address cited below for

each community. The BFEs and modified BFEs are made final in the communities listed below. Elevations at selected locations in each community are shown.

National Environmental Policy Act. This final rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. An environmental impact assessment has not been prepared.

Regulatory Flexibility Act. As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601-612, a regulatory flexibility analysis is not required.

Regulatory Classification. This final rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism. This final rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This final rule meets the applicable standards of Executive Order 12988.

List of Subjects in 44 CFR Part 67

Administrative practice and procedure, Flood insurance, Reporting and recordkeeping requirements.

Accordingly, 44 CFR part 67 is amended as follows:

PART 67—[AMENDED]

■ 1. The authority citation for part 67 continues to read as follows:

Authority: 42 U.S.C. 4001 *et seq.*; Reorganization Plan No. 3 of 1978, 3 CFR, 1978 Comp., p. 329; E.O. 12127, 44 FR 19367, 3 CFR, 1979 Comp., p. 376.

§ 67.11 [Amended]

■ 2. The tables published under the authority of § 67.11 are amended as follows:

State	City/town/county	Source of flooding	Location	* Elevation in feet (NGVD) + Elevation in feet (NAVD) # Depth in feet above ground ^ Elevation in meters (MSL) Modified

RIN 2137-AE64

Pipeline Safety: Control Room Management/Human Factors

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA); DOT.

ACTION: Final rule.

SUMMARY: This rule expedites the program implementation deadlines in

the Control Room Management/Human Factors regulations in order to realize the safety benefits sooner than established in the original rule. The deadline for pipeline operators to implement the procedures for roles and responsibilities, shift change, change management, and operating experience, fatigue mitigation education and training is now October 1, 2011, 16 months sooner than the original regulation. The deadline for pipeline operators to implement the other procedures for adequate information, shift lengths, maximum hours-of-service, and alarm management is now August 1, 2012, six months sooner than the original regulation. In general, training procedures must also be implemented by August 1, 2012, with certain exceptions.

DATES: This rule is effective August 15, 2011.

FOR FURTHER INFORMATION CONTACT: For further information contact Byron Coy at 609-989-2180 or by e-mail at Byron.Coy@dot.gov.

SUPPLEMENTARY INFORMATION:

I. Executive Summary

This final rule amends the program implementation deadlines originally

published by PHMSA on December 3, 2009, in 49 CFR 192.631 and 195.446 (74 FR 63310), as corrected February 3, 2010 (75 FR 5536). By this amendment to the Control Room Management/Human Factors (CRM) rule, an operator must implement the procedures required by the rule according to the following schedule. The procedures required by Paragraphs (b) (roles and responsibilities), (c)(5) (shift change), (d)(2)–(3) (fatigue mitigation education and training), (f) (change management), and (g) (operating experience) of the rule must now be implemented no later than October 1, 2011. The procedures required by Paragraphs (c)(1)–(4) (adequate information), (d)(1) (shift lengths), (d)(4) (maximum hours-of-service), and (e) (alarm management) must now be implemented no later than August 1, 2012. The training procedures required by the remaining Paragraph (h) must now be implemented no later than August 1, 2012, except that any training required as a condition of compliance with another paragraph of the rule must be implemented no later than the corresponding deadline for implementing that part of the rule. Table 1 shows program implementation deadlines for different paragraphs.

TABLE 1—PROGRAM IMPLEMENTATION DEADLINE FOR DIFFERENT PARAGRAPHS

Paragraph	(b) Roles & responsibilities	(c) Adequate information	(d) Fatigue mitigation	(e) Alarm management	(f) Change management	(g) Operating experience	(h) Training
Current Regulations.	Feb 1, 2013	Feb 1, 2013	Feb 1, 2013	Feb 1, 2013	Feb 1, 2013	Feb 1, 2013	Feb 1, 2013.
NPRM	Aug 1, 2011	C5 Aug 1, 2011 ... C1-4 Aug 1, 2012	Aug 1, 2011	Aug 1, 2012	Aug 1, 2011	Aug 1, 2011	Aug 1, 2011.
Final Rule	Oct 1, 2011	C5 Oct 1, 2011 ... C1-4 Aug 1, 2012	D2 & D3 Oct 1, 2011. D1 & D4 Aug 1, 2012.	Aug 1, 2012	Oct 1, 2011	Oct 1, 2011	Training elements aligned to due date of each element.

Executive Orders 12866 and 13563 require agencies to regulate in the "most cost-effective manner," to make a "reasoned determination that the benefits of the intended regulation

justify its costs," and to develop regulations that "impose the least burden on society." The expected benefit of this rulemaking action is an expedited implementation deadline of

the CRM rule that realizes the safety benefit to the public, property, and the environment sooner.

	Low (\$ millions)	High (\$ millions)	Average (\$ millions)
Total Cost of Rule	\$8.8	13.5	11.1
Total Benefit of Rule	\$13.9	13.9	13.9
Net Benefit of Rule	\$5.1	0.4	2.8

II. Background

On September 17, 2010, PHMSA published a Notice of Proposed Rulemaking (NPRM) proposing to expedite the program implementation deadlines in the CRM rule at §§ 192.631 and 195.446 (75 FR 56972). The NPRM proposed to expedite the deadline for

implementing all the procedures required by the rule to August 1, 2011, except that procedures required by Paragraphs (c)(1)–(4) (adequate information) and (e) (alarm management) would have a program implementation deadline of August 1, 2012.

PHMSA received requests from several pipeline trade associations and pipeline operators to extend the comment period until after PHMSA's public workshop on pipeline control room management, which was held on November 17, 2010, in Houston, Texas (75 FR 67450). So, PHMSA extended the
