SUPPLEMENTARY INFORMATION:

I. Background

The Office of Federal Contract Compliance Programs (OFCCP) is responsible for the administration of three equal opportunity programs prohibiting employment discrimination and requiring affirmative action. The OFCCP administers Executive Order 11246, as amended; Section 503 of the Rehabilitation Act of 1973, as amended (Section 503); and the affirmative action provisions of the Vietnam Era Veterans' Readjustment Assistance Act of 1974, as amended (VEVRAA), 38 U.S.C. 4212. The regulations implementing the Executive Order program are found at 41 CFR Parts 60-1, 60-2, 60-3, 60-4, 60-20, 60-30, 60-40, and 60-50. The regulations implementing Section 503 are published at 41 CFR Part 60-741. The regulations implementing VEVRAA are found at 41 CFR Part 60-250 and 41 CFR Part 60-300. These regulations require contractors to develop and maintain Affirmative Action Programs (AAP). OFCCP reviews these AAPs

through its compliance evaluation process. For purposes of this clearance request, the programs have been divided functionally into two categories, construction and supply and service. This information collection request covers the recordkeeping and reporting requirements for the functional aspects of the program involving construction. A separate information collection request covers the recordkeeping and reporting requirements for functional aspects of the program involving supply and service, and is approved under the Office of Management and Budget (OMB) Number 1215-0072.

On December 13, 2005, OMB approved without change this Information Collection through December 31, 2008. The December 13, 2005 submission included an internal assessment of the burden hours associated with the construction program. OFCCP updated the internal assessment and included the burden hour results of the internal assessment in this **Federal Register** Notice, for which OFCCP is seeking public comments. The results of the internal study, along with the public comments, will be incorporated in the final information collection requirement seeking a three-year approval.

The Department of Labor invites comments on the accuracy of the estimated universe of 240,534 Federal contractor construction firms. OFCCP developed this estimate through a multi-step process. First, OFCCP obtained the total number of construction firms in the United States from statistics compiled by the U.S. Census Bureau in 2002. The census compilation indicated that there were 601,339 construction firms in the United States.

This total was calculated by adding Nonresidential building construction (NAICS 2362), Heavy and civil engineering construction (NAICS 237), Specialty trade contractors (NAICS 238), and Other specialty trade contractors (NAICS 2389). Because all construction firms are not covered contractors within OFCCP's jurisdiction, OFCCP developed an estimate of the percentage of firms that are covered contractors by examining the percentage of supply and service firms that are covered contractors. Employer Information Report (EEO-1) forms filed annually by many employers provide information on the supply and service universe of Federal contractors. Relying on this EEO-1 data, OFCCP found that there were 25,681 supply and service consolidated EEO-1 Reports filed in FY 2002. This is a reasonable approximation of the total number of supply and service firms in the United
