

DEPARTMENT OF AGRICULTURE**Submission for OMB Review;
Comment Request; Correction**

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding; whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. Comments regarding this information collection received by November 3, 2022 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Agricultural Research Service

Title: Peer Review Related Forms for the Office of Scientific Quality Review.
Action: Notice: Correction.

OMB Control Number: 0518–0028.

Summary of Collection: The Office of Scientific Quality Review (OSQR) published a document in the **Federal Register** on September 21, 2022, Volume 87, Number 182, page 57680, concerning a request for comment on the information collection “Peer Review Related Forms for the Office of Scientific Quality Review” OMB control number 0518–0028. The number of

respondents and burden hours were incorrect. The number of respondents should have been 401 not 230 and the burden hours 2,833 not 2,460.

Number of Respondents: 401.

Frequency of Responses: Reporting: Quarterly; Weekly; Annually.

Total Burden Hours: 2,833.

Ruth Brown,

*Departmental Information Collection
Clearance Officer.*

DEPARTMENT OF AGRICULTURE**Animal and Plant Health Inspection
Service**

[Docket No. APHIS–2020–0106]

**Notice of Decision To Authorize the
Importation of Pummelo From Vietnam
Into the United States**

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: We are advising the public of our decision to authorize the importation into the United States of fresh pummelo fruit from Vietnam. Based on the findings of a pest risk analysis, which we made available to the public for review and comment through a previous notice, we have determined that the application of one or more designated phytosanitary measures will be sufficient to mitigate the risks of introducing or disseminating plant pests or noxious weeds via the importation of fresh pummelo fruit from Vietnam.

DATES: Imports may be authorized beginning October 4, 2022.

FOR FURTHER INFORMATION CONTACT: Dr. Sam Johnson, Senior Regulatory Policy Specialist, Regulatory Coordination and Compliance, PPQ, APHIS, 4700 River Road, Unit 133, Riverdale, MD 20737–1231; (301) 442–6583.

SUPPLEMENTARY INFORMATION:**Background**

Under the regulations in “Subpart L—Fruits and Vegetables” (7 CFR 319.56–1 through 319.56–12, referred to below as the regulations), the Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture (USDA) prohibits or restricts the importation of fruits and vegetables into the United States from certain parts of the world to prevent plant pests from being introduced into and spread within the United States.

Section 319.56–4 of the regulations contains a performance-based process

for approving the importation of commodities that, based on the findings of a pest risk analysis (PRA), can be safely imported subject to one or more of the designated phytosanitary measures listed in paragraph (b) of that section. Under that process, APHIS proposes to authorize the importation of a fruit or vegetable into the United States if, based on findings of a PRA, we determine that the measures can mitigate the plant pest risk associated with the importation of that fruit or vegetable. APHIS then publishes a notice in the **Federal Register** announcing the availability of the PRA that evaluates the risks associated with the importation of a particular fruit or vegetable. Following the close of the 60-day comment period, APHIS will issue a subsequent **Federal Register** notice announcing whether or not we will authorize the importation of the fruit or vegetable subject to the phytosanitary measures specified in the notice.

In accordance with that process, we published a notice¹ in the **Federal Register** on December 27, 2021 (86 FR 73237–73238, Docket No. APHIS–2020–0106), in which we announced the availability, for review and comment, of a PRA that evaluated the risks associated with the importation into the United States of pummelo fruit (*Citrus maxima* Merrill) from Vietnam. The PRA consisted of a risk assessment identifying pests of quarantine significance that could follow the pathway of importation of pummelo fruit from Vietnam into the United States and a risk management document (RMD) identifying phytosanitary measures to be applied to that commodity to mitigate the pest risk.

We solicited comments on the notice for 60 days ending on February 25, 2022. We did not receive any comments by that date.

Therefore, in accordance with the regulations in § 319.56–4(c)(3)(iii), we are announcing our decision to authorize the importation into the United States of pummelo from Vietnam subject to the phytosanitary measures identified in the RMD that accompanied the initial notice.

These conditions will be listed in the USDA, APHIS Agricultural Commodity Import Requirements (ACIR) database (<https://acir.aphis.usda.gov/s/>).² In addition to these specific measures, pummelo from Vietnam will be subject to the general requirements listed in

¹ To view the notice and the PRA, go to www.regulations.gov. Enter APHIS–2020–0106 in the Search field.

² On September 30, 2022, the APHIS Fruits and Vegetables Import Requirements (FAVIR) database was replaced by the ACIR database.
