

provisions of the rules of the Exchange and to carry out the Exchange's responsibilities as a self-regulatory organization in that the proposed rule change facilitates the collection of trade information that the Exchange may utilize in reviewing whether ECRP transactions and Block Trades comply with Exchange rules.

Additionally, the proposed rule change proposes to make clear to TPHs the reporting process for the submission of required information regarding an ECRP transaction or Block Trade when an Authorized Reporter is reporting the transaction to the Exchange on behalf of both parties to the transaction by describing that process in CFE's rules. The proposed rule change also contributes to facilitating compliance with CFE rules by making it easier for Authorized Reporters to provide information to the Exchange regarding ECRP transactions and Block Trades when an Authorized Reporter is reporting both sides of the transaction. Similarly, the proposed rule change improves the functioning of the reporting mechanism for ECRP transactions and Block Trades and thus CFE's market by making the process to report these types of transactions more efficient where the Authorized Reporter is reporting both sides of the transaction. The proposed rule change does not substantively change the existing reporting requirements for ECRP transactions or Block Trades and instead serves to simplify the reporting process in the scenario in which both parties to an ECRP transaction or Block Trade, as applicable, are utilizing the same Authorized Reporter.

B. Self-Regulatory Organization's Statement on Burden on Competition

CFE does not believe that the proposed rule changes will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. Specifically, the Exchange believes that the proposed rule change will not burden intra-market competition because the proposed rule amendments will apply equally to all TPHs. The Exchange also believes that the proposed rule change will not burden inter-market competition because the proposed rule change contributes to the Exchange's ability to enforce compliance with its rules and to carry out its responsibilities as a self-regulatory organization by contributing to the Exchange's ability to obtain trade information that it may utilize in reviewing whether ECRP transactions and Block Trades comply with Rule 414 and 415.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The proposed rule change will become operative on April 28, 2023. At any time within 60 days of the date of effectiveness of the proposed rule change, the Commission, after consultation with the CFTC, may summarily abrogate the proposed rule change and require that the proposed rule change be refiled in accordance with the provisions of section 19(b)(1) of the Act.⁸
