Department of the Army

Notice of Intent (NOI) To Prepare an Environmental Impact Statement for the Future Development and Operations at Fort Meade, MD

AGENCY: Department of the Army, DOD.

ACTION: Notice of availability.

SUMMARY: The U.S. Army Fort George G. Meade, Maryland, announces its intent to prepare an Environmental Impact Statement (EIS) that will address the future development and operations of

Fort Meade's Real Property Master Plan (RPMP) for the Years 2000-2004. The planned projects which will occur during this time include the following: construction of new facilities that will consolidate tenants from dilapidated World War II structures and off post leased facilities into more cost efficient and effective facilities, demolition and construction of barracks and mess halls and providing on post development opportunities for tenants on installations that are currently faced with Base Realignment and Closure. It is the purpose of this EIS to further assess the impacts, most specifically to air and traffic, that were identified in the Environmental Assessment entitled "Future Development and Operations Environmental Assessment" dated April 1999.

ADDRESSES: Questions or written comments may be forwarded to the U.S. Army Corps of Engineers, Baltimore District, Planning Division, Planning and Environmental Services Branch (Attn: Ft. Meade EIS), 10 South Howard Street, P.O. Box 1715, Baltimore, Maryland 21203-1715, Telephone (410) 962-4939.

FOR FURTHER INFORMATION CONTACT: Mr. Jim Gebhardt, Environmental Engineer, Directorate of Public Works Environmental Management Office, at (301) 677-9365.

SUPPLEMENTARY INFORMATION: The Fort Meade RPMP has the potential to significantly impact certain natural, economic, social and cultural resources of the Fort Meade community. The objective is to prepare a comprehensive EIS which will serve as a planning tool, a public information source and a reference for mitigation tracking.

Alternatives may consist of alternate locations for specific projects, partial implementation of the specific project or modifications to the specific project. The alternatives will be developed during the preparation of the Draft EIS (DEIS) as a result of public input and the environmental analysis of the proposals within the plan. The objective Fort Meade's DEIS is to identify and evaluate any environmental implications that may result from developing the Master Plan. The DEIS will describe the impacts of existing environmental, cultural and natural resources, social, economic and environmental justice conditions associated with the proposed projects at Fort Meade.

The Army will initiate a scoping process to discuss significant issues related to the DEIS through public meetings and local publications. These efforts are designed to encourage public

input that will inevitably help determine and better define the underlying issues of the DEIS. Planned public meetings will be announced through local publications and online Internet access in advance of any proposed action, announcing meeting time and location.

A public meeting will be held on Fort Meade to facilitate input to the EIS process by citizens and organizations. The date and time of these meetings will be announced in the general media and will be at times and locations convenient to the public. To be considered in the Draft EIS, comments and suggestions should be received not later than 15 days following the public scoping meeting.

Significant issues: Within Fort Meade's boundaries lie numerous historic and prehistoric sites that were identified through the Cultural Resources Management Plan. Fort Meade also maintains historically significant structures which are eligible for inclusion on the National Register and may be directly affected by the actions proposed in the long range Master Plan. Equally important is the impact Fort Meade has on the Chesapeake Bay and the crucial role it plays in maintaining and protecting which is considered one of the world's most diverse ecosystems. Fort Meade is also home to eleven State Endangered Species, including the Glassy Darter which is one of only two locations in the State of Maryland where the fish is known to exist.

Dated: February 24, 2000.

Raymond J. Fatz,

*Deputy Assistant Secretary of the Army
(Environment, Safety and Occupational
Health) OASA(I&E).*

DEPARTMENT OF EDUCATION

National Assessment Governing Board; Information Collection Request

AGENCY: National Assessment Governing Board; Department of Education.

ACTION: Notice of amended information collection request.

SUMMARY: The National Assessment Governing Board (NAGB) is amending the Notices of Proposed Information Collection Request (ICR) published on January 18, 2000 and revised on February 18, 2000. The present notice is to inform the public that the Governing Board has cancelled one of two proposed research studies. The study

that was cancelled is on the feasibility of establishing a calibration linkage between a test form resembling an individual test and a survey of group results—the National Assessment of Educational Progress. The study is described in the January 18 and February 18, 2000 notices.

ADDRESSES: Written comments should be addressed to the Office of Information and Regulatory Affairs; Attention: Danny Werfel, Desk Officer; Department of Education; Office of Management and Budget; 725 17th Street, N.W., Room 10235; New Executive Office Building; Washington, D.C. 20503 or should be electronically mailed to the internet address DWERFEL@OMB.EOP.GOV. Submit written comments, on or before March 17, 2000, identified by "ICR: VNT Research and Validation Support Studies (Option Year 2)." The National Assessment Governing Board will forward to OMB any comments received from the public in response to the January 18, 2000 notice inviting requests for public comment on this ICR.

SUPPLEMENTARY INFORMATION: Section 3506 of the Act (44 U.S.C. Chapter 35) requires that the Director of OMB provide interested federal agencies and the public an early opportunity to comment on information collection requests. The Office of Management and Budget (OMB) may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or federal law, or substantially interfere with any agency's ability to perform its statutory obligations. In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice amends a proposed information collection request (ICR) of the National Assessment Governing Board (the Governing Board, or NAGB) published on January 18, 2000 and revised on February 18, 2000. The information collection is to conduct a research and validation support study related to test development for the proposed Voluntary National Test (VNT) during Spring 2000.

ADDITIONAL INFORMATION: Copies of this ICR may be obtained from Ray Fields, Assistant Director, National Assessment Governing Board, Suite 825, 800 North Capitol Street, NW., Washington, DC 20002. Telephone: (202) 357-0395; e-mail: Ray_Fields@ED.Gov.

Dated: February 28, 2000.

Roy Truby,

Executive Director, National Assessment Governing Board.
