Abstract: The agencies issued a supervisory guidance document for implementing the supervisory review process (Pillar 2). The guidance was issued on July 31, 2008 (73 FR 44620).

Sections 37, 41, 43, and 46 of the guidance impose information collection requirements. Section 37 states that banks should state clearly the definition of capital used in any aspect of its internal capital adequacy assessment process (ICAAP) and document any changes in the internal definition of capital. Section 41 requires banks to maintain thorough documentation of ICAAP. Section 43 specifies that boards of directors must approve the bank's

ICAAP, review it on a regular basis, and approve any changes. Boards of directors also are required under section 46 to periodically review the assessment of overall capital adequacy and to analyze how measures of internal capital adequacy compare with other capital measures (such as regulatory or accounting).

The agencies' burden estimates for these information collection requirements are summarized below. Note that the estimated number of respondents listed below include both institutions for which the Basel II risk-based capital requirements are mandatory and institutions that may be considering opting-in to Basel II (despite the lack of any formal commitment by most of these latter institutions).
