

FEDERAL RESERVE SYSTEM**Notice of Proposals to Engage in Permissible Nonbanking Activities or to Acquire Companies that are Engaged in Permissible Nonbanking Activities**

The companies listed in this notice have given notice under section 4 of the Bank Holding Company Act (12 U.S.C. 1843) (BHC Act) and Regulation Y (12 CFR Part 225) to engage *de novo*, or to acquire or control voting securities or assets of a company, including the companies listed below, that engages either directly or through a subsidiary or other company, in a nonbanking activity that is listed in § 225.28 of Regulation Y (12 CFR 225.28) or that the Board has determined by Order to be closely related to banking and permissible for bank holding companies. Unless otherwise noted, these activities will be conducted throughout the United States.

Each notice is available for inspection at the Federal Reserve Bank indicated. The notice also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether the proposal complies with the standards of section 4 of the BHC Act. Additional information on all bank holding companies may be obtained from the National Information Center website at www.ffiec.gov/nic/.

Unless otherwise noted, comments regarding the applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than April 16, 2001.

A. Federal Reserve Bank of St. Louis (Randall C. Sumner, Vice President) 411 Locust Street, St. Louis, Missouri 63166-2034:

1. *Jefferson County Bancshares, Inc.*, Festus, Missouri; to acquire Perry County Financial Corporation, Perryville, Missouri, and thereby indirectly acquire voting shares of Perry County Savings Bank, FSB, Perryville, Missouri, and thereby engage in operating a savings association, pursuant to § 225.28(b)(4)(ii) of Regulation Y.

Board of Governors of the Federal Reserve System, March 16, 2001.

Robert deV. Frierson

Associate Secretary of the Board.

BILLING CODE 6210-01-S

GENERAL SERVICES ADMINISTRATION**Travel and Transportation Policy; Request for Comments on Eliminating the Use of Standard Form (SF) 1169, U.S. Government Transportation Request (GTR)**

AGENCY: Office of Governmentwide Policy, General Services Administration.

ACTION: Notice.

SUMMARY: The General Services Administration (GSA) is proposing to eliminate usage of SF 1169, U.S. Government Transportation Request (GTR). Federal transition to an alternative payment mechanism to involve use of the Government issued travel charge card and centrally billed accounts does, in part, support GTR elimination. An initial review by GSA, however, indicates that elimination of the GTR in its entirety may not be possible.

DATES: Send your written comments by April 23, 2001.

ADDRESSES: Send your written comments to Ms. Jane Groat, Office of Governmentwide Policy (MTT), General Services Administration, 1800 F Street, NW., Room G-219, Washington, DC 20405. Send e-mail comments to: jane.groat@gsa.gov.

FOR FURTHER INFORMATION CONTACT: Jane Groat, Program Analyst, Travel Management Division, Office of Governmentwide Policy, General Services Administration, at 202-501-4318, or Internet e-mail at jane.groat@gsa.gov.

SUPPLEMENTARY INFORMATION:**A. Background**

GSA published GSA Bulletin FPMR G-202 dated June 22, 1999, Eliminating the Use of Standard Form (SF) 1169, U.S. Government Transportation Request (GTR), in the **Federal Register** on July 2, 1999 (64 FR 36018). The bulletin gave notification of the proposed elimination of SF 1169 with

final GSA action anticipated early in the calendar year 2001. GSA also cancelled, effective December 5, 2000, the constructions of the SF 1169 because low user demand (65 FR 75938, December 5, 2000). The 2-part set and 4-part set book are cancelled; only the 4-part single set version of the form is currently available.

Collectively, Federal agencies have supported the concept of GTR elimination; however, there may be some exceptions requiring its continued use in limited cases. GSA is asking Federal agencies to identify any circumstances that would require continued use of SF 1169. GSA is also exploring whether or not the standard form should be converted to an optional form.

B. Request for Comments

GSA is seeking additional information. Transportation service providers and other interested parties are urged to participate by returning comments. Federal agencies are asked to, at a minimum, identify the exceptions for essential use of SF 1169. Official address, contact, and due date are stated above.

Dated: January 25, 2001.

William T. Rivers,

Director, Travel Management Division.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day-01-27]

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease control and Prevention (CDC) will publish periodic

summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call the CDC Reports Clearance Officer on (404) 639-7090.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques for other forms of information technology. Send comments to Anne O'Connor, CDC Assistant Reports Clearance Officer, 1600 Clifton Road, MS-D24, Atlanta, GA 30333. Written comments should be received within 60 days of this notice.

Proposed Project

An Assessment of the Feasibility and Need for Support of Cervical Cancer Screening Services in Publicly Funded Sexually Transmitted Disease (STD) Clinics—New—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control Prevention (CDC).

The National Center for Chronic Disease Prevention and Health Promotion, Division of Cancer Prevention and Control (DCPC) in collaboration with the National Center for HIV, STD, and TB Prevention, Division of STD Prevention proposes to evaluate the need for and suitability of delivering cervical cancer screening services to women receiving health care in public STD clinics. STD clinics provide health services to a population of women considered to be at high risk for human papillomavirus (HPV) infection. Certain HPV types cause abnormal Pap smears and are etiologically linked to cervical cancer. Many women who seek medical attention from STD clinics have limited

access to other sources of health care. Moreover, there is limited published information about the cervical cancer screening behaviors or magnitude of cervical dysplasia in this at-risk population. CDC is conducting this project in response to a Congressional mandate encouraging the exploration of alternative strategies and methods to increase access to cervical cancer screening services among medically underserved women.

To determine if STD clinics are an appropriate venue to identify women in need of cervical cancer screening services, DCPC will recruit and enroll a projected sample of 22,680 women attendees of eight publicly funded clinics. Four of the participating clinics will offer cervical cancer screening services and four will not provide these services. To estimate the need for cervical cancer screening among STD clinic attendees, women who meet the project enrollment criteria at all participating clinics will be asked to participate in a brief interview regarding their recent cervical cancer screening history and their need for screening.

For women attending publicly funded STD clinics offering cervical cancer screening services, data will be collected on the results of the screening examination, results of the diagnostic assessments of abnormal screening tests, and the costs associated with cervical cancer screening and follow-up. For women attending clinics not offering cervical cancer screening, attendees determined to be in need of screening will be referred to local providers offering these services.

A sub-study, verifying attendees reports of recent cervical screening services will be conducted on a sample of clinic attendees. Official Pap smear reports will be collected for those women who indicate a Pap smear was performed during the preceding 12 months. Clinic staff and health care provider activities will involve interviewing attendees, determining attendees eligibility status, and verifying Pap test results. The total costs to respondents will be \$12,929.

Respondents	No. of respondents	No. of responses per respondent	Average burden per response (in hrs)	Total burden (in hrs) ¹
STD clinic—study enrollees	18,144	1	10/60	3,024
STD clinic staff	12,600	1	5/60	1,050
Health Care Providers	7,742	1	10/60	1,290
Total				5,364

¹ Estimates are based on a 12-month data collection period.
