**SUPPLEMENTARY INFORMATION:**

**I. Background**

Under Executive Orders 12073 and 10582, and 20 CFR parts 651 and 654, the Secretary of Labor is required to classify LSAs and disseminate this information for the use of all Federal agencies. This information is used by Federal agencies for various purposes including procurement decisions, food stamp waiver decisions, certain small business loan decisions, as well as other purposes determined by the agencies. The LSA list is issued annually, effective October 1 of each year, utilizing data from the Bureau of Labor Statistics. Areas meeting the criteria are classified as LSAs.

Department regulations specify that the Department can add other areas to the annual LSA listing under the exceptional circumstance criteria. Such additions are based on information contained in petitions submitted by the state workforce agencies (SWAs) to ETA's national office. These petitions contain specific economic information about an area to provide ample justification for adding the area to the LSA listing under the exceptional circumstances criteria. The petitions submitted by the SWAs concern various aspects of unemployment and the economic condition for a specific area in order to provide justification for adding the area to the LSA list under the exceptional circumstances criteria. Under these criteria, an area may be determined eligible for classification as a LSA if it is experiencing a high rate of unemployment which is not temporary or seasonal and which was not adequately reflected in the unemployment data for the two-year reference period. Instructions designed to assist SWAs in the preparation of such petitions are currently contained on the ETA Web site: <http://www.doleta.gov/programs/lisa.cfm>.

**II. Review Focus**

The Department is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- enhance the quality, utility, and clarity of the information to be collected; and
- minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

**III. Current Actions**

*Type of Review:* Extension without revisions.

*Title:* Petition for Classifying Labor Surplus Areas.

*OMB Number:* 1205-0207.

**DEPARTMENT OF LABOR**

**Employment and Training Administration**

**Workforce Investment Act of 1998 (WIA); Lower Living Standard Income Level (LLSIL)**

**AGENCY:** Employment and Training Administration (ETA), Labor.

**ACTION:** Notice.

**SUMMARY:** Title I of WIA (Pub. L. 105-220) requires the U.S. Secretary of Labor

(Secretary) to update and publish the LLSIL tables annually, for uses described in the law (including determining eligibility for youth programs). WIA defines "low income individual" to include individuals who received income during a six-month period that does not exceed the higher level of the poverty line or 70 percent of the LLSIL. This issuance provides the Secretary's annual LLSIL for 2014, and also provides a reference to the 2014 Health and Human Services "Poverty Guidelines."

**DATES:** This notice is effective immediately.

*For Further Information or Questions on the LLSIL:* Please contact Samuel Wright, U.S. Department of Labor, Employment and Training Administration, 200 Constitution Avenue NW., Room C-4526, Washington, DC 20210; Telephone: 202-693-2870; Fax: 202-693-3015 (neither telephone or fax are toll-free numbers); Email address: [wright.samuel.e@dol.gov](mailto:wright.samuel.e@dol.gov). Individuals with hearing or speech impairments may access the telephone number above via Text Telephone (TTY/TDD) by calling the toll-free Federal Information Relay Service at 1-877-889-5627 (TTY/TDD).

*For Further Information or Questions on Federal Youth Employment Programs:* Please contact Jennifer Kemp, U.S. Department of Labor, Employment and Training Administration, 200 Constitution Avenue NW., Room N-4464, Washington, DC 20210; Telephone: 202-693-3377; Fax: 202-693-3110 (neither telephone or fax are toll-free numbers); Email: [kemp.jennifer.n@dol.gov](mailto:kemp.jennifer.n@dol.gov). Individuals with hearing or speech impairments may access the telephone number above via TTY by calling the toll-free Federal Information Relay Service at 1-877-889-5627 (TTY/TDD).

**SUPPLEMENTARY INFORMATION:** The purpose of WIA is to provide employment assistance through statewide and local workforce investment programs that increase the employment opportunities, retention, and earnings of participants. WIA programs are intended to increase the occupational skills of participants and the quality of the workforce, thereby reducing welfare dependency and enhancing the productivity and competitiveness of the Nation's workforce.

LLSIL is used for several purposes under WIA. WIA Section 101(25) defines the term "low income individual" for eligibility purposes, and Sections 127(b)(2)(C) and

132(b)(1)(B)(v)(IV) define “disadvantaged youth” and “disadvantaged adult” in terms of the poverty line or LLSIL for State formula allotments. The governor and State/local workforce investment boards (WIBs) use the LLSIL for determining eligibility for youth and adults for certain services. ETA encourages governors and State/local WIBs to consult the WIA regulations and the preamble to the WIA Final Rule (65 FR 49294, August 11, 2000) for more specific guidance in applying the LLSIL to program requirements. The U.S. Department of Health and Human Services (HHS) published the 2014 poverty-level guidelines in the **Federal Register** on January 22, 2014 (Volume 79, Number 14), pp. 3593–3594 (available at <http://aspe.hhs.gov/poverty/14poverty.cfm>). ETA provides a hyperlink to the 2014 LLSIL **Federal Register** and updated LLSIL tables on its Web site at <http://www.doleta.gov/llsil/2014/>.

WIA Section 101(24) defines LLSIL as “that income level (adjusted for regional, metropolitan, urban and rural differences and family size) determined annually by the Secretary [of Labor] based on the most recent lower living family budget issued by the Secretary.” The Secretary issued the most recent lower living family budget in fall 1981. The four-person urban family budget estimates, previously published by the U.S. Bureau of Labor Statistics (BLS), provided the basis for the Secretary to determine the LLSIL. BLS terminated the four-person family budget series in 1982, after publication of the fall 1981 estimates. Currently, BLS provides data which ETA uses to develop the LLSIL tables, shown in the Appendices to this **Federal Register** notice.

ETA published the 2013 updates to the LLSIL in the **Federal Register** of March 19, 2013, at Vol. 78, No. 53, pp. 16871–16875. This notice updates the LLSIL to reflect cost-of-living increases for 2014, by calculating the percentage change in the most recent 2013 Consumer Price Index for All Urban Consumers (CPI-U) for an area, and applying this calculation to each of the March 19, 2013 LLSIL figures. The updated figures for a four-person family are listed in Appendix A, Table 1 by region for both metropolitan and non-metropolitan areas. Numbers in all Appendix tables are rounded up to the nearest dollar. Since program eligibility for low-income individuals, “disadvantaged adults” and “disadvantaged youth” may be determined by family income at 70 percent of the LLSIL, pursuant to WIA Sections 101(25), 127(b)(2)(C), and

132(b)(1)(B)(v)(IV), respectively, those figures are listed as well.

## I. Jurisdictions

Jurisdictions included in the various regions, based generally on the Census Regions defined by the U.S. Department of Commerce, are as follows:

### A. Northeast

Connecticut  
Maine  
Massachusetts  
New Hampshire  
New Jersey  
New York  
Pennsylvania  
Rhode Island  
Vermont  
Virgin Islands

### B. Midwest

Illinois  
Indiana  
Iowa  
Kansas  
Michigan  
Minnesota  
Missouri  
Nebraska  
North Dakota  
Ohio  
South Dakota  
Wisconsin

### C. South

Alabama  
American Samoa  
Arkansas  
Delaware  
District of Columbia  
Florida  
Georgia  
Northern Marianas  
Oklahoma  
Palau  
Puerto Rico  
South Carolina  
Kentucky  
Louisiana  
Marshall Islands  
Maryland  
Micronesia  
Mississippi  
North Carolina  
Tennessee  
Texas  
Virginia  
West Virginia

### D. West

Arizona  
California  
Colorado  
Idaho  
Montana  
Nevada  
New Mexico  
Oregon

Utah  
Washington  
Wyoming

Additionally, separate figures have been provided for Alaska, Hawaii, and Guam as indicated in Appendix B, Table 2.

For Alaska, Hawaii, and Guam, the year 2014 figures were updated from the 2013 Regional indexes provided by BLS. Data on 23 selected Metropolitan Statistical Areas (MSAs) are also available. These are based on annual and semiannual CPI-U changes for a 12-month period ending in December 2013. The updated LLSIL figures for these MSAs and 70 percent of LLSIL are reported in Appendix C, Table 3.

Appendix D, Table 4 lists each of the various figures at 70 percent of the updated 2013 LLSIL for family sizes of one to six persons. Tables 1–3 only list the LLSIL for a family of four, but Table 4 can be used to separately determine the LLSIL for family incomes between one and six persons. For families larger than six persons, add the income level difference between the six-person and the five-person family income levels for each additional person in the family. Where the poverty level for a particular family size is greater than the corresponding 70 percent of the LLSIL figure, the figure is italicized.

Appendix E, Table 5, shows 100 percent of the LLSIL for family sizes of one to six, and is used to determine self-sufficiency as noted at 20 CFR 663.230 of WIA regulation, and Section 134(d)(3)(A)(ii) of WIA. Modified Microsoft Excel tables for both Appendix E, Table 5 (with the area names) and Appendix D, Table 4, with the area names, and the shaded areas where the poverty level is greater than the corresponding 70 percent of the LLSIL figure, is available on the ETA LLSIL Web site at <http://www.doleta.gov/llsil/2014/>.

## II. Use of These Data

Governors should designate the appropriate LLSILs for use within the State from Appendices A, B, or C, containing Tables 1 through 3. Appendices D and E, contain Tables 4 and 5, which adjust a family of four figure for larger and smaller families, may be used with any LLSIL designated area. The governor's designation may be provided by disseminating information on MSAs and metropolitan and non-metropolitan areas within the State or it may involve further calculations. For example, the State of New Jersey has at least four LLSIL figures (Northeast metropolitan area, Northeast non-metropolitan area, and the New York and Philadelphia MSAs). An area may have more than one LLSIL area

designation, if a workforce investment area has more than one LLSIL area designation, the governor may determine which is to be used.

Under 20 CFR 661.110, a State's policies and measures for the workforce investment system shall be accepted by the Secretary to the extent that they are consistent with WIA and WIA regulations.

### III. Disclaimer on Statistical Uses

Publication of the LLSIL is solely for WIA statutory and regulatory requirements. BLS has terminated the four-person urban family budget estimates series and has not revised the lower living family budget since 1981, and has no plans to do so. The CPI-U adjustments used to update LLSIL for this publication are not precisely comparable, (most notably because certain tax items were included in the 1981 LLSIL, but are not in the CPI-U). Thus, figures in this notice should not be used for any statistical purposes, and are valid only for those purposes under WIA as defined in the law and regulations.

| Non-Metro <sup>4</sup> .. | 41,849              | 29,294           |

<sup>1</sup> For ease of use, these figures are rounded to the next highest dollar.

<sup>2</sup> Metropolitan area measures were calculated from the weighted average CPI-U's for city size classes A and B/C. Non-metropolitan area measures were calculated from the CPI-U's for city size class D.

<sup>3</sup> Non-metropolitan area percent changes for the Northeast region are no longer available. The Non-metropolitan percent change was calculated using the U.S. average CPI-U for city size class D.

<sup>4</sup> Non-metropolitan area percent changes for the West region are based on unpublished BLS data.

### Appendix B

TABLE 2—LOWER LIVING STANDARD INCOME LEVEL <sup>1</sup> (FOR A FAMILY OF FOUR PERSONS), FOR ALASKA, HAWAII AND GUAM

| Region <sup>2</sup> | 2014 Adjusted LLSIL | 70 Percent LLSIL |
|---------------------|---------------------|------------------|
| Alaska:             |                     |                  |
| Metro .....         | \$47,851            | \$33,496         |
| Non-Metro .....     | 50,100              | 35,070           |
| Hawaii, Guam:       |                     |                  |
| Metro .....         | 51,552              | 36,086           |
| Non-Metro .....     | 53,485              | 37,440           |

<sup>1</sup> For ease of use, these figures are rounded to the next highest dollar.

<sup>2</sup> Non-Metropolitan percent changes for Alaska, Hawaii and Guam were calculated from the CPI-U's for all urban consumers for city size class D in the Western Region. Generally the non-metro areas LLSIL is lower than the LLSIL in metro areas. This year the non-metro area LLSIL incomes were larger because the change in CPI-U was smaller in the metro areas compared to the change in CPI-U in the non-metro areas of Alaska, Hawaii and Guam.

<sup>2</sup> Baltimore and Washington are calculated as a single metropolitan statistical area.

**Appendix D****Table 4: 70 Percent of Updated 2014 Lower Living Standard Income Level (LLSIL), by Family Size**

To use the 70 percent LLSIL value, where it is stipulated for the WIA programs, begin by locating the region or metropolitan area where the program applicant resides. These are listed in Tables 1, 2 and 3. After locating the appropriate region or metropolitan statistical area, find the 70 percent LLSIL amount for that location. The 70 percent LLSIL figures are listed in the last column to

the right on each of the three tables. These figures apply to a family of four. Larger and smaller family eligibility is based on a percentage of the family of four. To determine eligibility for other size families consult Table 4 and the instructions below.

To use Table 4, locate the 70 percent LLSIL value that applies to the individual's region or metropolitan area from Tables 1, 2 or 3. Find the same number in the "family of four" column of Table 4. Move left or right across that row to the size that corresponds to the individual's family unit. That figure is the maximum household income the individual

is permitted in order to qualify as economically disadvantaged under the WIA.

Where the HHS poverty level for a particular family size is greater than the corresponding LLSIL figure, the LLSIL figure is italicized. Individuals from these family sizes may consult the 2014 HHS poverty guidelines found on the Health and Human Services Web site at <http://aspe.hhs.gov/poverty/14poverty.cfm> to find the higher eligibility standard. Individuals from Alaska and Hawaii should consult the HHS guidelines for the generally higher poverty levels that apply in their States.

**Appendix E****Table 5: Updated 2014 LLSIL (100 percent), by Family Size**

To use the LLSIL to determine the minimum level for establishing self-

sufficiency criteria at the State or local level, begin by locating the metropolitan area or region from Table 1, 2 or 3 and then find the 2014 adjusted LLSIL amount for that location. These figures apply to a family of four. Locate the corresponding number in the

family of four in the column below. Move left or right across that row to the individual's family unit. That figure is the minimum figure that States must set for determining whether employment leads to self-sufficiency under WIA programs.

### Occupational Safety and Health Administration

[Docket No. OSHA-2013-0012]

#### Revision of OSHA's Policy for Incorporating New Test Standards Into the List of Appropriate NRTL Program Test Standards

**AGENCY:** Occupational Safety and Health Administration (OSHA), Labor.

**ACTION:** Notice of final decision.

**SUMMARY:** In this notice, OSHA revises its existing policies regarding the incorporation of new test standards into the Nationally Recognized Testing Laboratory (NRTL) Program's list of appropriate test standards and into NRTLs' scopes of recognition; and incorporates 72 test standards into the NRTL Program's list of appropriate test standards.

**DATES:** The actions contained in this notice will become effective on March 27, 2014.

#### SUPPLEMENTARY INFORMATION:

##### I. Background

OSHA recognizes organizations that provide product-safety testing and certification services to manufacturers. These organizations perform testing and certification, for purposes of the NRTL Program, to U.S. consensus-based product-safety test standards. OSHA does not develop or issue these test standards, but generally relies on U.S. standards-development organizations (SDOs) accredited by the American National Standards Institute (ANSI). The products covered by the NRTL Program consist of those items for which OSHA safety standards require "certification" by an NRTL. The requirements affect electrical products and 38 other types of products.

OSHA recognition of an organization as an NRTL signifies that the organization meets the legal requirements in OSHA regulations at 29 CFR 1910.7 and the NRTL Program policies in CPL 1-0.3, "NRTL Program Policies, Procedures, and Guidelines," December 2, 1999 ("Directive"). Recognition is an acknowledgement by OSHA that the NRTL has the capabilities to perform independent safety testing and certification of the specific products covered within the NRTL's scope of recognition. Recognition of an NRTL by OSHA also allows employers to use products certified by that NRTL to meet those OSHA standards that require product testing and certification (29 CFR 1910.7(a)).

An NRTL's scope of recognition consists, in part, of specific test standard(s) approved by OSHA for use by the NRTL. Pursuant to OSHA regulations, the NRTL must first request to have a test standard included in its scope of recognition. OSHA will grant the NRTL's request only if the NRTL has the capability to test and examine equipment<sup>1</sup> and materials for workplace safety purposes and to determine conformance with the test standard for each relevant item of equipment or material that it lists, labels, or accepts (29 CFR 1910.7(b)(1)). Capability includes proper testing equipment and facilities, trained staff, written testing procedures, calibration programs, and quality-control programs. An
