

Controlled substance	Drug code	Schedule
Anileridine	9020	II
Diphenoxylate	9170	II
Ecgonine	9180	II
Levorphanol	9220	II
Meperidine	9230	II
Meperidine Intermediate-A	9232	II
Meperidine Intermediate-B	9233	II
Meperidine Intermediate-C	9234	II
Dextropropoxyphene	9273	II
Levo-alphacetylmethadol	9648	II
Alfentanil	9737	II
Remifentanil	9739	II
Sufentanil	9740	II
Carfentanil	9743	II
Tapentadol	9780	II
Fentanyl	9801	II

The company plans to manufacture the above listed controlled substances as analytical reference materials, proficiency test materials and academic research materials for distribution to its customers. No other activities for these drug codes are authorized for this registration.

William T. McDermott,
Assistant Administrator.

BILLING CODE P

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

[Docket No. DEA-790]

Importer of Controlled Substances Application: Globyz Pharma, LLC

AGENCY: Drug Enforcement Administration, Justice.

ACTION: Notice of application.

SUMMARY: Globyz Pharma, LLC has applied to be registered as an importer of basic class(es) of controlled substance(s). Refer to Supplemental Information listed below for further drug information.

DATES: Registered bulk manufacturers of the affected basic class(es), and applicants therefore, may file written comments on or objections to the issuance of the proposed registration on or before March 26, 2021. Such persons may also file a written request for a hearing on the application on or before March 26, 2021.

ADDRESSES: Written comments should be sent to: Drug Enforcement Administration, Attention: DEA Federal Register Representative/DPW, 8701 Morrisette Drive, Springfield, Virginia 22152. All requests for a hearing must be sent to: Drug Enforcement Administration, Attn: Administrator,

8701 Morrisette Drive, Springfield, Virginia 22152. All requests for a hearing should also be sent to: (1) Drug Enforcement Administration, Attn: Hearing Clerk/OALJ, 8701 Morrisette Drive, Springfield, Virginia 22152; and (2) Drug Enforcement Administration, Attn: DEA Federal Register Representative/DPW, 8701 Morrisette Drive, Springfield, Virginia 22152.

SUPPLEMENTARY INFORMATION: In accordance with 21 CFR 1301.34(a), this is notice that on September 30, 2020, Globyz Pharma, LLC, 2101 Market Street, Suite 5, Upper Chichester, Pennsylvania 19061-4001, applied to be registered as an importer of the following basic class(es) of controlled substance(s):

Controlled substance	Drug code	Schedule
Oxycodone	9143	II

The company plans to import the listed controlled substance to complete analytical testing. No other activity for these drug codes is authorized for this registration.

Approval of permit applications will occur only when the registrant's business activity is consistent with what is authorized under 21 U.S.C. 952(a)(2). Authorization will not extend to the import of Food and Drug Administration-approved or non-approved finished dosage forms for commercial sale.

William T. McDermott,
Assistant Administrator.

BILLING CODE 4410-09-P

DEPARTMENT OF LABOR

Mine Safety and Health Administration

Petitions for Modification of Application of Existing Mandatory Safety Standards

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Notice.

SUMMARY: This notice is a summary of a petition for modification submitted to the Mine Safety and Health Administration (MSHA) by the party listed below.

DATES: All comments on the petition must be received by MSHA's Office of Standards, Regulations, and Variances on or before March 26, 2021.

ADDRESSES: You may submit your comments, identified by "docket number" on the subject line, by any of the following methods:

1. *Electronic Mail:* zzMSHA-comments@dol.gov. Include the docket number of the petition in the subject line of the message.

2. *Facsimile:* 202-693-9441.

3. *Regular Mail or Hand Delivery:* MSHA, Office of Standards, Regulations, and Variances, 201 12th Street South, Suite 4E401, Arlington, Virginia 22202-5452, Attention: S. Aromie Noe, Acting Deputy Director, Office of Standards, Regulations, and Variances. Persons delivering documents are required to check in at the receptionist's desk in Suite 4E401. Individuals may inspect copies of the petition and comments during normal business hours at the address listed above.

MSHA will consider only comments postmarked by the U.S. Postal Service or proof of delivery from another delivery service such as UPS or Federal Express on or before the deadline for comments.

FOR FURTHER INFORMATION CONTACT: S. Aromie Noe, Office of Standards, Regulations, and Variances at 202–693–9440 (voice), noe.song-ae.a@dol.gov (email), or 202–693–9441 (facsimile). [These are not toll-free numbers.]

SUPPLEMENTARY INFORMATION: Section 101(c) of the Federal Mine Safety and Health Act of 1977 and Title 30 of the Code of Federal Regulations (CFR) part 44 govern the application, processing, and disposition of petitions for modification.

I. Background

Section 101(c) of the Federal Mine Safety and Health Act of 1977 (Mine Act) allows the mine operator or representative of miners to file a petition to modify the application of any mandatory safety standard to a coal or other mine if the Secretary of Labor determines that:

1. An alternative method of achieving the result of such standard exists which will at all times guarantee no less than the same measure of protection afforded the miners of such mine by such standard; or

2. The application of such standard to such mine will result in a diminution of safety to the miners in such mine.

In addition, the regulations at 30 CFR 44.10 and 44.11 establish the requirements for filing petitions for modification.

II. Petition for Modification

Docket Number: M–2021–001–C.

Petitioner: Patton Mining LLC., 12051 9th Avenue Hillsboro Illinois (ZIP 62049).

Mine: Deer Run Mine, MSHA I.D. No. 11–03182, located in Montgomery County, Illinois.

Regulation Affected: 30 CFR 75.1909 (Nonpermissible diesel-powered equipment; design and performance requirements). 30 CFR 75.1909(b)(6) requires self-propelled nonpermissible diesel-powered equipment to have service brakes that act on each wheel of the vehicle and that are designed such that failure of any single component, except the brake actuation pedal or other similar actuation device will not result in a complete loss of service breaking capacity.

Modification Request: This petition is for a Getman Grader Model No. RDG–1504C, Serial No. 6718. The petitioner requests a modification of the existing standard to permit an alternative method of compliance in lieu of having front brakes for the Getman grader.

The petitioner states that:

(1) Road conditions in a coal mine tend to become very rough to travel on and can pose a serious hazard that

exposes miners to an array of injuries. Road graders have proven to be the best type of mining equipment to maintain underground and surface roadways in the mining industry safe for travel.

(2) The addition of front brakes could cause a loss of control if, for some unknown reason, one of the maintained brakes would lock up during operation. This could cause the grader to veer hard in one direction. Furthermore, the size, weight and location of the front brakes would put repair personnel in positions that could subject them to injury.

As an alternative to the existing standard, the petitioner proposes the following:

(a) No service brakes will be added to the front wheels of the Getman Grader Model No. RDG–1504C, Serial No. 6718 in Deer Run Mine. In lieu of having front brakes, the grader will be maintained with 12.00 x 20.00 tires that will limit the speed of the grader to 10 miles per hour.

(b) The grader will not travel up or down the slope unassisted. If an instance arises that requires the grader to be taken out of the mine, an additional piece of equipment, with adequate braking capacity, will be utilized to assist in removing the grader out of the mine and returning it back into the mine, via the mine slope.

(c) All grader operators will be trained to recognize appropriate levels of speed for the different road conditions.

(d) All grader operators will be trained to lower the moldboard in emergency situations and prior to exiting the operator compartment.

The petitioner asserts that the proposed alternative method will provide a level of safety equivalent to that provided by the existing standard.

Song-ae Aromie Noe,

Acting Deputy Director, Office of Standards, Regulations, and Variances.

BILLING CODE 4520–43–P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[21–011]

Name of Information Collection: NASA Enterprise Salesforce COVID–19 Contact Tracing

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of information collection.

SUMMARY: The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, in compliance

with the requirements of the Paperwork Reduction Act of 1995, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections.

DATES: Comments are due by March 26, 2021.

ADDRESSES: All comments should be addressed to Claire Little, National Aeronautics and Space Administration, 300 E Street SW, Washington, DC 20546–0001 or call 202–358–2375.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Claire Little, NASA Clearance Officer, NASA Headquarters, 300 E Street SW, JF0000, Washington, DC 20546 or email claire.a.little@nasa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The information will be used to determine whether NASA personnel have been exposed to the COVID–19 virus and to track and trace their interactions across the NASA community for identifying possible points of exposure.

Those individuals that volunteer, will be contacted by a NASA Contact Tracer, a to-be-designated NASA healthcare employee, and will be first read the privacy act, to understand their rights and what this information will be used for. Then they will be asked, orally, to confirm if they have symptoms or not (yes/no question). The Tracer will then enter that information, as well as the names, phone numbers, and emails of those they have been in contact with into the newly developed tracking and tracing digital application on NASA's enterprise solution, Salesforce.

While participation is voluntary, it is strongly encouraged as failure to provide the requested information may result in potential increased exposure of personnel to the virus.

NASA may share this information for authorized purposes with (1) private or other government health care providers or agencies for referral or special program responsibilities, and (2) other entities outlined under standard routine uses for all NASA systems of records.

II. Methods of Collection

The voluntary data is collected orally by a NASA Contact Tracer, a to-be-designated NASA healthcare employee, who will then enter all the information into the newly developed tracking and tracing digital application on NASA's enterprise solution, Salesforce.
