efficiently close out reviews where there are no indicators of systemic discrimination present. Under ACM procedures, only cases producing indicators of potential systemic discrimination (defined as potential affected classes of 10 or more applicants/workers) should proceed beyond the desk audit phase. These ACM procedures limit the amount of burden on Federal contractors to supply additional compensation information during the Desk Audit stage of their review

II. Review Focus: The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions: OFCCP seeks a three-year extension to the approval of the Supply and Service Scheduling Letter. There is no change in the substance or method of collection since the last OMB approval. OFCCP revised the burden hour estimates associated with the Supply and Service Scheduling letter based on the responses to a CY 2004 Compensation Questionnaire report submitted to OMB as part of the 2004 Information Collection Request extension.

Type of Review: Extension.
Agency: Employment Standards
Administration.

Title: OFCCP Recordkeeping and Reporting Requirements, Supply and

Service.

OMB Number: 1215–0072.

Affected Public: Business or other for-

profit, not-for-profit institutions.

Total Annual responses: 83,462.

Frequency: Annually.

Average Time per response: 110 hours.

Estimated Total Burden Hours: 9,223,921.

Total Burden Cost (capital/startup): \$0. Total Burden Cost (operating/maintenance): \$110,607.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Dated: July 14, 2005.

Bruce Bohanon,

Chief, Branch of Management Review and Internal Control, Division of Financial Management, Office of Management, Administration and Planning, Employment Standards Administration.

DEPARTMENT OF LABOR

Mine Safety and Health Administration

Petitions for Modification

The following parties have filed petitions to modify the application of existing safety standards under section 101(c) of the Federal Mine Safety and Health Act of 1977.

1. Genwal Resources, Inc.

[Docket No. M-2005-046-C]

Genwal Resources, Inc., P.O. Box 1077, Price, Utah 84501 has filed a petition to modify the application of 30 CFR 75.1100-2(e)(2) (Quantity and location of firefighting equipment) to its Crandall Canyon Mine (MSHA I.D. No. 42-01715) located in Emery County, Utah. The petitioner requests a modification of the existing standard to permit the use of two portable fire extinguishers, or one extinguisher at each temporary electrical installation, with at least twice the minimum capacity for a portable fire extinguisher in 30 CFR 75.1100-1(e). The petitioner asserts that the proposed alternative method will not result in a diminution of safety to the miners and that the proposed alternative method would provide at least the same measure of protection as the existing standard.

2. West Ridge Resources, Inc.

[Docket No. M-2005-047-C]

West Ridge Resources, Inc., P.O. Box 1077, Price, Utah 84501 has filed a petition to modify the application of 30 CFR 75.1100–2(e) (Quantity and location of firefighting equipment) to its West Ridge Mine (MSHA I.D. No. 42–02233) located in Carbon County, Utah. The petitioner requests a modification of the existing standard to permit the use of two portable fire extinguishers, or one portable fire extinguisher at each temporary electrical installation, with at

least twice the minimum capacity for a portable fire extinguisher in 30 CFR 75.1100–1(e). The petitioner asserts that the proposed alternative method will not result in a diminution of safety to the miners and that the proposed alternative method would provide at least the same measure of protection as the existing standard.

3. Genwal Resources, Inc.

[Docket No. M-2005-048-C]

Genwal Resources, Inc., P.O. Box 1077, Price, Utah 84501 has filed a petition to modify the application of 30 CFR 75.1100–2(e)(2) (Quantity and location of firefighting equipment) to its South Crandall Canyon Mine (MSHA I.D. No. 42-02356) located in Emery County, Utah. The petitioner requests a modification of the existing standard to permit the use of two portable fire extinguishers, or one portable fire extinguisher at each temporary electrical installation, with at least twice the minimum capacity for a portable fire extinguisher in 30 CFR 75.1100-1(e). The petitioner asserts that the proposed alternative method will not result in a diminution of safety to the miners and that the proposed alternative method would provide at least the same measure of protection as the existing standard.

4. Andalex Resources, Inc.

[Docket No. M-2005-049-C]

Andalex Resources, Inc., P.O. Box 1077, Price, Utah 84501 has filed a petition to modify the application of 30 CFR 75.1100-2(e)(2) (Quantity and location of firefighting equipment) to its Pinnacle Mine (MSHA I.D. No. 42-01474) located in Carbon County, Utah. The petitioner requests a modification of the existing standard to permit the use of two portable fire extinguishers, or one portable fire extinguisher at each temporary electrical installation, with at least twice the minimum capacity for a portable fire extinguisher in 30 CFR 75.1100–1(e). The petitioner asserts that the proposed alternative method will not result in a diminution of safety to the miners and that the proposed alternative method would provide at least the same measure of protection as the existing standard.

5. Andalex Resources, Inc.

[Docket No. M-2005-050-C]

Andalex Resources, Inc., P.O. Box 1077, Price, Utah 84501 has filed a petition to modify the application of 30 CFR 75.1002(a) (Installation of electric equipment and conductors; permissibility) to its Aberdeen Mine (MSHA I.D. No. 42–02028) located in Carbon County, Utah. The petitioner requests a modification of the existing standard to permit the use of lowvoltage or battery-powered nonpermissible, electronic testing, diagnostic equipment or other equipment within 150 feet of pillar workings, under controlled conditions. The petitioner asserts that the proposed alternative method will not result in a diminution of safety to the miners and that the proposed alternative method based on provisions in 30 CFR 75.153 would provide at least the same measure of protection as the existing standard.

6. Bear Gap Coal Company

[Docket No. M-2005-051-C]

Bear Gap Coal Company, P.O. Box 64, Spring Glen, Pennsylvania 17978 has filed a petition to modify the application of 30 CFR 75.1100-2(a)(2) (Quantity and location of firefighting equipment) to its #6 Slope Mine (MSHA I.D. No. 36–09296) located in Dauphin County, Pennsylvania. The petitioner requests a modification of the existing standard to permit the use of portable fire extinguishers only to replace existing requirements where rock dust, water cars, and other water storage equipped with three 10 quart pails is not practical. The petitioner proposes to use two portable fire extinguishers near the slope bottom and an additional portable fire extinguisher within 500 feet of the working face. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.

7. Bear Gap Coal Company

[Docket No. M-2005-052-C]

Bear Gap Coal Company, P.O. Box 64, Spring Glen, Pennsylvania 17978 has filed a petition to modify the application of 30 CFR 75.1400 (Hoisting equipment; general) to its #6 Slope Mine (MSHA I.D. No. 36-09296) located in Dauphin County, Pennsylvania. The petitioner proposes to use a slope conveyance (gunboat) in transporting persons without installing safety catches or other no less effective devices. The petitioner would instead operate its man cage or steel gunboat with secondary safety connections securely fastened around the gunboat, and to the hoisting rope above the main connecting device, and use hoisting ropes with a factor of safety in excess of the 4 to 8 to 1 as suggested in the American Standards Specifications for the use of wire ropes in mines. The petitioner asserts that the proposed alternative method would

provide at least the same measure of protection as the existing standard.

9. Bear Gap Coal Company

[Docket No. M-2005-053-C]

Bear Gap Coal Company, P.O. Box 64, Spring Glen, Pennsylvania 17978 has filed a petition to modify the application of 30 CFR 75.335 (Construction of seals) to its #6 Slope Mine (MSHA I.D. No. 36-09296) located in Dauphin County, Pennsylvania. The petitioner proposes constructing seals from wooden materials of moderate size and weight; designing the seals to withstand a static horizontal pressure in the range of 10 psi; and installing a sampling tube only in the monkey (higher elevation) seal. The petitioner asserts that because of the pitch of anthracite veins, concrete blocks are difficult to use and expose miners to safety hazards during transport. The petitioner cites the low level of explosibility of anthracite coal dust and the minimal potential for either an accumulation of methane in previously mined pitching veins or an ignition source in the gob area as justification for the proposed 10 psi design criterion. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.

10. Black Beauty Coal Company

[Docket No. M-2005-054-C]

Black Beauty Coal Company, 3609 South Hart Street, Vincennes, Indiana 47591 has filed a petition to modify the application of 30 CFR 75.380(d)(5) (Escapeway; bituminous and lignite mines) to its Air Quality #1 Mine (MSHA I.D. No. 12-02010) located in Knox County, Indiana. The petitioner requests a modification of the existing standard to permit the continued use of the existing Escapeway from Unit #1 (1L/MS) number #1 entry at number 56 crosscut to the Main South (number #7 entry number 61 crosscut) intake Escapeway. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.

Request for Comments

Persons interested in these petitions are encouraged to submit comments via Federal eRulemaking Portal: http://www.regulations.gov; e-mail: zzMSHA-Comments@dol.gov; Fax: (202) 693—9441; or Regular Mail/Hand Delivery/Courier: Mine Safety and Health Administration, Office of Standards, Regulations, and Variances, 1100 Wilson Boulevard, Room 2350, Arlington, Virginia 22209. All comments must be postmarked or

received in that office on or before August 22, 2005. Copies of these petitions are available for inspection at that address.

Dated in Arlington, Virginia this 15th day of July 2005.

Rebecca J. Smith,

Acting Director, Office of Standards, Regulations, and Variances.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice: 05-116]

Notice of Information Collection Under OMB Review

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of information collection under OMB review.

SUMMARY: The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995 (Pub. L. 104–13, 44 U.S.C. 3506(c)(2)(A)).

DATES: All comments should be submitted by September 19, 2005.

ADDRESSES: All comments should be addressed to Desk Officer for NASA, Office of Information and Regulatory Affairs, Room 10236, New Executive Office Building, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Ms. Kathy Shaeffer, Acting NASA Reports Officer, NASA Headquarters, 300 E Street, SW., Mail Suite 6M70, Washington, DC 20546, (202) 358–1230, kathleen.shaeffer-1@nasa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The information developed by the National Aviation Operations Monitoring Service will be used by NASA Aviation Safety Program Managers to evaluate the progress of their efforts to improve aviation over the next decade.

II. Method of Collection

NASA collects this information manually.
