Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Requirements for Certified Applicators Using 1080 Collars for Livestock Protection (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), Requirements for Certified Applicators Using 1080 Collars for Livestock Protection to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through May 31, 2017. Public comments were previously requested via the **Federal Register** on September 26, 2016 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before July 24, 2017.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OPP–2016–0460, to (1) EPA online using www.regulations.gov (our preferred method), or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460, and (2) OMB via email to oir_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT:

Amaris Johnson, Field and External Affairs Division (7506P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460; telephone number: 703–305–9542; email address: johnson.amaris@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents for the Requirements for Certified Applicators Using 1080 Collars for Livestock Protection ICR (EPA ICR No. 1249.11, OMB Control No. 2070–0074), which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: The information in this ICR enables the agency to obtain information needed to track the use of registered Livestock Protection Collar products which contain solutions of Sodium Monofluoroacetate (Compound 1080). The mandatory record-keeping requirements for these Compound 1080 collars were imposed by an administrative judge in October 1982 and confirmed by the agency in 1983. It ensures the proper use and function of the 1080 collar products, and demonstrates there is no threat of unreasonable harm to non-target animals or people.

Form Numbers: None.

Respondents/affected entities:

Certified pesticide applicators that apply or hold inventory of 1080 collars, and the reporting agencies (state government, NAICS 999200) responsible for implementing and administering a 1080 collar monitoring program.

Respondent's obligation to respond: Mandatory.

Estimated number of respondents: 33 (total).

Frequency of response: Annual.

Total estimated burden: 1,431 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$64,213 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is a decrease of 513 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease reflects voluntary cancellation of the 1080 Livestock Protection Collar registration formerly held by the South Dakota Department of Agriculture and the removal of estimated burden associated with submission of annual Livestock Protection Collar production reports erroneously included in the previous renewal of this ICR. This resulted in a corresponding decrease in the associated burden. This change is an adjustment.

Courtney Kerwin,

Director, Regulatory Support Division.

SUPPLEMENTARY INFORMATION:

Supporting documents for the National Estuary Program ICR (EPA ICR No. 1500.08, OMB Control No. 2040-0138), which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: The National Estuary Program (NEP) involves collecting information from the state or local agency or nongovernmental organizations that receive funds under Sec. 320 of the Clean Water Act (CWA). The regulation requiring this information is found at 40 CFR part 35.

Prospective grant recipients seek funding to develop or oversee and coordinate implementation of Comprehensive Conservation Management Plans (CCMPs) for estuaries of national significance. In order to receive funds, grantees must submit an annual work plan to EPA which are used to track performance of each of the 28 estuary programs currently in the NEP. EPA provides funding to NEPs to support long-term implementation of CCMPs if such programs pass a program evaluation process. The primary purpose of the program evaluation process is to help EPA determine whether the 28 programs

included in the National Estuary Program (NEP) are making adequate progress implementing their CCMPs and therefore merit continued funding under Sec. 320 of the Clean Water Act. EPA also requests that each of the 28 NEPs receiving Sec. 320 funds report information that can be used in the GPRA reporting process. This reporting is done on an annual basis and is used to show environmental results that are being achieved within the overall National Estuary Program. This information is ultimately submitted to Congress along with GPRA information from other EPA programs.

Form Numbers: None.

Respondents/affected entities: Entities potentially affected by this action are those state or local agencies or nongovernmental organizations in the National Estuary Program (NEP) who receive grants under Section 320 of the Clean Water Act.

Respondent's obligation to respond: Required to obtain or retain a benefit (Section 320 of the Clean Water Act).

Estimated number of respondents: 28 (total).

Frequency of response: Annual.

Total estimated burden: 5,600 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$314,138 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an increase of 700 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase is due to the fact that respondents are required to submit program evaluation packages in the next three years and also due to a change in GPRA reporting application platform in FY2016 that require additional effort.

Courtney Kerwin,

Director, Regulatory Support Division.
