

General description of report: The Wall Street Reform and Consumer Protection Act of 2010 (Dodd-Frank Act) requires the Board to disclose, at least every two years, such aggregate or summary information concerning the costs incurred for, and interchange transaction fees received by, issuers with respect to debit card transactions, as the Board considers appropriate or in the public interest. The data from these surveys are used in fulfilling that disclosure requirement. In addition, the Board uses data from the payment card network survey (FR 3064b) to publicly report on an annual basis the extent to which networks have established separate interchange fees for exempt and covered issuers. Finally, the Board uses the data from these surveys in determining whether to propose revisions to the interchange fee standards in Regulation II (12 CFR part 235). The Dodd-Frank Act provides the Board with authority to require debit card issuers and payment card networks to submit information in order to carry out provisions of the Dodd-Frank Act regarding interchange fee standards.

Legal authorization and confidentiality: The FR 3064a and 3064b surveys are authorized by subsection 920(a) of the Electronic Fund Transfer Act, which was amended by section 1075(a) of the Dodd-Frank Act.¹ This statutory provision requires the Board, at least once every two years,² to disclose aggregate or summary information concerning the costs incurred and interchange transaction fees charged or received by issuers or payment card networks in connection with the authorization, clearance or settlement of electronic debit transaction, as the Board considers appropriate and in the public interest.³ It also provides the Board with authority to require issuers and payment card networks to provide information to enable the Board to carry out the provisions of the subsection.⁴ The obligation to respond to these surveys is mandatory.

In accordance with the statutory requirement, the Board will release aggregate or summary information from the survey responses. In addition, the Board will release, at the network level, the percentage of total number of transactions, the percentage of total value of transactions, and the average transaction value for exempt and not-

exempt issuers obtained on the FR 3064b. The Board has determined to release this information both because it can already be determined mathematically based on the information the Board currently releases on average interchange fees and because the Board believes the release of such information may be useful to issuers and merchants in choosing payment card networks in which to participate and to policymakers in assessing the effect of Regulation II on the level of interchange fees received by issuers over time.

However, the remaining individual issuer and payment card information collected on these surveys can be kept confidential under exemption (b)(4) of the Freedom of Information Act (FOIA) because staff has advised that, if released, this information would cause substantial harm to the competitive position of the survey respondents.⁵

Current Actions: The Board proposes to revise the debit card issuer survey (FR 3064a) by deleting questions in which respondents are asked to allocate their costs between fixed costs and variable costs. In addition, the Board proposes to alter the timing of the survey such that, for each data collection, the survey be made available to respondents in mid-January with a filing deadline in mid-April.⁶ This allows respondents a full 90 days to respond to the surveys.

Proposed Revisions to FR 3064a

I. Information for all Debit Card Transactions (including general-use prepaid card transactions): The Board proposes to delete questions 3e and 3f, which break out the fixed and variable cost components for line items 3b.1 In-house costs and 3b.2 Third-party processing fees, respectively.

II. Information for Single-Message (PIN) Debit Card Transactions (excluding general-use prepaid card transactions): The Board proposes to delete questions 3e and 3f, which break out the fixed and variable cost components for line items 3b.1 In-house costs and 3b.2 Third-party processing fees, respectively.

III. Information for Dual-Message (Signature) Debit Card Transactions (excluding general-use prepaid card transactions): The Board proposes to delete questions 3e and 3f, which break out the fixed and variable cost

components for line items 3b.1 In-house costs and 3b.2 Third-party processing fees, respectively.

IV. Information for General-Use Prepaid Card Transactions: The Board proposes to delete questions 3e and 3f, which break out the fixed and variable cost components for line items 3b.1 In-house costs and 3b.2 Third-party processing fees, respectively.

Definitions for variable and fixed costs would remain in the instructions.⁷ The break out of variable and fixed costs was originally included so as to enable the Board to respond to possible outcomes of pending litigation regarding Regulation II. This litigation has been resolved.

The Board also proposes to make several clarifications throughout both surveys.
