

requiring manufacturers, processors and importers to provide production volume, plant site information and site-limited status information. This information allows EPA to identify what chemicals are or are not currently in commerce and to take appropriate regulatory action as necessary. EPA also uses the information for screening chemicals for risks to human health or the environment, for priority-setting efforts, and for exposure estimates. This ICR addresses the collection of inventory-related information.

Responses to the collection of information are mandatory (see 40 CFR part 711). Respondents may claim all or part of a notice confidential. EPA will disclose information that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures in TSCA section 14 and 40 CFR part 2.

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 40.1 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of this estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 4,289.

Frequency of response: Once every 4 years.

Estimated total average number of responses for each respondent: 3.7.

Estimated total annual burden hours: 642,823 hours.

Estimated total annual costs: \$40,796,621. This includes an estimated burden cost of \$40,796,621 and an estimated cost of \$0 for capital investment or maintenance and operational costs.

IV. Are there changes in the estimates from the last approval?

There is a decrease of 16,920 hours (from 659,743 hours to 642,823 hours) in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This decrease reflects EPA's revised estimates to the number of affected sites and the number of responses per site, and adjusting burden estimates to capture burden reductions resulting from experiences with past reporting. The Supporting Statement provides additional detail. This change is an adjustment.

V. What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

SUPPLEMENTARY INFORMATION:

I. Information about Pavillion Ground Water Investigation

Pavillion, Wyoming is located in Fremont County, about 20 miles northwest of Riverton. The concern at the site is potential ground water contamination, based on resident complaints about smells, tastes, and adverse changes in water quality of their domestic wells. In collaboration with ORD, Region 8 has been conducting a ground water investigation. The purpose of this ground water investigation is to better understand the basic ground water hydrology and how the constituents of concern may be occurring in the aquifer. More information is available at <http://www.epa.gov/region8/superfund/wy/pavillion/>.

II. How to Submit Comments to the Docket at <http://www.regulations.gov>

Submit your comments, identified by Docket ID No. EPA-HQ-ORD-2011-0895, by one of the following methods:

Notice of Issuance of Final Outer Continental Shelf Air Permit for Shell Offshore, Inc.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final action.

SUMMARY: This notice is to announce that on November 30, 2011, EPA issued a final Outer Continental Shelf (OCS) air permit for Shell Offshore, Inc. (Shell). This permit became effective on December 30, 2011. The permit will regulate air pollutant emissions from one of three deepwater drilling vessels (the Transocean *Deepwater Nautilus*, the *Noble Bully I* or the *Noble Bully II*) and support vessels to conduct exploratory drilling for up to 150 days per year over five to ten years in multiple locations within Shell's DeSoto Canyon and Lloyd Ridge lease locations on the OCS in the Gulf of Mexico, approximately 160 miles southeast of the mouth of the Mississippi River and greater than 200 miles southwest of Panama City, Florida.

ADDRESSES: The final permit, EPA's response to the public comments, and additional supporting information are available at <http://www.epa.gov/region4/air/permits/OCSPermits/ShellOCS.html>. Copies of the final permit and EPA's response to comments are also available for review at the EPA Regional Office and upon request in writing. EPA requests that you contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to schedule your review of the records. The Regional Office's official hours of business are Monday through Friday, 8:30 to 4:30 excluding federal holidays.

FOR FURTHER INFORMATION CONTACT: Lori Shepherd, Air Permits Section, Air Planning Branch, Air, Pesticides and Toxics Management Division, Region 4, U.S. Environmental Protection Agency, 61 Forsyth Street SW., Atlanta, Georgia 30303-8960. The telephone number is (404) 562-8435. Ms. Shepherd can also be reached via electronic mail at shepherd.lorinda@epa.gov.

SUPPLEMENTARY INFORMATION: On August 19, 2011, the EPA Region 4 Office requested public comments on a proposal to issue an OCS air permit for Shell. During the public comment period, which ended on September 19, 2011, EPA received comments from Shell and from ConocoPhillips Company regarding the project. EPA carefully reviewed each of the
