**ADDRESSES:** The permit and related documents are available for review upon written request or by appointment in the following office(s):

**FOR FURTHER INFORMATION CONTACT:** Tammy Adams or Kristy Beard, (301) 713-2289.

**SUPPLEMENTARY INFORMATION:** On July 13, 2010, notice was published in the **Federal Register** (75 FR 39915) that a request for a permit to conduct research on gray whales (*Eschrichtius robustus*) had been submitted by the above-named applicant. The requested permit has been issued under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

The permit authorizes takes of marine mammals by level B harassment during a study to evaluate the effectiveness of an underwater acoustic deterrent device at diverting gray whales migrating past the coast of central Oregon between January and mid-April away from the sound source. The permit also authorizes incidental level B harassment of harbor porpoise (*Phocoena phocoena*), Southern Resident and West Coast Transient killer whales (*Orcinus*

*orca*), harbor seals (*Phoca vitulina*), California sea lions (*Zalophus californianus*), Eastern Distinct Population Segment Steller sea lions (*Eumetopias jubatus*), and Northern elephant seals (*Mirounga angustirostris*). The permit is valid for five years from the date of issuance.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an environmental assessment (EA) was prepared analyzing the effects of the permitted activities on the human environment. Based on the analyses in the EA, NMFS determined that issuance of the permit would not significantly impact the quality of the human environment and that preparation of an environmental impact statement was not required. That determination is documented in a Finding of No Significant Impact (FONSI), signed on October 29, 2010.

As required by the ESA, issuance of this permit was based on a finding that such permit: (1) Was applied for in good faith; (2) will not operate to the disadvantage of such endangered species; and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: November 2, 2010.
