

FOR FURTHER INFORMATION CONTACT: Jay L. Bruns, Special Negotiator for Conflict Diamonds, Bureau of Economic and Business Affairs, Department of State, (202) 647-2857.

SUPPLEMENTARY INFORMATION: Section 4 of the Clean Diamond Trade Act (the "Act") requires the President to prohibit the importation into, or the exportation from, the United States of any rough diamond, from whatever source, that has not been controlled through the Kimberley Process Certification Scheme (KPCS). Under Section 3(2) of the Act, "controlled through the Kimberley Process Certification Scheme" means an importation from the territory of a Participant or exportation to the territory of a Participant of rough diamonds that is either (i) carried out in accordance with the KPCS, as set forth in regulations promulgated by the President, or (ii) controlled under a system determined by the President to meet substantially the standards, practices, and procedures of the KPCS. The referenced regulations are contained at 31 CFR Part 592 ("Rough Diamond Control Regulations") (68 FR 45777, August 4, 2003).

Section 6(b) of the Act requires the President to publish in the **Federal Register** a list of all Participants, and all Importing and Exporting Authorities of Participants, and to update the list as necessary. Section 2 of Executive Order 13312 of July 29, 2003 delegates this function to the Secretary of State. Section 3(7) of the Act defines "Participant" as a state, customs territory, or regional economic integration organization identified by the Secretary of State. Section 3(3) of the Act defines "Exporting Authority" as one or more entities designated by a Participant from whose territory a shipment of rough diamonds is being exported as having the authority to validate a Kimberley Process Certificate. Section 3(4) of the Act defines "Importing Authority" as one or more entities designated by a Participant into whose territory a shipment of rough diamonds is imported as having the authority to enforce the laws and regulations of the Participant regarding imports, including the verification of the Kimberley Process Certificate accompanying the shipment.

List of Participants

Pursuant to section 3 of the Clean Diamond Trade Act (the Act), section 2 of Executive Order 13312 of July 29, 2003, and Delegation of Authority No. 245 (April 23, 2001), I hereby identify the following entities as of April 20, 2004, as Participants under section 6(b)

of the Act. Included in this List are the Importing and Exporting Authorities for Participants, as required by section 6(b) of the Act. This list revises the previously published list of November 17, 2003 (68 FR 66523-66524, November 26, 2003).

Angola—Ministry of Geology and Mines.
 Armenia—Ministry of Trade and Economic Development.
 Australia—Exporting Authority—Department of Industry, Tourism and Resources; Importing Authority—Australian Customs Service.
 Belarus—Department of Finance.
 Botswana—Ministry of Minerals, Energy and Water Resources.
 Brazil—Ministry of Mines and Energy.
 Bulgaria—Ministry of Finance.
 Canada—Natural Resources Canada.
 Central African Republic—Ministry of Energy and Mining.
 China—General Administration of Quality Supervision, Inspection and Quarantine.
 Democratic Republic of the Congo—Ministry of Mines and Hydrocarbons.
 Republic of the Congo—Ministry of Mines and Geology.
 Croatia—Ministry of Economy.
 Czech Republic—Ministry of Finance.
 European Community—DG/External Relations/A.2.
 Ghana—Precious Minerals and Marketing Company Ltd.
 Guinea—Ministry of Mines and Geology.
 Guyana—Geology and Mines Commission.
 Hungary—Ministry of Economy and Transport.
 India—The Gem and Jewellery Export Promotion Council.
 Israel—The Diamond Controller.
 Ivory Coast—Ministry of Mines and Energy.
 Japan—Ministry of Economy, Trade and Industry.
 Republic of Korea—Ministry of Commerce, Industry and Energy.
 Laos—Ministry of Finance.
 Lesotho—Commissioner of Mines and Geology.
 Malaysia—Ministry of International Trade and Industry.
 Mauritius—Ministry of Commerce.
 Namibia—Ministry of Mines and Energy.
 Poland—Ministry of Economy, Labour and Social Policy.
 Romania—National Authority for Consumer Protection.
 Russia—Gokhran, Ministry of Finance.
 Sierra Leone—Government Gold and Diamond Office.
 Singapore—Singapore Customs.
 Slovenia—Ministry of Finance.

South Africa—South African Diamond Board.
 Sri Lanka—National Gem and Jewellery Authority.
 Switzerland—State Secretariat for Economic Affairs.
 Taiwan—Bureau of Foreign Trade.
 Tanzania—Commissioner for Minerals.
 Thailand—Ministry of Commerce.
 Togo—Ministry of Mines and Geology.
 Ukraine—State Gemological Centre of Ukraine.
 United Arab Emirates—Dubai Metals and Commodities Center.
 United States of America—Importing Authority—United States Bureau of Customs and Border Protection; Exporting Authority—Bureau of the Census.
 Venezuela—Ministry of Energy and Mines.
 Vietnam—Ministry of Trade.
 Zimbabwe—Ministry of Mines and Mining Development.

This notice shall be published in the **Federal Register**.

Richard L. Armitage,

Deputy Secretary of State, Department of State.

BILLING CODE 4710-07-P

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Environmental Impact Statement: Clay and Jackson Counties, Missouri

AGENCY: Federal Highway Administration (FHWA).

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an environmental impact statement (EIS) will be prepared for proposed improvements to Interstates 29 & 35 in Kansas City and North Kansas City, Jackson and Clay Counties, Missouri.

FOR FURTHER INFORMATION CONTACT: Mr. Donald Neumann, Programs Engineer, FHWA Division Office, 209 Adams Street, Jefferson City, MO 65101, Telephone Number 573-636-7104; or Mr. Kevin Keith, Chief Engineer, Missouri Department of Transportation, P.O. Box 270, Jefferson City, MO 65102, Telephone Number 314-751-2803.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the Missouri Department of Transportation (MoDOT), will prepare an EIS on a proposal to reconstruct and widen the I-29/I-35 (U.S. Route 71) facility with new interchange configurations, bridges including the bridge over the Missouri

River, and roadways in Jackson and Clay Counties, Missouri. It is intended that the reconstructed facility will meet current interstate standards. A location study will run concurrently with the preparations of the EIS and will provide definitive reasonable alternatives for evaluation in the EIS.

The proposed action will accomplish several goals: (1) Replace the deteriorating facility and substandard interchanges, (2) improve traffic safety, (3) improve the interstate system linkage across the Missouri River, (4) provide sufficient vehicle capacity to accommodate travel demands, (5) improve traffic operation and decrease congestion, (6) improve access to the CBD and other major activity centers, (7) facilitate the movement of trucks, and (8) enhance the movement of international trade.

The proposed project, which includes the north side of the downtown loop designated as I-35/I-70 (U.S. Routes 24/40), begins at the northwest corner of the downtown freeway loop in the city of Kansas City in Jackson County and continues north on I-29/I-35/US 71 to just north of Missouri Route 210 in Clay County. The project length is 4.7 miles (7.6 kilometers). Known potential impacts include access changes; residential, commercial, and institutional acquisitions/relocations; acquisition of or impacts to National Register of Historic Places—eligible properties including the Paseo Bridge, the Western Union Telegraph Building, and the Old Town and Wholesale Historic Districts; and impacts to parklands including the River Forest Park, Kessler Park, Columbus Park, Margaret Kemp Park, and West Terraces Park, which are eligible for protection under section 4(f) of the Department of Transportation Act of 1966. A Department of the Army Section 404 Permit, a US Coast Guard Bridge Permit, and a floodplain development permit from the State Emergency Management Agency may be required.

Alternatives under consideration include (1) no build, (2) build alternatives, and (3) transportation management options. The 2002 Northland-Downtown Major Investment Study (MIS) recommended widening and upgrading mainline lanes from US 169 to the Downtown Loop to generally provide an eight-lane section with auxiliary lanes as needed, including a new Paseo Bridge. The Kansas City Area Transportation Authority (KCATA) will examine the MIS transit recommendation in a separate environmental document.

To date, substantial preliminary coordination has occurred with local

officials and other interested parties. As part of the scoping process, an interagency coordination meeting will be held with federal, state, and local agencies on May 12, 2004. In addition, public information meetings and further meetings for community officials will be held to solicit public and agency input on the reasonable range of alternatives. A location public hearing will be held to present the findings of the Draft EIS (DEIS). Public notice will be given announcing the time and place of all public meetings and the hearing. The DEIS will be available for public and agency review and comment prior to the public meeting.

To ensure that the full range of issues related to this proposed action are addressed and all significant issues are identified, comments and suggestions are invited from all interested parties. Comments and questions concerning this proposed action and the EIS should be directed to the FHWA or MoDOT at the addresses provided above.

(Catalog of Federal Domestic Assistance Program Number 20.205, Highway Planning and Construction. The regulations implementing Executive Order 122372 regarding intergovernmental consultation on Federal programs and activities apply to this program)

Issued on: April 21, 2004.

Donald L. Neumann,

Programs Engineer, Jefferson City.

BILLING CODE 4910-22-M

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[FR Emergency Order No. 23, Notice No. 1]

Emergency Order To Prohibit the Continued Use of Certain Railroad Tank Cars Equipped With a Truck Bolster Bearing Either Association of American Railroads (AAR) Identification Number B-2410 and National Castings of Mexico (NCM) Pattern Number 52122 or AAR Identification Number B-2409 and NCM Pattern Number 52202

The Federal Railroad Administration (FRA) of the United States Department of Transportation (DOT) has determined that public safety compels the issuance of this Emergency Order directing all persons, including, but not limited to owners, shippers, consignees, and railroads, to discontinue the loading and transportation of any railroad tank car with an original built date of 1995, 1996, 1997, or 1998 and stenciled with DOT specification and the packaging

requirements of the commodity table at 49 CFR 172.101, amplified in Part 173 identifying it as capable of transporting hazardous material; that is equipped with a truck bolster bearing either (1) AAR Identification Number B-2410 and NCM Pattern Number 52122 or (2) AAR Identification Number B-2409 and NCM Pattern Number 52202, until each of the described bolsters is removed from the car and replaced with a bolster of suitable design and manufacture.

Authority

Authority to enforce the Federal railroad safety laws has been delegated by the Secretary of Transportation to the Federal Railroad Administrator. 49 CFR 1.49. The laws apply to all railroads (except self-contained urban rapid transit) and convey on FRA the authority to issue rules and orders covering every area of railroad safety. 49 U.S.C. 20102 and 20103. FRA is authorized to issue emergency orders where "an unsafe condition or practice * * * causes an emergency situation involving a hazard of death or personal injury." 49 U.S.C. 20104. These orders may impose such "restrictions and prohibitions * * * that may be necessary to abate the situation." (*Id.*) Any person who violates such an order is subject to civil penalties (49 U.S.C. 21301) and injunctive relief (49 U.S.C. 20112). FRA also enforces the hazardous materials transportation laws. 49 U.S.C. 5101 *et seq.*; 49 CFR 1.49.

Background

On December 24, 2002, FRA issued Safety Advisory 2002-03, which identified a problem with potentially defective NCM truck bolsters bearing both AAR Identification Number B-2410 and NCM Pattern Number 52122, which are used in 263,000-pound and 286,000-pound gross rail load freight cars. See 67 FR 79686-87 (December 30, 2002). In that advisory, FRA referenced AAR Maintenance Advisory MA-81 and AAR Early Warning Letters EW-5191, EW-5191-S1, and EW-5191-S2 indicating that there were as many as 15,000 freight cars in revenue service that may be equipped with the NCM bolsters.

Subsequent to the publication of the Safety Advisory, FRA was made aware of second series of bolsters, bearing both AAR Identification Number B-2409 and NCM Pattern Number 52202, which pose a similar safety hazard. The NCM bolsters with NCM Pattern Number 52202 were also referenced in AAR Early Warning Letters EW-5194, EW-5195, EW-5196, and EW-5197.

During March 2003, the AAR conducted fatigue testing under AAR
