BILLING CODE 6712-01-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 300

[I.D. 121800E]

Pacific Tuna Fisheries; Public Hearing

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public hearing.

SUMMARY: On March 30, 2001, NMFS published a proposed rule under the authority of the Tuna Conventions Act of 1949 (Act). NMFS indicated in the proposed rule that a public hearing would be held to obtain public comment on the proposed rule. This notice announces the place, date, and time of the hearing. In addition to holding the hearing, NMFS is accepting written comments on the proposed rule.

DATES: The public hearing will be held on April 27, 2001, at 9 a.m. Written comments will be accepted through April 30, 2001.

ADDRESSES: The public hearing will be held at the Embassy Suites Hotel, 601 Pacific Highway, San Diego, CA 92101; telephone: 619-239-2400; fax: 619-239-1520. Written comments should be sent to Svein Fougner, Southwest Region, NMFS, 501 W. Ocean Boulevard, Suite 4200, Long Beach, CA 90802, or faxed to 562-980-4047. Comments will not be accepted if submitted via e-mail or the Internet.

FOR FURTHER INFORMATION CONTACT: Svein Fougner, (562) 980-4040.

SUPPLEMENTARY INFORMATION: On March 30, 2001, NMFS published a proposed rule (66 FR 17387) to implement two recommendations that were agreed to by the Inter-American Tropical Tuna Commission (IATTC) and approved by the Department of State in accordance with the Act. The first recommendation would establish measures implementing a 1-year pilot program to reduce bycatch in the tuna purse seine fisheries conducted by vessels from members of the IATTC. The second would require commercial fishermen who fish in the Convention Area (set forth at 50 CFR part 300, subpart C) to report certain

information about their vessels for a regional vessel register being developed by the IATTC. Under the Act, a public hearing must be held before implementing IATTC recommendations.

Special Accommodations

Requests for sign language interpretation or other auxiliary aids should be directed to Svein Fougner (see **ADDRESSES**), 562-980-4040 (voice) or 562-980-4047 (facsimile), at least 5 days prior to the hearing date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: April 13, 2001.

Bruce C. Morehead,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22 -S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 622

[I.D. 040501C]

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Reef Fish Fishery of the Gulf of Mexico; Red Snapper

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of receipt of petition for emergency rulemaking and request for comments.

SUMMARY: NOAA announces receipt of a petition for emergency rulemaking or fishery management plan action under the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) and the Administrative Procedure Act. The Texas Shrimp Association (TSA) has petitioned the U.S. Department of Commerce to promulgate an emergency rule to reduce the 2001 total allowable catch (TAC) in the directed commercial and recreational fisheries for red snapper in the Gulf of Mexico from 9.12 million lb (4.14 million kg) to not more than 3 million lb (1.36 million kg). Also, the TSA petition requests that the emergency action shorten the recreational fishing season as part of the TAC reduction effort.

DATES: Comments will be accepted through May 21, 2001.

ADDRESSES: Copies of the petition are available, and written comments on the need for such a regulation, its

objectives, alternative approaches, and any other comments may be addressed to Phil Steele, Southeast Regional Office, NMFS, 9721 Executive Center Drive N., St. Petersburg, FL 33702; telephone 727-570-5305. Comments may also be sent via fax to 727-570-5583. Comments will not be accepted if submitted via e-mail or Internet.

FOR FURTHER INFORMATION CONTACT: Phil Steele, telephone 727-570-5305, fax 727-570-5583, e-mail Phil.steele@noaa.gov.

SUPPLEMENTARY INFORMATION: The petition filed by TSA maintains that overfishing has been occurring in the Gulf of Mexico red snapper fishery and will occur again in 2001, thereby necessitating emergency rulemaking to reduce the 2001 TAC for the directed fisheries. Included in the requested emergency action for TAC reduction is a request to shorten the recreational fishing season (currently April 21–October 31, 2001).

The TSA petition states that the following are causes of previous and continuing overfishing: (1) TSA asserts that the current definition of “optimum yield” (OY) in the Fishery Management Plan for the Reef Fish Resources of the Gulf of Mexico does not conform to the more rigorous definition of OY required by the Sustainable Fisheries Act of 1996, which amended the Magnuson-Stevens Act; (2) TSA asserts that NMFS’ scientific studies indicate that bycatch reduction devices required in shrimp trawls in the exclusive economic zone of the Gulf of Mexico west of Cape San Blas, Florida, have reduced juvenile red snapper mortality by 40 percent or less instead of the 50 to 60 percent reduction necessary as a basis for the present 9.12-million-lb (4.14-million kg) TAC. Further, TSA asserts that NMFS and the Gulf of Mexico Fishery Management Council (Council) have greatly exaggerated the importance (positive impact) of bycatch reduction for rebuilding the red snapper stock; (3) TSA asserts that recent scientific information presented to the Council’s Scientific Advisory Committee indicates that the overfished condition of the red snapper fishery is a result of excessive fishing pressure by the directed fisheries, in particular the recreational sector of the fishery, and not because of bycatch mortality associated with shrimp harvest; (4) TSA states that the recreational sector of the directed fishery continues to exceed its annual quota under the present season opening and closing dates; (5) TSA states that NMFS is significantly underestimating fishing effort in the recreational sector, which allows that sector to harvest red

snapper in excess of its share of the TAC; and (6) TSA asserts that NMFS has failed to make a reduction in the recreational sector's share of the TAC to account for these excessive harvests.

NMFS will consider public comments received in determining whether or not to proceed with the development of the emergency regulations requested by TSA. Upon determining whether or not to initiate the requested rulemaking, the Assistant Administrator for Fisheries, NOAA, will publish a notice of the agency's final disposition of the TSA petition request in the **Federal Register**.

Dated: April 13, 2001.

Bruce C. Morehead,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

50 CFR Part 648

[I.D. 041001A]

New England Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Public meeting.

SUMMARY: The New England Fishery Management Council (Council) will hold a 2-day Council meeting, on May 2 and May 3, 2001, to consider actions affecting New England fisheries in the exclusive economic zone (EEZ).

DATES: The meeting will be held on Wednesday and Thursday, May 2 and 3, at 9 a.m. and 8:30 a.m., respectively.

ADDRESSES: The meeting will be held at the Holiday Inn, 1 Newbury Street, Route 1 North, Peabody, MA 01960; telephone (978) 535-4600. Requests for special accommodations should be addressed to the New England Fishery Management Council, 50 Water Street,

Mill 2, Newburyport, MA 01950; telephone (978) 465-0492.

FOR FURTHER INFORMATION CONTACT: Paul J. Howard, Executive Director, New England Fishery Management Council (978) 465-0492.

SUPPLEMENTARY INFORMATION:

Wednesday, May 2, 2001

After introductions, the Council will receive reports on recent activities from the Council Chairman, Executive Director, the NMFS Regional Administrator, Northeast Fisheries Science Center and Mid-Atlantic Fishery Management Council liaisons, NOAA General Counsel and representatives of the U.S. Coast Guard, NMFS Enforcement and the Atlantic States Marine Fisheries Commission. An expanded enforcement briefing will be provided by the U.S. Coast Guard. NMFS also will report to the Council about funds dispersed through the Northeast Marine Fisheries Initiative. These reports will be followed by a NMFS presentation on the status of the North Atlantic right whale. During the afternoon session, the Council staff will present issues and options under consideration by the Herring Committee for a limited entry/controlled access system for Area 1A (inshore Gulf of Maine) as described in the Atlantic Herring Fishery Management Plan (FMP). The Red Crab Committee will request approval of management measures to be analyzed in the Draft Environmental Impact Statement for the Red Crab FMP.

Thursday, May 3, 2001

The Council's Skate Committee will request approval of goals and objectives for the Northeast Skate Complex FMP. The Council will spend the rest of the day addressing groundfish issues. The Groundfish Committee will ask the Council for approval of draft management measures to be analyzed in the Draft Supplemental Environmental Impact Statement for Amendment 13 to the Northeast Multispecies FMP. Measures under consideration include: (1) habitat-related alternatives (methods to designate Essential Fish Habitat, Habitat Areas of Particular Concern

designations, and measures to minimize adverse impacts associated with fishing activities); (2) refinement of status quo measures using existing management tools; (3) an area-based regime using area specific measures that may include measures to address unused days-at-sea; and (4) the allocation of resources to different industry sectors that may include measures to address unused days-at-sea. The Council meeting will adjourn after addressing any other outstanding business.

Although other non-emergency issues not contained in this agenda may come before this Council for discussion, those issues may not be the subjects of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notification that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided that the public has been notified of the Council's intent to take final action to address the emergency.

The Council will consider public comments at a minimum of two Council meetings before making recommendations to the NMFS Regional Administrator on any framework adjustment to a fishery management plan. If she concurs with the adjustment proposed by the Council, the Regional Administrator has the discretion to publish the action either as proposed or final regulations in the **Federal Register**. Documents pertaining to framework adjustments are available for public review 7 days prior to a final vote by the Council.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Paul J. Howard (see **ADDRESSES**) at least 5 days prior to the meeting date.

Dated: April 12, 2001.

Bruce C. Morehead,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
