

On June 8, 2020, the National Bureau of Economic Research published a report by its Business Cycle Dating Committee, <https://www.nber.org/cycles/june2020.html>, in which it determined that a peak in monthly economic activity occurred in the U.S. economy in February 2020, and that this peak marked the end of the expansion that began in June 2009 and the beginning of a recession. The report noted that the usual definition of a recession involves a decline in economic activity that lasts more than a few months but recognized that the pandemic and the public health response have resulted in a downturn with different characteristics and dynamics than prior recessions. The report concluded that “the unprecedented magnitude of the decline in employment and production, and its broad reach across the entire economy, warrants the designation of this episode as a recession, even if it turns out to be briefer than earlier contractions.”

Based on the National Bureau of Economic Research’s determination, SBA is announcing in accordance with 13 CFR 120.882(g)(5) that, beginning with applications submitted on or after publication of this Notice, Borrowers may contribute not less than 10% of the costs for Refinancing Without Expansion Projects involving limited or special purpose buildings or structures. This lower percentage for the Borrower’s contribution will remain in effect until the first day of the calendar quarter following the end of the economic recession as determined by the National Bureau of Economic Research or its equivalent. SBA will publish a notice in the **Federal Register** announcing the date on which the requirement of the lower Borrower contribution ended.

Authority: 15 U.S.C. 696; 13 CFR 120.882.

Jovita Carranza,
Administrator.
