DEPARTMENT OF ENERGY

Environmental Management Advisory Board

AGENCY: Department of Energy. **ACTION:** Notice of Open Teleconference.

SUMMARY: This notice announces a teleconference of the Environmental Management Advisory Board (EMAB). The Federal Advisory Committee Act (Pub. L. No. 92–463, 86 Stat. 770) requires that public notice of this teleconference be announced in the **Federal Register**.

DATES: Wednesday, November 17, 2010, 3 p.m.-4:30 p.m.

FOR FURTHER INFORMATION CONTACT: Terri Lamb, Designated Federal Officer,

EMAB (EM–42), U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585. Phone (202) 586–9007; fax (202) 586–0293 or email: *terri.lamb@em.doe.gov*.

SUPPLEMENTARY INFORMATION:

Purpose of the Board: The purpose of EMAB is to provide the Assistant Secretary for Environmental Management (EM) with advice and recommendations on corporate issues confronting the EM program. EMAB will contribute to the effective operation of the program by providing individual citizens and representatives of interested groups an opportunity to present their views on issues facing EM and by helping to secure consensus recommendations on those issues.

Tentative Agenda: The main meeting topic will be a discussion of EM's response to the September 2010 EMAB Acquisition and Project Management Subcommittee report and recommendations.

Public Participation: The teleconference is open to the public. Written statements may be filed with the Board either before or after the meeting. Individuals who wish to make oral statements pertaining to the agenda should contact Terri Lamb at the address or telephone number listed above. Requests must be received five days prior to the teleconference and reasonable provision will be made to include the presentation in the agenda. The Designated Federal Officer is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business. Individuals wishing to make public comments will be provided a maximum of five minutes to present their comments.

Minutes: Minutes will be available by writing or calling Terri Lamb at the address or phone number listed above. Minutes will also be available at the following Web site *http://*

www.em.doe.gov/stakepages/ emabmeetings.aspx.

Issued at Washington, DC on October 28, 2010.

Rachel Samuel,

Deputy Committee Management Officer. [FR Doc. 2010–27623 Filed 11–1–10; 8:45 am] BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

Nuclear Energy Advisory Committee

AGENCY: Office of Nuclear Energy, Department of Energy. **ACTION:** Notice of open meeting.

SUMMARY: This notice announces a meeting of the Nuclear Energy Advisory Committee (NEAC). The Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat. 770) requires that public notice of these meetings be announced in the **Federal Register**.

DATES: Thursday, December 9, 2010; 8:30 a.m.-4:30 p.m.

ADDRESSES: L'Enfant Plaza Hotel, 480 L'Enfant Plaza, SW., Washington, DC 20024.

FOR FURTHER INFORMATION CONTACT:

Kenneth Chuck Wade, Designated Federal Officer, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585; telephone (301) 903–6509; e-mail Kenneth.wade@nuclear.energy.gov.

SUPPLEMENTARY INFORMATION:

Background: The Nuclear Energy Advisory Committee (NEAC), formerly the Nuclear Energy Research Advisory Committee (NERAC), was established in 1998 by the U.S. Department of Energy (DOE) to provide advice on complex scientific, technical, and policy issues that arise in the planning, managing, and implementation of DOE's civilian nuclear energy research programs. The committee is composed of 16 individuals of diverse backgrounds selected for their technical expertise and experience, established records of distinguished professional service, and their knowledge of issues that pertain to nuclear energy.

Purpose of the Meeting: To inform the committee of recent developments and current status of research programs and projects pursued by the Department of Energy's Office of Nuclear Energy and receive advice and comments in return from the committee.

Tentative Agenda: The meeting is expected to include presentations that cover such topics as the Office of Advanced Reactor Concept's Small Modular Reactor program and presentations by four NEAC subcommittees. The Fuel Cycle Research and Development subcommittee and the Facilities subcommittee will present reports to the full committee. The International and the Nuclear Reactor Technology subcommittees will present a status of their current work. The agenda may change to accommodate committee business. For updates, one is directed to the NEAC Web site: http:// www.ne.doe.gov/neac/ neNeacMeetings.html.

Public Participation: Individuals and representatives of organizations who would like to offer comments and suggestions may do so on the day of the meeting, Thursday, December 9, 2010. Approximately thirty minutes will be reserved for public comments. Time allotted per speaker will depend on the number who wish to speak but is not expected to exceed 5 minutes. Anyone who is not able to make the meeting or has had insufficient time to address the committee is invited to send a written statement to Kenneth Chuck Wade, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585, or e-mail Kenneth.wade@nuclear.energy.gov.

Minutes: The minutes of the meeting will be available by contacting Mr. Wade at the address above or on the Department of Energy, Office of Nuclear Energy Web site at http:// www.ne.doe.gov/neac/ neNeacMeetings.html.

Issued in Washington, DC, on October 28, 2010.

Rachel Samuel,

Deputy Committee Management Officer. [FR Doc. 2010–27624 Filed 11–1–10; 8:45 am] BILLING CODE 6450–01–P

Federal Energy Regulatory Commission

[Docket No. CP11-12-000]

ANR Pipeline Company; Notice of Application

October 26, 2010.

Take notice that on October 18, 2010, ANR Pipeline Company (ANR), 717 Texas Street, Houston, Texas 77002– 2761, filed with the Commission an application under section 7(b) of the Natural Gas Act (NGA) for authorization to abandon by sale to Apache Corporation (Apache) approximately 4.07 miles of 10-inch diameter pipeline, 0.2 miles of 8-inch diameter pipeline, and related appurtenances located in federal waters offshore Louisiana in the Gulf of Mexico. ANR also requests a determination that upon abandonment, Apache's ownership and operation of the subject facilities will be exempt from the Commission's jurisdiction under section 1(b) of the NGA, all as more fully set forth in the application which is on file with the Commission and open to public inspection. This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at http:// www.ferc.gov using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (886) 208–3676 or TYY, (202) 502-8659.

Any questions regarding the petition should be directed to Rene Staeb, ANR Pipeline Company, 717 Texas Street, Houston, Texas 77002–2761, by telephone at (832) 320–5215, by facsimile at (832) 320–6215, or by e-mail at *rene staeb@transcanada.com*.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit seven copies of filings made in the proceeding with the Commission and must mail a copy to the applicant and to every other party. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at *http://www.ferc.gov*. Persons unable to file electronically should submit an original and seven copies of the protest or intervention to the Federal Energy regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at *http://www.ferc.gov*, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail *FERCOnlineSupport@ferc.gov*, or call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

Comment Date: November 16, 2010.

Kimberly D. Bose,

Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP11-10-000]

Liberty Natural Gas, LLC; Notice of Application

October 26, 2010.

On October 14, 2010, Liberty Natural Gas, LLC (Liberty) filed with the Federal **Energy Regulatory Commission** (Commission) an application under section 7 of the Natural Gas Act and section 157 of the Commission's Regulations requesting: (1) A certificate of public convenience and necessity to construct and operate a 9.2-mile natural gas pipeline and ancillary facilities (Onshore Pipeline); (2) a blanket certificate to perform routine activities and operations; (3) authorization to operate on a sole-use, proprietary basis; and, (4) a waiver of certain Commission Regulations, all as more fully detailed in the application which is on file with the Commission and open to public inspection.

The Onshore Pipeline will extend from the high water mark on the shoreline in Amboy, Middlesex County, New Jersey to Linden, in Union County, New Jersey, interconnections with the interstate pipeline systems of Texas Eastern Transmission, L.P. and Transcontinental Gas Pipeline Company. It is designed to transport up to 2.4 billion cubic feet per day of natural gas to serve markets in New Jersey, New York, and surrounding areas.

The Onshore Pipeline is a part of the Liberty Natural Gas Project, which will include a deepwater port (Port), located approximately 16.2 miles offshore along the New Jersey coastline. The Port, which will remain fully submerged when not in use, will be served by LNG Regasification Vessels that will transport natural gas from sources around the world in a liquid state (LNG) and will regasify the LNG onboard when they reach the Port. The regasified natural gas will then be transported through the proposed Port and a submerged pipeline to the Onshore Pipeline. In conjunction with this Application, Liberty is also filing an application for a license to own, construct, and operate its Port and submerged pipeline with the Maritime Administration and the United States Coast Guard pursuant to the Deepwater Port Act of 1974, 33 U.S.C. 1501, et seq., as amended.

Questions concerning this application may be directed to Jason Goldstein, Liberty Natural Gas, LLC, 15 Exchange
