DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP04-60-000]

Tennessee Gas Pipeline Company; Notice of Technical Conference

April 12, 2004.

On January 30, 2004, Tennessee Gas Pipeline Company (Tennessee) filed a request pursuant to §§ 157.205, 157.208 and 157.211 of the Federal Energy Regulatory Commission's (Commission) regulations under the Natural Gas Act (NGA), for authorization to construct a lateral pipeline and delivery point to facilitate gas transportation services to a new delivery point in Massachusetts under Tennessee's blanket certificate issued in Docket No. CP82-413-000. Commission staff protested the application, objecting to Tennessee's rate proposal. The purpose of the conference is to discuss the Commission staff's protest, the nature of Tennessee's proposal and the underlying business transaction.

Take notice that a technical conference to discuss the various issues mentioned above will take place on April 22, 2004, at 10 a.m. at the Commission's offices at 888 First Street NE., Washington, DC 20426.

Any parties to this proceeding who have questions about, or plan to attend the technical conference should contact Todd Ruhkamp at (202) 502-6812 or William Zoller at (202) 502-8191.

ENVIRONMENTAL PROTECTION AGENCY

[UST-2004-0001, FRL-7649-4]

Agency Information Collection Activities: Proposed Collection; Comment Request; Underground Storage Tanks: Technical and Financial Requirements, and State Program Approval Procedures, EPA ICR Number 1360.07, OMB Control Number 2050-0068

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that EPA is planning to submit a continuing Information Collection Request (ICR) to the Office of Management and Budget (OMB). This is a request to renew an existing approved collection which is scheduled to expire on October 31, 2004. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection as described below.

DATES: Comments must be submitted on or before June 18, 2004.

ADDRESSES: Submit your comments, referencing docket ID number UST-2004-0001 to EPA online using EDOCKET (our preferred method), by e-mail to rcra-docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Underground Storage Tank (UST) Docket, Mail Code 5305T, 1200 Pennsylvania Ave., NW., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: Sammy Ng, Office of Underground Storage Tanks, Mail Code 5401G, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: (703) 603-9900; fax number: (703) 603-0175; e-mail address: ng.sammy@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has established a public docket for this ICR under Docket ID number UST-2004-0001 which is available for public viewing at the UST Docket in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the UST Docket is (202) 566-0270. An electronic version of the public docket is available

through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to obtain a copy of the draft collection of information, submit or view public comments, access the index listing of the contents of the public docket, and access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA within 60 days of this notice. EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI or whose disclosure is otherwise restricted by statute is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 *FR* 38102 (May 31, 2002), or go to <http://www.epa.gov/edocket>.

Affected entities: Entities potentially affected by this action are those facilities that own and operate underground storage tanks (USTs) and those States that implement the UST programs.

Title: "Underground Storage Tanks: Technical and Financial Requirements, and State Program Approval Procedures."

Abstract: Subtitle I of the Resource Conservation and Recovery Act (RCRA), as amended, requires that EPA develop standards for UST systems, as may be necessary, to protect human health and the environment, and procedures for approving State programs in lieu of the Federal program. EPA promulgated technical and financial requirements for owners and operators of USTs at 40 CFR part 280, and State program approval procedures at 40 CFR part 281. This ICR is a comprehensive presentation of all information collection requirements contained at 40 CFR parts 280 and 281.

The data collected for new and existing UST system operations and financial requirements are used by

owners and operators and/or EPA or the implementing agency to monitor results of testing, inspections, and operation of UST systems, as well as to demonstrate compliance with regulations. EPA believes strongly that if the minimum requirements specified under the regulations are not met, neither the facilities nor EPA can ensure that UST systems are being managed in a manner protective of human health and the environment.

EPA uses State program applications to determine whether to approve a State program. Before granting approval, EPA must determine that programs will be no less stringent than the Federal program and contain adequate enforcement mechanisms.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) enhance the quality, utility, and clarity of the information to be collected; and

(iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement: EPA estimates the total annual respondent burden for all activities covered in this proposed ICR to be 6,814,362 hours. The total annual respondent cost burden is estimated to be \$713,330,054 (\$369,823,007 in labor costs; \$80,250,656 in capital/startup costs; and \$263,256,390 in operation and maintenance costs). The Agency estimates the average total annual number of respondents will be 254,668 (i.e., 254,666 UST facilities and two States) and the frequency of their response will depend upon the individual reporting and recordkeeping requirements.

Based on this analysis, the public reporting burden for UST facilities is estimated to average 15 hours per

respondent per year. This estimate includes time for preparing and submitting notices, preparing and submitting demonstrations and applications, reporting releases, gathering information, and preparing and submitting reports. The recordkeeping burden for UST facilities is estimated to average 12 hours per respondent per year. This estimate includes time for gathering information and for developing and maintaining records.

For States applying for program approval, the reporting burden is estimated to average 13 hours per respondent per year. This estimate includes time for preparing and submitting an application and associated information. The recordkeeping burden is estimated to average 15 hours per respondent per year. This estimate includes time for maintaining application files.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Dated: April 6, 2004.

Cliff Rothenstein,

Director, Office of Underground Storage Tanks.

Lead-Based Paint Pre-Renovation Information Dissemination - TSCA Section 406(b); Request for Comment on Renewal of Information Collection Activities

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA) (44

U.S.C. 3501 *et seq.*), EPA is seeking public comment and information on the following Information Collection Request (ICR): Lead-Based Paint Pre-Renovation Information Dissemination - Toxic Substances Control Act (TSCA) Section 406(b) (EPA ICR No. 1669.04, OMB Control No. 2070-0158). This ICR involves a collection activity that is currently approved and scheduled to expire on December 31, 2004. The information collected under this ICR relates to requirements that persons who perform housing renovations provide certain information on any lead hazards created by the renovation to the owner and occupant of such housing prior to beginning renovation, thereby protecting public health and the environment. The ICR describes the nature of the information collection activity and its expected burden and costs. Before submitting this ICR to the Office of Management and Budget (OMB) for review and approval under the PRA, EPA is soliciting comments on specific aspects of the collection.

DATES: Written comments, identified by the docket ID number OPPT-2004-0082, must be received on or before June 18, 2004.

ADDRESSES: Comments may be submitted electronically, by mail, or through hand delivery/courier. Follow the detailed instructions as provided in Unit I. of the **SUPPLEMENTARY INFORMATION**.
