

Wildlife observation, photography, and environmental education and interpretation would continue to focus on a natural and primitive process, with a discontinuation of vehicle tours.

We would continue to maintain and build relations with partners, volunteers, and the friends group as they relate to managing the resource, supporting the strategic habitat conservation (SHC) initiative, and the landscape conservation cooperative (LCC). There would continue to be a need for research and studies on the refuge to gain a better understanding of the resource and the changes resulting from environmental and human events.

We would staff the refuge at current levels, plus add an assistant manager, a wildlife biologist, a maintenance worker, and a wildlife officer.

Alternative C: Focus on Native and Imperiled Species (Proposed Alternative)

This alternative expands on Alternative A, with an increased effort to manage and protect the refuge's native and imperiled species. Under this alternative, we would continue to survey and monitor species of Federal responsibility, such as threatened and endangered species and migratory birds, and key native species. We would also gain a better understanding of native species. Additional efforts would be made to protect and support nesting opportunities for key species, as well as gain a better understanding of population dynamics of some species. There would be evaluations to determine if it is suitable to reestablish populations of the eastern indigo snake, gopher tortoise, and eastern wild turkey.

We would continue to manage lakes 1, 2, and 3 by seasonal draw-downs to support the needs of shorebirds and wading birds. Lakes 4 and 5 would continue to support deep water for a freshwater fisheries program, with occasional draw-down to manage the vegetation within the system. Since the purchase of the refuge, there has been minimal emphasis on timber conditions, so a forest habitat assessment would be conducted. The management of exotic, invasive, and nuisance animals and plants would be a focus, with emphasis on aggressively eradicating feral hogs.

Wildlife-dependent recreational uses would be expanded. The hunt program would consist of white-tailed deer, raccoon, and sambar deer. Fishing would consist of saltwater and freshwater opportunities. Wildlife observation, wildlife photography, and environmental education and interpretation would be enhanced to focus on imperiled species and the

unique barrier island history and ecosystem as they relate to the coastal environment. We would enhance the environmental education program to incorporate Florida Sunshine Standards, while establishing guidelines for public programs. Vehicle tours that meet management objectives would continue as long as we have sufficient staff to support the program. The refuge would be staffed at current levels, in addition to an assistant manager, a wildlife biologist, a maintenance worker, a wildlife officer, a visitor services specialist, and a boat operator. Under this alternative, we would hire a wildlife biologist student through the Student Career Experience Program, continue the Youth Conservation Corps Program, and explore opportunities to work with students through the Student Conservation Association and AmeriCorps programs. Even with the increased staff, we would continue to expand our volunteer program and build stronger relations with the friends group and partners to manage our resources, supporting the SHC initiative and the LCC. As climate change affects the refuge, increased research and studies would need to be conducted on species and habitats, to support the best management decisions through adaptive management.

Renewal of Approved Information Collection

AGENCY: Bureau of Land Management, Interior.

ACTION: 30-Day Notice and Request for Comments.

SUMMARY: The Bureau of Land Management (BLM) has submitted an information collection request to the Office of Management and Budget (OMB) to continue the collection of information from those who wish to assign record title or transfer operating rights in a lease for oil and gas or geothermal resources. The Office of Management and Budget (OMB) previously approved this information collection activity, and assigned it control number 1004-0034.

DATES: The OMB is required to respond to this information collection request within 60 days but may respond after 30 days. For maximum consideration, written comments should be received on or before June 1, 2012.

ADDRESSES: Please submit comments directly to the Desk Officer for the Department of the Interior (OMB #1004-0034), Office of Management and Budget, Office of Information and Regulatory Affairs, fax 202-395-5806, or by electronic mail at oir_docket@omb.eop.gov. Please provide a copy of your comments to the BLM. You may do so via mail, fax, or electronic mail.

Mail: U.S. Department of the Interior, Bureau of Land Management, 1849 C Street NW., Room 2134LM, Attention: Jean Sonneman, Washington, DC 20240.

Fax: to Jean Sonneman at 202-245-0050.

Persons who use a telecommunication device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, to leave a message for Ms. Gamble. You may also review the information collection request online at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: The Paperwork Reduction Act (44 U.S.C. 3501-3521) and OMB regulations at 5

CFR part 1320 provide that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond. In order to obtain and renew an OMB control number, Federal agencies are required to seek public comment on information collection and recordkeeping activities (see 5 CFR 1320.8(d) and 1320.12(a)).

As required at 5 CFR 1320.8(d), the BLM published a 60-day notice in the **Federal Register** on January 24, 2012 (77 FR 3496), and the comment period ended March 26, 2012. The BLM received no comments. The BLM now requests comments on the following subjects:

1. Whether the collection of information is necessary for the proper functioning of the BLM, including whether the information will have practical utility;
2. The accuracy of the BLM's estimate of the burden of collecting the information, including the validity of the methodology and assumptions used;
3. The quality, utility and clarity of the information to be collected; and
4. How to minimize the information collection burden on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other forms of information technology.

Please send comments as directed under **ADDRESSES** and **DATES**. Please refer to OMB control number 1004-0034 in your correspondence. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

The following information is provided for the information collection:

Title: Oil, Gas, and Geothermal Resources: Transfers and Assignments (43 CFR Subparts 3106, 3135, and 3216).
Forms:

- Form 3000-3, Assignment of Record Title Interest in a Lease for Oil and Gas or Geothermal Resources; and
- Form 3000-3a, Transfer of Operating Rights (Sublease) in a Lease for Oil and Gas or Geothermal Resources.

OMB Control Number: 1004-0034.

Abstract: The information collected in Form 3000-3 enables the BLM to

process applications to transfer interests in oil and gas or geothermal leases by assignment of record title. The information collected in Form 3000-3a enables the BLM to process applications to transfer operating rights in (i.e., sublease) oil and gas or geothermal leases. The information in both forms enables the BLM to identify the interest that is proposed to be assigned or transferred; determine whether the proposed assignee or transferee is qualified to obtain the interest sought; and ensure that the proposed assignee or transferee does not exceed statutory acreage limitations.

Frequency of Collection: On occasion. Responses are required to obtain or retain a benefit.

Estimated Number and Description of Respondents: 10,933 applicants who wish to assign record title or transfer operating rights in a lease for oil and gas or geothermal resources.

Estimated Reporting and Recordkeeping "Hour" Burden: 5,467 hours.

Estimated Reporting and Recordkeeping "Non-Hour Cost" Burden: \$929,305.
