SUPPLEMENTARY INFORMATION:

Meeting Dates and Agendas

Tuesday, January 8, 2002 at 9:30 a.m.—Enforcement Committee and Advisory Panel Meeting.

The Advisors will develop recommendations on the final management measures for consideration by the Council's Red Crab Committee. Issues to be discussed include: qualification criteria for a controlled access program for the directed red crab fishery; a potential days-at-sea program for the directed fishery; a potential trip limit for the directed fishery; the establishment of the fishing year for management purposes; and other potential management measures to be implemented in the FMP.

The Committee will review the analysis of options under consideration in Framework 1 to the Monkfish FMP, and make a recommendation to the Council for measures to be submitted to NMFS for the fishing year starting May 1, 2002. Framework 1 contains alternatives to the default measures for Year 4 of the rebuilding program contained in the FMP. Those default

measures would eliminate the directed monkfish fishery. The Council is considering various alternative measures based on trip limit and Days-at-Sea (DAS) adjustments to either achieve the same landings as in Year 2 (fishing year 2000-01), the preferred alternative, or achieve the Year 2 and 3 total allowable catch targets (TACs), the non-preferred alternative. Time permitting, the Committee will take public scoping comments on Amendment 2 to the Monkfish FMP.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting.
