SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: DoD Cyber Scholarship Program; OMB Control Number 0704-0486.

Needs and Uses: DoD Cyber Scholarship Program (CySP), authorized by 10 U.S.C. 2200 is designed to: Increase the number of new entrants to DoD who possess key Information Assurance (IA) and Information Technology (IT) skill sets; and serve as a tool to develop and retain well-educated military and civilian personnel who support the Department's critical IT management and infrastructure protection functions. The DoD CySP recruitment track is for college students who, upon completion of the program, will work for the DoD. Pending availability of funds, the DoD CySP may also award capacity-building grants to colleges and universities designated as National Centers of Academic Excellence in Cybersecurity, (NCAE-Cs) for such purposes as developing cyber curricula and faculty,

and building cyber laboratories. The recruitment track and institutional capacity-building grant programs both require a competitive application process. Recruitment scholarship applicants submit written documentation detailing their credentials. NCAE-Cs interested in applying for capacity-building grants must complete and submit a written proposal, and all NCAE-Cs receiving grants must provide documentation detailing the use of grant funding and the outcomes of the capacity-building initiative. DoD requires this information collection to measure the performance of the capacity-building components of the DoD CySP. DoD uses the information collected in the scholarship application process to assess the quality of applicants selected for inclusion in the DoD CySP. Without this written documentation detailing scholarship applicants' credentials, grant proposals, and grant execution accomplishments, the DoD has no means of judging the quality of applicants to the program or collecting information regarding program performance.
