

Commerce issued a memorandum via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (*i.e.*, ACCESS) notifying interested parties that Commerce was extending the deadline to submit certifications for entries of certain aluminum foil exported from Korea or Thailand that was entered, or withdrawn from warehouse, for consumption on or after July 18, 2022, through March 22, 2023, by 75 days, for a total of 120 days after the date of publication of the *Preliminary Determinations*.³

Extension

With this notice, we notify the public that, for all aluminum foil from Korea and Thailand that was entered, or withdrawn from warehouse, for consumption during the period July 18, 2022 (the date of initiation of these circumvention inquiries), through March 22, 2023 (the date of publication of the *Preliminary Determinations* in the **Federal Register**), where the entry has not been liquidated (and entries for which liquidation has not become final), the relevant certification should be completed and signed as soon as practicable, but not later than 120 days after the date of publication of the *Preliminary Determinations* in the **Federal Register**, *i.e.*, no later than July 20, 2023. For such entries, importers, and exporters each have the option to complete a blanket certification covering multiple entries, individual certifications for each entry, or a combination thereof. The exporter must provide the importer with a copy of the exporter certification within 120 days of the date of publication of the *Preliminary Determinations* in the **Federal Register**.

On June 15, 2023, Commerce posted instructions to U.S. Customs and Border Protection (CBP) notifying CBP of the extended deadline.⁴ We note that Sankyu Thai Co., Ltd., the single company which Commerce precluded from participating in this certification program in the *Preliminary Determinations*, is still precluded from participating in the certification

Correction identified the proper AD and CVD cash deposit rates, which the *Preliminary Determinations* had misstated.

³ See Memorandum, "Circumvention Inquiries on Aluminum Foil from the People's Republic of China—Republic of Korea and Kingdom of Thailand: Extension of Deadline to Certify Certain Entries of Aluminum Foil," dated May 3, 2023. This memorandum inadvertently stated the relevant entry date as July 17, 2022; however, July 18, 2022 is the correct date.

⁴ See Message 3166406 dated June 15, 2023 (barcode 4389519) (Korea), and Message 3166405 dated June 15, 2023 (barcode 4389521) (Thailand).

program we established for applicable exports of aluminum foil from Thailand.⁵

Notification to Interested Parties

This notice is issued and published in accordance with sections 781(b) of the Tariff Act of 1930, as amended and 19 CFR 351.225(f) and (h).

Dated: June 21, 2023.

James Maeder,

Deputy Assistant Secretary for Antidumping and Countervailing Operations.

DEPARTMENT OF COMMERCE

National Institute of Standards and Technology

Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Form NIST–366A: Request for Personal Radiation Monitoring Services

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on April 4, 2023, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Institute of Standards and Technology (NIST), Commerce.

Title: Form NIST–366A: Request for Personal Radiation Monitoring Services.

OMB Control Number 0693–0086.

Form Number(s): NIST–366A.

Type of Request: Regular.

Number of Respondents: 600.

Average Hours per Response: 15 minutes.

Burden Hours: 150 hours.

Needs and Uses: This request is to extend clearance for the collection of routine information requested of individuals (including but not limited to federal employees, visitors, contractors,

associates) who work with or around sources of ionizing radiation on the NIST campus.

The information is collected for the following purposes:

(1) NIST is required by 10 CFR 20.1502 to monitor individuals who may be exposed to ionizing radiation above specific levels. This form will be used to collect information associated with this monitoring and to determine the type of monitoring required.

(2) NIST is required by 10 CFR 20.2106 to maintain records of radiation exposure monitoring. This form will be used to ensure the exposure information collected is properly associated with the individual using unique identifiers. In addition, NIST must provide reports to the monitored individuals when requested and to the NRC annually. This form will be used to ensure the correct information is provided to the individual.

Affected Public: Individuals.

Frequency: On occasion.

Respondent's Obligation: Mandatory.

Legal Authority: 10 CFR 20.1502 and 10 CFR 20.2106.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and entering either the title of the collection or the OMB Control Number 0693–0086.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

BILLING CODE 3510–13–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RTID 0648–XD079]

New England Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

⁵ See *Preliminary Determinations*, 88 FR at 17177–78.

ACTION: Notice of public meeting.

SUMMARY: The New England Fishery Management Council (Council) is scheduling a public meeting of its On-Demand Gear Conflict Working Group via webinar to consider actions affecting New England fisheries in the exclusive economic zone (EEZ).

Recommendations from this group will be brought to the full Council for formal consideration and action, if appropriate.

DATES: This webinar will be held on Tuesday, July 18, 2023, at 9 a.m.

ADDRESSES: Webinar registration URL information: <https://attendee.gotowebinar.com/register/6667813875842822745>.

Council address: New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950.

FOR FURTHER INFORMATION CONTACT:

Thomas A. Nies, Executive Director, New England Fishery Management Council; telephone: (978) 465-0492.

SUPPLEMENTARY INFORMATION:

Agenda

The On-Demand Fishing Gear Conflict Working Group will meet to discuss the working group's goals, timeline and deliverables. They will also review and approve Terms of Reference as well as receive updates from Greater Atlantic Regional Fisheries Office on Atlantic Large Whale Take Reduction Team efforts and ongoing on-demand experimental fisheries. They will also receive an update from the Northeast Fisheries Science Center gear research team. Other business may be discussed, as necessary.

Although non-emergency issues not contained on the agenda may come before this Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Thomas A. Nies, Executive Director, at (978) 465-0492, at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: June 22, 2023.

Key Israel Marquez,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; National Sea Turtle Stranding and Salvage Network Stranding and Gear Interaction Data Collection

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on July 5, 2022 (87 FR 39806) during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic & Atmospheric Administration (NOAA), Commerce.

Title: National Sea Turtle Stranding and Salvage Network Stranding and Gear Interaction Data Collection.

OMB Control Number: 0648-0496.

Form Number(s): None.

Type of Request: Regular submission, revision and extension of approved collection.

Number of Respondents: 750.

Average Hours per Response: STSSN Stranding Report form: 15 minutes; Gross Necropsy form (2 page version): 10 minutes; Gross Necropsy form (4 page version): 15 minutes; Cold Stun form and Cold Stun batch form: 10 minutes; Fishing Gear Identification form: 10 minutes; Incidental Capture Intake form: 5 minutes; Entanglement form: 15 minutes.

Total Annual Burden Hours: 1,682 annually.

Needs and Uses: This is a request for revision and extension of collection 0648-0496 entitled "Reporting of Sea Turtle Entanglement in Fishing Gear or

Marine Debris". We request to revise the name of the collection from "Reporting of Sea Turtle Entanglement in Fishing Gear or Marine Debris" to "National Sea Turtle Stranding and Salvage Network Stranding and Gear Interaction Data Collection" and to add new forms to the collection to be inclusive of all forms used by Sea Turtle Stranding and Salvage Network (STSSN).

NOAA's National Marine Fisheries Service (NOAA Fisheries) and the U.S. Fish and Wildlife Service (USFWS) share federal jurisdiction for the conservation and recovery of sea turtles. In accordance with the 1977 Memorandum of Understanding between NOAA Fisheries and USFWS, which was reaffirmed in 2015, NOAA Fisheries serves as the lead for and coordinator of the STSSN. The STSSN currently responds to, and documents, sick, injured and dead (*i.e.*, 'stranded') sea turtles that are found in coastal areas under U.S. jurisdiction along the Atlantic Ocean and Gulf of Mexico. NOAA Fisheries Office of Protected Resources coordinates the STSSN. The Sea Turtle Disentanglement Network (STDN) is a part of the STSSN. The STSSN is a cooperative effort of authorized Federal, State, and private partners working to inform causes of morbidity and mortality in sea turtles by responding to and documenting stranded sea turtles. Information is collected in a manner sufficient to inform sea turtle conservation management and recovery. The STSSN accomplishes this through (1) collection of data in accordance with STSSN protocols; (2) improved understanding of causes of death and threats to sea turtles; (3) monitoring of stranding trends; (4) provision of initial aid to live stranded sea turtles; (5) provision of sea turtle samples/parts for conservation-relevant research; and (6) availability of timely data for conservation management purposes. To facilitate this data collection, the STSSN uses several standardized data collection forms. To ensure all data collected by the STSSN are in the same collection, we propose adding the following forms to 0648-0496: STSSN Stranding Report form, Gross Necropsy forms (2 page and 4 page versions), Cold Stun Event individual and batch forms, Fishing Gear Identification form, and Incidental Capture Intake form (currently approved in collection 0648-0774, expiring December 31, 2024).

All species of sea turtle found in U.S. waters are listed as endangered or threatened under the Endangered Species Act (ESA). NOAA Fisheries and the USFWS share federal jurisdiction for the conservation and recovery of sea
