

approximately 97 acres each. The site is bordered by Anchor Avenue to the east, Parlier Avenue to the north, Monson Avenue to the west and East Manning Avenue to the south, near the city of Orange Cove, CA. (2) 160 acres of agricultural land bordered by Clark Road to the east and beyond by an Imperial Irrigation District (IID) irrigation canal and alfalfa crops.

The site is bordered by a vacant parcel with abandoned wooden structures to the north and beyond by the Imperial County detention facility. A dirt road borders the site to the west with an IID drainage canal and alfalfa crops located beyond. The site is bordered by a dirt road to the south and beyond by alfalfa crops, approximately three miles south of El Centro, CA; (3) 21 acres of agricultural land located at the northeastern edge of the town of Florence, AZ; (4) 235 acres of agricultural land bordered on the west by an asphalt road and agricultural land. The site is bordered on the north and east by dirt roads, irrigation ditches, and agricultural land. Located immediately south of the southeast corner of the site is a narrow strip of land along South Carter Lane, three miles northeast of the town of Eloy, AZ; (5) 100 acres of land located on the Safford Municipal Airport property approximately five miles northeast of Safford, AZ; (6) 115 acres of land bordered by U.S. 191 on the west, East Cardinal Drive on the north, South Lonesome Lane and residences on the east, and residences and undeveloped land on the south, approximately 4.5 miles south of Safford in Lebanon, AZ; (7) 136 acres of agricultural land bordered by E. Adams Avenue to the north, a dirt road to the east, E. Summer Avenue to the south and E. Hill Avenue to the west, approximately 3 miles west of Orange Cove, CA.

*Corrections Corporation of America:* (1) 20 acres of land that consists of 12 separate buildings located about 3,500 feet southeast of the Gila River and approximately 3/4 miles northeast of the Town of Florence between U.S. Route 89 and Bowling Road, Florence, AZ.

*Imperial County Sheriff's Department:* (1) 80 acre site located along the south side of McCabe Road and adjacent to the west side of Sperber Road in the agricultural area south of the city of El Centro, CA.

*City of Shafter:* (1) 15.97 acres of land located 676 feet east of Beech Street on the north side of Los Angeles Street in the southeast area of the city of Shafter, CA.

Each proposed site submitted to the BOP is in response to the Commerce Business Daily Notice issued June 13th.

The notice required potential offerors to submit a Phase I Environmental Survey conducted in accordance with the American Society for Testing and Materials, Standard Practice for Environmental Site Assessment Process. Also included as a "non-scope consideration" under Chapter 12 of the Standard Practice, are a delineation or identification of on-site wetlands, and an analysis of potential impacts to threatened or endangered species, or species of special status. In further evaluation of these sites, several aspects will receive detailed examination including utilities, traffic patterns, noise, cultural resources, threatened and endangered species and land uses. The BOP intends to award a firm-fixed price contract with award-fee incentives; a potential term of ten years consisting of a three-year base and seven one-year option periods; a performance-based statement of work based generally on the American Correctional Association Standards; and a management emphasis on contractor quality control. After publication of this notice, the BOP will issue a Request for Proposals (RFPs). Proposals may be offered for any or all of the 20 sites.

#### Alternatives

Alternatives will include the no action alternative, and all proposals received in response to the RFPs. Each alternative will be identified and fully examined. The DEIS will not contain a preferred alternative(s).

#### Scoping Process

Pursuant to the National Environmental Policy Act of 1969, as amended, (NEPA), a Scoping process will be conducted. As part of this process, public meetings will be held in Arizona and California to identify issues of concern for analysis during the NEPA process. Information packets containing a description of each site will be available during the meetings. Copies of the Phase I Environmental Site Assessments will be made available upon written request. During the preparation of the DEIS, there will be numerous opportunities for public involvement. The meetings, locations, dates and times will be well publicized in the local newspaper of record in the affected communities adjacent to the potential sites. Meetings will be held to allow interested persons to voice their concerns on the scope and significant issues to be examined as part of the NEPA process.

The Scoping process is being held to provide for timely public comments and understanding of Federal plans and programs with possible environmental

consequences as required by NEPA and the National Historic Preservation Act of 1966.

#### DEIS Preparation

Public notice will be given in the **Federal Register** and the local newspaper of record concerning the availability of the DEIS for public review and comment.

#### Address

Questions concerning the proposed action may be directed to: David J. Dorworth, Chief, Site Selection and Environmental Review Branch, Federal Bureau of Prisons, 320 First Street, NW., Washington, DC 20534, Attention: Debra J. Hood, Telephone (202) 305-1102, Telefacsimile (202) 616 6024, E-mail: siteselection@bop.gov

Dated: September 13, 2000.

**David J. Dorworth,**

*Chief, Site Selection and Environmental Review Branch.*

## DEPARTMENT OF LABOR

### Mine Safety and Health Administration

#### Proposed Information Collection Request Submitted for Public Comment and Recommendations; Ventilation Plans, Tests, and Examinations in Underground Coal Mines

**ACTION:** Notice.

**SUMMARY:** The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

**DATES:** Submit comments on or before November 20, 2000.

**ADDRESSES:** Send comments to Brenda C. Teaster, Acting Chief, Records Management Division, 4015 Wilson Boulevard, Room 709A, 4015, Arlington, VA 22203-1984. Commenters are encouraged to send their comments

on a computer disk, or via Internet E-mail to [bteaster@msha.gov](mailto:bteaster@msha.gov), along with an original printed copy.

Ms. Teaster can be reached at (703) 235-1470 (voice), or (703) 235-1563 (facsimile).

#### FOR FURTHER INFORMATION CONTACT:

Brenda C. Teaster, Chief, Records Management Division, U.S. Department of Labor, Mine Safety and Health Administration, Room 709A, 4015 Wilson Boulevard, Arlington, VA 22203-1984.

Ms. Teaster can be reached at [bteaster@msha.gov](mailto:bteaster@msha.gov) (Internet E-mail), (703) 235-1470 (voice), or (703) 235-1563 (facsimile).

#### SUPPLEMENTARY INFORMATION:

##### I. Background

Effective underground coal mine ventilation is necessary to protect against mine fires and explosions. Fresh air is coursed throughout the mine ventilation system to prevent asphyxiation of the miners from methane, carbon dioxide, carbon monoxide, and other gases commonly encountered in coal mines. Ventilation is the primary method of controlling miners' exposure to respirable dust and preventing the development of pneumoconiosis (black lung disease). In enacting Section 303(a) of the Mine Act, Congress expressly recognized these and related dangers associated with inadequate ventilation.

##### II. Desired Focus of Comments

Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments concerning the proposed extension of the information collection related to the Ventilation Plans, Tests, and Examinations in Underground Coal Mines, pending approval of the proposed rule on Plan Verification. MSHA is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary

for the proper performance of the functions of the agency, including whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

A copy of the proposed information collection request may be viewed on the Internet by accessing the MSHA Home Page (<http://www.msha.gov>) and selecting "Statutory and Regulatory Information" then "Paperwork Reduction Act Submissions (<http://www.msha.gov/regspwork.htm>)", or by contacting the employee listed above in the **FOR FURTHER INFORMATION CONTACT** section of this notice for a hard copy.

##### III. Current Actions

Underground coal mines are harsh, hostile, and deadly working environments. The ventilation system is one of the most vital life support systems in underground mining. An effective ventilation system is essential for maintaining a safe and healthful working environment. Ventilation related problems in underground coal mines have resulted in thousands of fatalities from explosions, fires and asphyxiation. In addition, the debilitating occupational lung diseases, black lung and silicosis, are controlled by ventilation practices.

An underground mine is a maze of tunnels that must be adequately ventilated with fresh air to provide a

safe environment for miners. Methane, a colorless, odorless explosive gas, is liberated from the coal strata. Other noxious gases and dusts from mining and blasting may be present. These explosive and noxious gases and dusts must be diluted, rendered harmless, and carried out of the mine by the ventilating currents. Sufficient air must be provided to maintain the air quality and dust concentrations in accordance with MSHA standards. Mechanical ventilation equipment of sufficient capacity must operate at all times while miners are in the mine. The mining environment is constantly changing as new openings are excavated, roof falls close entries, water collects and restricts openings, etc. Due to this constantly changing environment, frequent tests and examinations are necessary to ensure the integrity of the ventilation system and to detect any changes that may require adjustments in the system. Records of tests and examinations are necessary to ensure that the ventilation system is being maintained and that changes which could adversely affect the integrity of the system or the safety of the miners are not occurring. These examination requirements of 75.360 through 75.364 also incorporate examinations of other critical aspects of the underground work environment such as roof conditions and electrical equipment which have historically caused numerous fatalities.

*Type of Review:* Extension.

*Agency:* Mine Safety and Health Administration.

*Title:* Ventilation Plans, Tests, and Examinations in Underground Coal Mines.

*OMB Number:* 1219-0088.

*Recordkeeping:* 1 Year.

*Affected Public:* Business or other for-profit.

*Frequency:* Quarterly/on occasion.

*Affected Public:* Business or other for-profit.

## NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

### Advisory Committee on Preservation; Meeting

**AGENCY:** National Archives and Records Administration.

**ACTION:** Notice of meeting.

**SUMMARY:** In accordance with the Federal Advisory Committee Act (5 U.S.C. App. 2) and implementing regulation 41 CFR 101.6, the National Archives and Records Administration (NARA) announces a meeting of the Advisory Committee on Preservation. NARA uses the Committee's recommendations on NARA's implementation of strategies for preserving the permanently valuable records of the Federal Government.

**DATES:** October 26, 2000, from 9 a.m. to 4 p.m.

**ADDRESSES:** National Archives and Records Administration, 8601 Adelphi Road, lecture rooms B & C, College Park, MD 20740-6001.

**FOR FURTHER INFORMATION CONTACT:** Alan Calmes, Secretary, 301-713-7403.

**SUPPLEMENTARY INFORMATION:** The agenda for this meeting of sound recording experts to advise and provide guidance for the preservation and storage of the permanently valuable audio recordings of the Federal Government is:

1. Overview of the variety of audio formats in archival holdings.
2. Current archival preservation reformatting techniques.

3. Technical discussion of new preservation format alternatives.

4. Recommendations.

This meeting will be open to the public, but seating may be limited.

Dated: September 13, 2000.

**Mary Ann Hadyka,**

*Committee Management Officer.*

## NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

### National Endowment for the Arts; Combined Arts Advisory Panel

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), as amended, notice is hereby given that a meeting of the Combined Arts Advisory Panel, Design section (Access, Education and Heritage/Preservation categories), to the National Council on the Arts will be held from October 5-6, 2000 in Room 716 at the Nancy Hanks Center, 1100 Pennsylvania Avenue, NW., Washington, DC, 20506. A portion of this meeting, from 11 a.m. to 12 p.m. on October 6th, will be open to the public for policy discussion and guidelines review.

The remaining portions of this meeting, from 9 a.m. to 6 p.m. on October 5th, and from 9-11 a.m. and 12-2:45 p.m. on October 6th, are for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman of May 12, 2000, these sessions will be closed to the public pursuant to (c)(4)(6) and (9)(B) of section 552b of Title 5, United States Code.

Any person may observe meetings, or portions thereof, of advisory panels that are open to the public, and, if time allows, may be permitted to participate in the panel's discussions at the discretion of the panel chairman and with the approval of the full-time Federal employee in attendance.

If you need special accommodations due to a disability, please contact the Office of AccessAbility, National

Endowment for the Arts, 1100 Pennsylvania Avenue, NW., Washington, DC 20506, 202/682-5532, TDY-TDD 202/682-5496, at least seven (7) days prior to the meeting.

Further information with reference to this meeting can be obtained from Ms. Kathy Plowitz-Worden, Office of Guidelines & Panel Operations, National Endowment for the Arts, Washington, DC, 20506, or call 202/682-5691.

Dated: September 11, 2000.

**Kathy Plowitz-Worden,**

*Panel Coordinator, Panel Operations, National Endowment for the Arts.*

## NUCLEAR REGULATORY COMMISSION

[Docket No. 50-461]

### AmerGen Energy Company, LLC; Notice of Consideration of Issuance of Amendment to Facility Operating License, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. NPF-62 issued to AmerGen Energy Company, LLC (the licensee) for operation of the Clinton Power Station (CPS) located in DeWitt County, Illinois.

The proposed amendment along with associated exemption requests would revise the Technical Specification reactor vessel pressure/temperature limits for CPS.

Before issuance of the proposed license amendment, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act) and the Commission's regulations.

The Commission has made a proposed determination that the amendment request involves no significant hazards consideration. Under the Commission's regulations in 10 CFR 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from
