#### SUPPLEMENTARY INFORMATION:

*Title:* Tart Cherries Grown in Michigan, New York, Pennsylvania, Oregon, Utah, Washington, and Wisconsin. Marketing Order No. 930 (7 CFR part 930).

*OMB Number:* 0581–0177.

*Expiration Date of Approval:* January 31, 2024.

*Type of Request:* Extension and revision of a currently approved information collection.

*Abstract:* Marketing order programs provide an opportunity for producers of fresh fruits, vegetables, and specialty crops, in a specified production area, to work together to solve marketing problems that cannot be solved individually. Marketing order regulations help ensure adequate supplies of high-quality product and adequate returns to producers. Marketing orders are authorized under the Agricultural Marketing Agreement Act of 1937 (Act), as amended (7 U.S.C. 601–674). The Secretary of Agriculture oversees these operations and issues regulations recommended by a committee of representatives from the respective commodity industry. The information collection requirements in this request are essential to carry out the intent of the Act and to administer the program, which has operated since 1996.

The Federal marketing order for tart cherries (7 CFR part 930) regulates the handling of tart cherries grown in Michigan, New York, Pennsylvania, Oregon, Utah, Washington, and

Wisconsin. The marketing order authorizes volume regulations that provide for a reserve pool in times of heavy cherry supplies. The marketing order also provides for minimum grade and size regulations, and market research and development projects, including paid advertising. These provisions are not currently in use.

The marketing order, and rules and regulations issued thereunder, authorizes the Cherry Industry Administrative Board (Board), the agency responsible for local administration of the marketing order, to require handlers and growers to submit certain information. Much of this information is compiled in aggregate and provided to the Board to assist in carrying out marketing decisions.

The Board has developed 11 forms as a means for persons to file the required and minimum necessary reports with the Board, such as tart cherry inventories, shipments, diversions, and background data. All the information provided is needed to effectively carry out the requirements of the marketing order and fulfill the intent of the Act as expressed in the marketing order. Since this marketing order regulates canned and frozen forms of tart cherries, reporting requirements will be in effect all year.

Nine United States Department of Agriculture (USDA) forms are also included in this request. Tart cherry growers and handlers nominated by their peers to serve as representatives on the Board must submit nomination forms to the USDA. Formal rulemaking amendments to the marketing order must be approved in grower referenda authorized and conducted by the USDA. In addition, USDA may conduct a referendum to determine industry support for continuation of the marketing order. Finally, handlers are asked to sign an agreement to indicate their willingness to comply with the provisions of the marketing order if the order is amended. A standardized background form and combined Acceptance Statement for nominees to multiple committees are included in OMB No. 0581–0177.

The information collected is used only by authorized representatives of the AMS's regional and headquarters staff, and authorized Board employees. Authorized Board employees and the

industry are the primary users of the information, and AMS is the secondary user.

*Estimate of Burden:* Public reporting burden for this collection of information is estimated to average .227 hours per response.

*Respondents:* Tart cherry growers and for-profit businesses handling fresh and processed tart cherries produced in Michigan, New York, Pennsylvania, Oregon, Utah, Washington, and Wisconsin, and public members.

*Estimated Number of Respondents:* 642.

*Estimated Number of Responses:* 3,270.

*Estimated Number of Responses per Respondent:* 5.09.

*Estimated Total Annual Burden on Respondents:* 741 hours.

*Comments are invited on:* (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information collected; and (4) ways to minimize the burden of the collection of information on those who respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments should reference this docket number and be sent to AMS in care of the Docket Clerk at the address above. All comments received within the provided comment period will be available for public inspection during regular business hours at the same address.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

AMS is committed to compliance with the E-Government Act to promote the use of the internet and other information technologies, to provide increased opportunities for citizen access to Government information and services, and for other purposes.

A 60-day comment period is provided to allow interested persons to respond to the notice.

**Erin Morris,**

*Associate Administrator, Agricultural Marketing Service.*

### Submission for OMB Review; Comment Request

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments are requested regarding: whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by January 3, 2024 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

### Rural Business-Cooperative Service

*Title:* Indigenous Animals Harvesting and Meat Processing Grant Program.

*OMB Control Number:* 0570-NEW.

*Summary of Collection:* The Indigenous Animals Harvesting and Meat Processing Grant Program was authorized by Section 1001 of the American Rescue Plan (ARP) Act of 2021 (Pub. L. 117-2), which assists U.S. states and territories to build resilience in the middle of the supply chain and strengthen local and regional food systems. The Rural Business-Cooperative Service (RBCS) administers

this program, an agency within USDA Rural Development, in partnership with the Agricultural Marketing Service (AMS) and in consultation with the Office of Tribal Relations (OTR).

Indigenous Animals Grants are part of the broader Biden-Harris Administration \$1 billion investment to help expand independent processing capacity while also increasing competitiveness and equity in the food system. This administration has supported investment in tribal meat processing supply chains, including through the provision of direct technical assistance to Indian Country. This grant program seeks to improve the viability of tribal nations' food sovereignty initiatives and supply chain resiliency by developing and expanding animal protein processing activities related to indigenous animals. Additionally, this grant program is being made pursuant to the United States' government-to-government relationship with Indian tribes to further their self-governance goals of maintaining and improving food and agriculture supply chain resiliency.

*Need and Use of the Information:* The information provided will be used to determine applicant and project eligibility and to ensure that projects meet program goals and are for authorized purposes. Applicants that receive grant awards are also required to execute a Financial Assistance Agreement with the Agency and provide financial and project performance reports to the Agency to ensure that projects are being completed in a timely manner.

*Description of Respondents:* State, local, and Tribal governments.

*Number of Respondents:* 50.

*Frequency of Responses:* Annually.

*Total Burden Hours:* 2,328.

### Rural Business-Cooperative Service

*Title:* 7 CFR 1951—Servicing and Collection Common Forms.

*OMB Control Number:* 0570-NEW.

*Summary of Collection:* The Rural Housing Service (RHS), Rural Business and Cooperative Service (RBCS) and Rural Utilities service (RUS) agencies within the Rural Development mission area, hereinafter referred to as Agency, is the credit Agency for agriculture and rural development for the United States Department of Agriculture. The Agency offers loans, grants and loan guarantees to help create jobs and support economic development and essential services such as housing; health care; first responder services and equipment; and water, electric and communications infrastructure.
