

As an example, if a company with a baseline tariff effective April 15, 2010, has an outstanding compliance filing with an effective date of January 1, 2010, that the Commission accepts, the company must file the compliance tariff provisions as tariff records in accordance with the electronic file format of Order No. 714 with an effective date of April 15, 2010. The company also should file the tariff provisions with a January 1, 2010, effective date either as part of the transmittal letter or as a separate attachment.

• **FASTR Requirements for Natural Gas Pipelines.**

FASTR will be retired after the baseline tariff filings have been made and the current FASTR configuration for each company as of September 30, 2010, will be added to the Commission's database as historical records. Once a baseline tariff filing has been made, pipelines are no longer required to submit records in FASTR format. However, companies that wish to update their FASTR records for past periods may submit an electronic version in the FASTR ASCII file format as an attachment.
