#### SUPPLEMENTARY INFORMATION:

##### I. Background

U.S. Customs and Border Protection (CBP) regulations generally require that the master or vessel agent<sup>1</sup> of a commercial vessel submit certain arrival, entrance, and clearance data to CBP when traveling to and from U.S. ports of entry. See part 4 of title 19 of the Code of Federal Regulations (19 CFR part 4). The vessel agent must generally submit this data to CBP on paper forms. Some of the data collected through these forms is redundant or already available to CBP through other required data submission platforms, such as data required by the applicable U.S. Coast Guard (USCG) regulations. See 33 CFR 160.201–216.

On November 21, 2022, CBP published a notice in the **Federal Register** (87 FR 70850) announcing the Vessel Entrance and Clearance Automation Test (“the Test”). The Test allows for the partial automation and electronic filing of many of CBP’s paper-based commercial vessel arrival, entrance, and clearance data collections. Specifically, the Test allows participants to electronically submit to CBP, through the Vessel Entrance and Clearance System (VECS), when seeking to enter into or depart from a designated port, the entrance and clearance data

<sup>1</sup> For the purposes of this document, “vessel agent” may include a vessel master or commanding officer, authorized agent, operator, owner, consignee, or a third party contracted by the owner or operator of the vessel to prepare and submit entrance and clearance documentation to CBP on behalf of the vessel owner or operator.
