### Proposed Collection; Comment Request

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of Filings and Information Services, Washington, DC 20549.

#### Extension:

Rule 155, OMB Control No. 3235-0549, SEC File No. 270-492.

Rule 477, OMB Control No. 3235-0550, SEC File No. 270-493.

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") is soliciting comments on the collections of information summarized below. The Commission plans to submit these existing collections of information to the Office of Management and Budget for extension and approval.

Rule 155 under the Securities Act provides safe harbors for a registered offering following an abandoned private offering, or a private offering following an abandoned registered offering, without integrating the registered and private offering in either case. Rule 155 requires any prospectus filed as a part of a registration statement after a private offering to include disclosure regarding abandonment of the private offering. Similarly, the rule requires an issuer to provide each offeree in a private offering following an abandoned registered offering with: (1) Information concerning withdrawal of the

registration statement; (2) the fact that the private offering is unregistered; and (3) the legal implications of the offering's unregistered status. The likely respondents will be companies. It is estimated that 600 issuers will file Rule 155 submissions annually at an estimated 4 hours per response. Also, it is estimated that 50% of the 2,400 total annual burden hours (1,200 burden hours) would be prepared by the company. We estimate that the company's outside counsel would prepare the other 1,200 burden hours.

Rule 477 under the Securities Act sets forth procedures for withdrawing a registration statement or any amendment or exhibits thereto. The rule provides that if a registrant applies in anticipation of reliance on Rule 155's registered-to-private safe harbor, the registrant must state in the withdrawal application that the registrant plans to undertake a subsequent private offering in reliance on the rule. Without this statement, the Commission would not be able to monitor issuers' reliance on and compliance with Rule 155(c). The likely respondents will be companies. It is estimated that 300 issuers will file Rule 477 submissions annually at an estimated one-hour per response for a total annual burden of 300 hours.

Written comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.

Please direct your written comments to Michael E. Bartell, Associate Executive Director, Office of Information Technology, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549.

Dated: March 21, 2001.
