SUPPLEMENTARY INFORMATION:

Background

The Technology Administration, Office of Technology Policy held a roundtable on September 21, 2004, entitled Technology Recycling: Achieving Consensus for Stakeholders, that included representatives of electronics manufacturers, retailers, recyclers, and environmental organizations. At the roundtable, participants discussed that: (1) A list of products for recycling should be limited to a small number of items to start with, such as cathode ray tubes and flat panel

monitors over a certain size, and have a timetable for expansion of the list; (2) a collection process may include but should not mandate participation from retailers, local governments, manufacturers and third parties; (3) there exists several different financing models including extended producer responsibility and an advanced recovery fee, as well as financing the recycling of orphan products and transportation from collection to recyclers; and (4) there exists a need for a national approach as opposed to a state-by-state approach. The purpose of the roundtable was to obtain information for a report on electronics recycling that will be released in 2005.

Request for Comments

The Office of Technology Policy of TA is soliciting comments on the following specific issues regarding electronics recycling: (1) Definition of covered products; (2) collection and the role of government in collection; (3) financing collection, transportation and recycling, financing for orphan products, financing historical products versus future products, and the role of government, the electronics industry, and intermediaries in financing; and (4) the role of the federal government in creating a national recycling plan. This solicitation is intended to give those who were unable to comment at the roundtable an opportunity to submit a statement regarding these issues. Statements may propose a specific scenario or model for electronics recycling; give examples of existing programs in similar or unrelated areas that could serve as a model for an electronics recycling program; or comment on the pros and cons of existing or proposed models. TA is interested in specific scenarios that would enhance the competitiveness of U.S. industry and encourage conservation of resources.

We request, but do not require, that commentors provide their name, affiliation, and contact information and whether the comments represent the views of an individual or an organization. The Department reserves the right to use comments received, either partially or wholly, in subsequent reports or publications. Any comments become the property of the U.S. Department of Commerce.

For further information on the roundtable and the report, check the <http://www.technology.gov> website under Events and Activities, September

21, 2004, Technology Recycling Roundtable.

Notice of Proposed Information Collection Requests

AGENCY: Department of Education.

SUMMARY: The Leader, Information Management Case Services Team, Regulatory Information Management Services, Office of the Chief Information Officer, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before December 20, 2004.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Leader, Information Management Case Services Team, Regulatory Information Management Services, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) title; (3) summary of the collection; (4) description of the need for, and proposed use of, the information; (5) respondents and frequency of collection; and (6) reporting and/or recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment

addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Dated: October 15, 2004.
